

# UNIVERSITY STUDIES REQUIREMENTS

## (General Education and Depth Education)

---

Students who attended USU prior to Fall 1998 have the option of completing the former quarter General Education requirements (see pages 122-129) or the University Studies requirements. Students who attend USU for the first time during Fall 1998 or later must satisfy the University Studies requirements.

Students who transfer to USU and have an Associate of Arts or an Associate of Science degree (or have completed the General Education requirements of the sending institution from one of the institutions listed on pages 83-84), will be deemed as having satisfied certain requirements, depending on their initial enrollment date at USU. Those who began attending USU prior to Fall 1998 are considered as having met the former quarter General Education requirements. Those who began attending USU between Fall 1998 and Summer 2000 are deemed as having satisfied all University Studies requirements. Those who began attending USU Fall 2000 and later will be deemed as having satisfied the General Education portion of the University Studies requirements, and will be required to complete the Depth Education requirements at USU.

A student who transfers without an Associate of Arts or Associate of Science degree will need a registrar's certification stating that he or she has completed the General Education requirements at the sending institution.

Students who transfer to USU with less than an Associate Degree will have their General Education courses evaluated on a course-by-course basis and may be required to take any additional courses necessary to satisfy the General Education requirements at USU.

Utah State University will require students to satisfy an American Institutions requirement if an equivalent course has not been taken.

### University Studies Objectives: *The Citizen Scholar*

The mission of undergraduate education at Utah State University is to help students develop intellectually, personally, and culturally, so that they may serve the people of Utah, the nation, and the world. USU prepares citizen-scholars who participate and lead in local, regional, national, and global communities. University Studies is an integral part of every student's university experience—in both lower-division and upper-division courses. A solid University Studies foundation, combined with concentrated study in a major discipline and interdisciplinary studies, provides the breadth and depth of knowledge qualifying USU graduates as educated citizens.

The University Studies program is intended to help

students learn how to learn—not just for the present, but also for the future. No individual can master all, or even a small portion, of society's knowledge, but students can learn the basic patterns used to obtain and organize information, enabling them to discover or recover knowledge. University Studies involves a series of interrelated educational experiences which stimulate and assist students in becoming self-reliant scholars and individuals. The ultimate objective is for general and discipline-specific education to complement each other in helping students to:

1. understand processes of acquiring knowledge and information;
2. reason logically, critically, creatively, and independently and be able to address problems in a broad context;
3. recognize different ways of thinking, creating, expressing, and communicating in a variety of media;
4. understand diversity in value systems and cultures in an interdependent world; and
5. develop a capacity for self-assessment and lifelong learning.

By introducing ideas and issues in human thought and experience, University Studies courses help students achieve the intellectual integration and awareness needed to meet the challenges they will face in their personal, social, and professional lives. University Studies courses emphasize how knowledge is achieved and applied in different domains. Collectively, they provide a foundation and perspective for:

1. understanding the nature, history, and methods of the arts and humanities, as well as the natural and physical sciences;
2. understanding the cultural, historical, and natural contexts shaping the human experience; and
3. interpreting the important cultural, socio-economic, scientific, and technological issues of the diverse global community in which we live.

A university education prepares students to work and live meaningfully in today's rapidly changing global society. Together, general and discipline-specific education help students master the essential competencies making this goal possible. These competencies include:

1. reading, listening, and viewing for comprehension;
2. communicating effectively for various purposes and audiences;

3. understanding and applying mathematics and other quantitative reasoning techniques;

4. using various technologies competently; and

5. working effectively, both collaboratively and individually.

## University Studies Requirements

The University Studies program, along with study in the major, is designed to assist students in achieving the Citizen Scholar Objectives. The program consists of two sets of requirements: General Education Requirements and Depth Education Requirements. Students who have received an AA or AS degree at any institution within the Utah System of Higher Education, or at another institution with which USU has an articulation agreement, will be considered to have fulfilled the General Education Requirements, but must still complete the Depth Education Requirements.

Students who transfer to Utah State University with less than an Associate Degree (and have not completed General Education requirements) or with an Associate of Applied Science Degree will have their General Education courses evaluated on a course-by-course basis and may be required to take any additional courses necessary to satisfy the General Education requirements at Utah State University. However, if these students have taken equivalent courses at the sending institution, these courses will be accepted toward satisfying General Education requirements at Utah State University.

Courses approved as fulfilling General Education requirements at a Utah System of Higher Education (USHE) institution, Brigham Young University, LDS Business College, Westminster College, and Brigham Young University (Idaho) will be acceptable to Utah State University as satisfying comparable General Education requirements.

## General Education Requirements (27-31 credits)

USU's General Education program consists of two sets of requirements: Competency and Breadth.

### Competency Requirements (9-13 credits)

The Citizen Scholar Objectives propose that students should be able to communicate effectively, utilize quantitative methods, make appropriate use of technology, and function effectively in groups. The competency requirements are structured to develop these skills.

### Communications Literacy (CL) (6 credits)

Engl 1010 (CL). Introduction to Writing: Academic Prose (3)

or  
AP English Test: Score of 3 or higher  
or  
ACT English Test: Score of 29 or higher  
or  
CLEP English Composition Test: Score of 50 or higher  
or  
CLEP Freshman College Composition Test: Score of 53 or higher  
or  
SAT Verbal Test: Score of 640 or higher  
**AND**  
Engl 2010 (CL). Intermediate Writing: Research Writing in a Persuasive Mode (3)

### Quantitative Literacy (QL) (3-4 credits)

Math 1030 (QL). Quantitative Reasoning (3)  
or  
Math 1050 (QL). College Algebra (4)  
or  
Stat 1040 (QL). Introduction to Statistics (3)  
or  
One Mathematics or Statistics course requiring MATH 1050 as a prerequisite, such as Math 1100, 1210, 1220, or Stat 2300  
or  
AP Calculus AB Test: Score of 3 or higher  
or  
AP Calculus BC Test: Score of 3 or higher

### Computer and Information Literacy (CIL) (0-3 credits)

No specific course is required, but students must pass a competency exam in computer and information literacy. Communications Literacy, Quantitative Literacy, and Breadth courses associated with University Studies are intended to further develop these skills.

The Computer and Information Literacy exam has six parts:

- \* Electronic Mail
- \* Information Law and Ethics
- \* Information Resources
- \* Operating Systems and Environments
- \* Document Processing
- \* Spreadsheets

Students must score 70 percent or higher on each exam to pass. A student has met the requirement only after he or she has passed all six examinations. There is no college credit associated with this requirement. While some college credit classes (USU 1000, BIS 1400, CS 1020, Engr 1010, and Inst 1000) teach the required skills, simply passing the class does not meet the requirement. Only by passing all of the six CIL modules is the CIL requirement met. It is *strongly suggested* that students complete the CIL requirement during their freshman year.

There is a \$30 fee associated with this exam. Students having less than 60 semester credits when they register for their first semester at USU will be assessed a \$30 Computer and Information Literacy (CIL) fee. Others will be charged as they take the CIL tests.

Once the fee is paid, there is no limit to the number of times a student can take each test. Once a test is passed, a student may not retake that test.

**Advisor Waiver Form.** An Advisor Waiver Form may be used by students who are currently enrolled in BIS 1400, CS 1020, Engr 1010, or InsT 1000, and who do not need to have the CIL information posted to their transcript for any reason. The following do not need to have CIL posted to their transcripts:

- \* students graduating under the former Quarter General Education requirements.
- \* students who transfer to USU with an Associate degree from an institution that USU has an articulation agreement with (see pages 83-84).
- \* students who have satisfied the CIL requirement at another institution within the Utah System of Higher Education (see Articulation Agreements on pages 85-121).

Students who meet one of these exceptions should not complete an Advisor Waiver Form if they are an Education major or if they are taking any courses that require CIL as a prerequisite. Courses that require CIL as a prerequisite are most likely to be found in, but are not limited to, the following majors: Business Information Systems, Computer Science, Electrical Engineering, or Early Childhood Education.

If an Advisor Waiver Form is processed, the CIL information will not be posted to the student's transcript. Advisor Waiver Forms must be returned to the CIL Lab within the first three weeks of the semester in which the student is enrolled in the course. After the third week of classes, students will be charged the CIL fee if the CIL fee has not already been assessed. Students who complete an Advisor Waiver Form will not be assessed the CIL fee. Thus, an Advisor Waiver Form prevents a charge. It does not refund a previously posted charge.

If an Advisor Waiver Form is received from a student who does not have the CIL information posted to his or her transcript, and the student later realizes it is necessary to have the CIL information posted, the student will have to pay the \$30 CIL fee and retake the tests, or pay a \$45 CIL fee (which includes a one-time \$15 late fee). Thus, it is imperative that advisors and students communicate about whether or not CIL is required. Figure 12 on page 64 is a copy of the Advisor Waiver Form.

**CIL Fee Refund Application.** A CIL Fee Refund Application must be completed by any student who does not need to have the CIL information posted to his or her transcript, but has already been charged the CIL fee. The student's account will be credited and the CIL screen in SIS Plus is updated to indicate the reason why CIL is not required for that particular student. A CIL fee cannot be refunded once

the CIL test information has been posted to a student's transcript. Figure 13 on page 65 is a copy of the CIL Fee Refund Application.

**CIL on a Transcript.** At the end of the semester, the CIL information will automatically be posted to the transcripts of students who enroll in one of the above listed courses and who have had the CIL fee charged to their account. Once the CIL information appears on their transcripts, students are no longer eligible for a refund.

Students who pass the exams on their own (without registering for a course) must take additional steps to have the CIL information posted to their transcripts. After passing all of the tests, these students must go to the CIL web page, select **Recording on Transcript**, and then complete and submit the form. The CIL information will then be posted to their transcripts.

To learn more about the CIL requirement, visit the CIL Lab in ESLC 131. Hours are 8:00 a.m. to 8:00 p.m., Monday through Thursday; and 8:00 a.m. to 6:00 p.m. on Friday. A CIL technician may be reached at 797-0957. The CIL website is located at <http://complit.usu.edu>.

## Breadth Requirements (18 credits)

General Education breadth requirements are intended to introduce students to the nature, history, and methods of different disciplines; and to help students understand the cultural, historical, and natural contexts shaping the human experience. Breadth courses also focus on the important cultural, socio-economic, scientific, and technological issues of today's global community.

Students must take a minimum of 18 total credits, including at least one course from each of the six categories shown below.

**At least two of the six breadth courses must be University Studies courses (USU 1300, 1320, 1330, 1340, 1350, and 1360).** Students enrolled in the Honors Program may substitute Honr 1300H, 1320H, 1330H, 1340H, 1350H, and 1360H for USU 1300, 1320, 1330, 1340, 1350, and 1360. **Prerequisites are required for breadth courses followed by (prereq).** For details, see course listings in the *General Catalog*.

## Depth Course Requirements (2 courses)

Students are required to take two upper-division courses outside their major.

Approved 3000-level or above courses must be taken from two of the following three categories: **Depth Humanities and Creative Arts (DHA)**, **Depth Life and Physical Sciences (DSC)**, and **Depth Social Sciences (DSS)**. Each student must select one course from each of the two categories which *do not* include his or her major (e.g., Sociology majors would select one 3000-level or above course from the Depth Humanities and Creative Arts and one 3000-level or above course from the Depth Life and Physical Sciences). **Prerequisites are required for depth courses followed by (prereq.). For details, see course listings in the *General Catalog*.**

## Categorization of Majors

The courses that must be taken to satisfy University Studies requirements depend on the classification of the student's major. For example, Music is classified in the Creative Arts. Thus, a music major would not need to take a depth course in the Humanities and Creative Arts and might satisfy the Creative Arts breadth requirement by taking a departmentally designated course other than those breadth courses listed under Creative Arts.

Following is the categorization of majors used for University Studies. These abbreviations are used: **CA**—Creative Arts, **HU**—Humanities, **LS**—Life Sciences, **PS**—Physical Sciences, and **SS**—Social Sciences.
