

QUARTER GENERAL EDUCATION REQUIREMENTS

Students who attended USU for the first time during Fall 1998 or later are required to complete the University Studies program (see pages 43-51). Students who attended USU prior to Fall 1998 have the option of completing the General Education program or the University Studies requirements.

Transfer students who have not received an AA or AS degree and who transferred to USU from other colleges and universities before Fall Semester 2000 will be allowed to articulate into either the former General Education program or into the University Studies program. Students needing semester courses to complete the former Quarter General Education requirements can use:

- a. semester courses approved for University Studies.
- b. semester courses which are directly equivalent to quarter courses approved for General Education.
- c. semester courses which their advisor determines to be generally equivalent to quarter courses approved for General Education.

In addition to the University Requirements listed on pages 34-38, students who graduate under the quarter system must also fulfill the American Institutions requirement listed below. Credits in this section are listed as quarter credits unless otherwise indicated.

American Institutions Requirement

All graduates are required to have an understanding of the fundamentals of the history, principles, form of government, and economic system of the United States. Students may meet this requirement in any one of the following ways: (a) a passing grade on a special examination; (b) a passing grade on the Advanced Placement Examination in American History; (c) the satisfactory completion of a major or minor in economics, history, political science, or American studies; (d) the satisfactory completion of one of the following courses: HIST 170, American Civilization (5 credits); POLS 110, United States Government and Politics (5 credits); ECON 200, Introduction to Macroeconomics (5 credits); or USU 130, U.S. Institutions (5 credits); or (e) satisfactory completion of a 5-credit-hour transfer course equivalent to one of the courses in (d).

USU Written Communication and General Education Requirements (46 credits minimum)

Specific Written Communication and General

Education Requirements vary according to the student's Major. Each student is responsible to check the requirements for his or her Major. Students should make early contact with their Academic Advisor and understand the information in the *General Catalog* and on their Major Requirement Sheet.

The purpose of the University is to help students acquire knowledge, skills, and attitudes that prepare them for a full life and a useful career.

Courses required for a Major program of study prepare students to be successful in their chosen profession.

The General Education Requirements help students expand their awareness of life and the world they live in by strengthening their learning skills, broadening their knowledge, and by helping them to integrate knowledge from different subject areas and gain a better understanding of cultural traditions.

Written Communication Requirement (WC) 6 credits (minimum) from the list below

All students must successfully complete a minimum of 6 credits of Written English Composition. At least 3 of these credits must be in 200-level courses (above freshman level) or in higher level approved courses if the student has had the appropriate prerequisites. This minimum 6 credit requirement may be met by completing English courses from the Written Communication (English Composition) list below. Part of this requirement may be filled by examinations given in accordance with policies developed by the Board of Regents and the USU Department of English. The CLEP or AP Tests may be used to fill 3 credits of this requirement at the 100 freshman level.

(Colleges and Departments may require more than 6 credits of English and may require specific additional courses to complete this requirement. See Major Requirement Sheet and advisor for specific courses allowed.)

General Education Requirements (40 credits minimum)

(1) Learning Skills Requirements (SK) - 10 Credits

Ten total credits including:

- At least one course from Group I, and
- Courses from at least 2 of the 6 subject areas listed below in Groups I and II.

Note: Colleges and Departments may require specific courses in this area. See your Major Requirement Sheet and Academic Advisor.

Learning Skills Courses (SK):

Group I—Students must take at least one course from this group in Math or Computer Literacy or Deductive Logic.

Subject Areas: (1-Math, 2-Computer Literacy, 3-Deductive Logic)

1. Mathematics

MATH	101	SK	Intermediate Algebra	(5)
Or any higher-level math course requiring MATH 101 as a prerequisite, including MATH 201 (SK) and 202 (SK), and STAT 201 (SK).				
Semester Course which may be used to fill Quarter General Education Mathematics Learning Skills Requirement:				
MATH	1010		Intermediate Algebra	(3 sem. cr.)

2. Computer Literacy

BIS	140	SK	Microcomputer Applications in Business	(3)
CS	150	SK	BASIC Programming	(4)
CS	160	SK	Elementary Computer Science, Algorithms, and Problem Solving	(4)
CS	170	SK	Computer Science I	(4)
CS	171	SK	Computer Science II	(3)
CS	172	SK	Computer Science III	(3)
CS	241	SK	FORTAN Programming	(3)
CS	251	SK	COBOL Programming	(3)
Semester Courses which may be used to fill Quarter General Education Computer Literacy Learning Skills Requirements:				
BIS	1400		Microcomputer Applications in Business	(3 sem. cr.)
CS	1700		Introduction to Computer Science—CS 1	(3 sem. cr.)
CS	1710		Introduction to Computer Science—CS 1 Lab	(1 sem. cr.)
CS	1720	QI	Introduction to Computer Science—CS 2	(3 sem. cr.)
CS	3410	DSC/CI	Algorithm Development: JAVA/Internet	(3 sem. cr.)

CS	3500	DSC/QI	Algorithm Development: Visual BASIC/Graphical User	(3 sem. cr.)
CS	3510	DSC/QI	Algorithm Development: COBOL/Business	(3 sem. cr.)

3. Deductive Logic

PHIL	210	SK	Deductive Logic	(5)
Semester Course which may be used to fill Quarter General Education Deductive Logic Learning Skills Requirement:				
PHIL	2200	QI	Deductive Logic	(3 sem. cr.)

Group II—Learning Skills Courses

The remainder of the 10 credits in Learning Skills may be taken in Group I or in Group II, however, the 10 credits must include courses from 2 of the 6 subject areas.

Subject Areas: (4-Foreign Languages, 5-Library Information Retrieval, 6-American Sign Language)

4. Foreign Languages-101 or higher level (or 1010 or higher)

5. Library Information Retrieval

INST	100	SK	Use of Libraries and Learning Resources	(3)
HONR	100H	SK	Library Literacy	(2)
Semester Course which may be used to fill Quarter General Education Requirement:				
INST	1000		Information Literacy	(3 sem. cr.)

6. American Sign Language

COMD	338	SK	Sign Language I	(3)
Semester Course which may be used to fill Quarter General Education Requirement:				
COMD	2910	CI	Sign Language I	(4 sem. cr.)

(2) Broadening Knowledge Requirements

All students must complete one of the two options shown below. **Students should check their Major Requirement Sheet and contact their Academic Advisor, Department, College, or University Advising and Transfer Services to determine which option they should complete for their Major.**

Broadening Knowledge Requirement Option I—Standard Program (30 credits)

This option is required by some Majors at USU.

(Courses in the Major subject cannot be used to fill Broadening Knowledge Requirements.)

The courses in the Broadening Knowledge Requirements are divided into 4 Major Areas plus an Integrative Option Area. These 5 areas are:

1. Humanities and Arts (HU): Where aesthetic need, creative powers, and distinctive human talents are explored;

2. Social Sciences (SS): Which examines the behavior, institutions, and social structures of human beings;

3. Life Sciences (LS): Which explores the organization and vital functions of living organisms;

4. Physical Sciences (PS): Which emphasizes nature and workings of the universe;

5. Integrative Knowledge Option (IO): Courses which focus on the integration of knowledge from at least two of the four areas listed above.

The **30 credits** required for the **Broadening Knowledge Option I Requirements** are **distributed across the 5 areas of Humanities and Arts (HU), Social Sciences (SS), Life Sciences (LS), Physical Sciences (PS), and Integrative Option (IO)**. Students should make sure they complete the number of credits required by their Major Area from approved lists in Humanities and Arts (HU), Social Sciences (SS), Life Sciences (LS), Physical Sciences (PS), and Integrative Option (IO). Students should consult with their Academic Advisor in their Department. **Engineering students should see pages 125-126 for their General Education requirements.**

Example: A student Majoring in the **Social Sciences (SS)** Area has a different distribution of credits than a student Majoring in the **Physical Sciences (PS)** Area.

All Academic Majors are located in one of the following four Broadening Knowledge Areas: **Humanities and Arts (HU), Social Sciences (SS), Life Sciences (LS), or Physical Sciences (PS)**. The Broadening Knowledge Requirement Option I credit distribution is different for each of the 4 Major Areas (see credit distribution tables 1 and 2 on page 122).

Broadening Knowledge Requirement Option II—Liberal Arts and Sciences (LAS) Area Studies Certificate (46 credits min.)

This option is required or highly recommended by many majors and may be used for any major if approved by the major college and department. It offers students the systematic exposure to writing, thinking, interdisciplinary breadth, and in-depth study that even the most technical jobs of the twenty-first century will demand.

Students taking this option must complete all of the following requirements:

a. A minimum of 46 total credits, as shown in requirements B and C.

b. LAS 125 (IO) (Pathways to Knowledge) 3 credits. This is the Liberal Arts and Sciences Program (LAS) orientation course.

c. Complete two of the following LAS course **clusters** for a total of 43 credits minimum.

- 1. Beauty Cluster (20 credits)**
- 2. Civilization Cluster (27 credits)**
- 3. Science and Society Cluster (25 credits)**
- 4. Future Environments Cluster (27 credits)**
- 5. Matter and Spirit Cluster (23 credits)**
- 6. Any additional LAS cluster approved by the University.**

At graduation, students who have completed these Broadening Knowledge Option II LAS requirements will receive an area studies certificate. Students can obtain detailed requirements and advisement about this option from the HASS Advising Center in Taggart Student Center 302, 797-3883, or by writing to Liberal Arts and Sciences, Utah State University, 0107 Old Main Hill, Logan UT 84322-0107.

Students should see their assigned Academic Advisor concerning overall program planning for their major.

List of Undergraduate Majors

(The following list shows each Major and its Broadening Knowledge classification by Major Area i.e. Humanities and Arts (**HU**) or Social Sciences (**SS**) or Life Sciences (**LS**) or Physical Sciences (**PS**).

College of Agriculture

- International Agribusiness:
 - Options in Animal, Dairy and Veterinary Sciences, Plant Science, Agricultural Education, **LS**
 - Options in Soil Science, **PS**
 - Options in Agricultural Economics, **SS**
- Agricultural Education (all options), **LS**
- Agricultural Systems Technology, **LS**
- Animal, Dairy and Veterinary Sciences (all majors and options), **LS**
- Economics and Agricultural Economics (all majors and options), **SS**
- Nutrition and Food Sciences (all majors and options), **LS**
- Plants, Soils, and Biometeorology (all majors and major options), **LS**

College of Business

All majors and major options, **SS**

College of Education and Human Services

- Communicative Disorders and Deaf Education (all options), **SS**
- Elementary Education (increased requirements meet requirements for the four major areas, **LS, PS, SS, HU**)
- Family and Consumer Sciences (all major options), **SS**
- Family, Consumer, and Human Development (all major options), **SS**
- HPER:
 - Health Education Specialist major, **LS**
 - All other majors, **SS**
- Instructional Technology (no BS degree programs)
- Psychology (all major options), **SS**
- Secondary Education (Note: All majors are associated with a program outside the department and will follow the major area of the other department.)
- Special Education (all major options), **SS**

College of Engineering

All majors and major options, **PS**
(See pages 125-126 for Engineering General Education Requirements.)

College of Humanities, Arts and Social Sciences

Aerospace Studies (no degree)
Art (all major options), **HU**
English:
Standard English major and options, **HU**
English teaching major and options, **HU**
American Studies:
Social Science concentration, **SS**
Literature, **HU**
History (all majors and major options), **SS**
Interior Design major, **HU**
Journalism and Communication (all majors and major options), **SS**
Landscape Architecture and Environmental Planning
(all majors and major options), **HU**
Languages, Philosophy, and Speech Communication
(all majors and major options), **HU**
Liberal Arts and Sciences, **HU**
Military Science (no degree)
Music (all majors and major options), **HU**
Political Science (all majors and major options), **SS**
Sociology, Social Work and Anthropology
(all majors and major options), **SS**
Theatre Arts (all majors and major options), **HU**

College of Natural Resources

All majors and major options satisfy the **LS** requirement except Geography, **SS**, and Watershed Science, **PS**.

College of Science

Biology (all majors and major options), **LS**
Chemistry and Biochemistry
(all majors and major options), **PS**
Computer Science (all major options), **PS**
Geology (all majors and major options), **PS**
Mathematics and Statistics (all majors and major options), **PS**
Physics (all majors and major options), **PS**

Honors Program (no degrees offered)

**Broadening Knowledge Requirement–Option I
(30 Credits Minimum)**

Specific Credit Requirements by Major Areas

Table 1 and Table 2 below show how General Education Broadening Knowledge credits are distributed for each of the four Major Areas. Distribution of credits in the Broadening Knowledge Requirement is designed to provide students with a more balanced education. Students with Majors in the related areas of Humanities and Arts, and Social Sciences, are required to complete more credits in the Sciences (Life Sciences and Physical Sciences). Students with Majors in the Sciences (Life Sciences and Physical Sciences) are required to complete more credits in the Humanities and Arts, and Social Sciences.

Students in the Colleges of Agriculture, Business, Education and Human Services, Natural Resources, and Science should use Broadening Knowledge Requirement Credit Distribution Table 1.

Students in the College of Humanities, Arts and Social Sciences use Broadening Knowledge Requirement Credit

Distribution Table 2.

Students in the College of Engineering follow the College of Engineering General Education Requirements shown on pages 125-126.

Broadening Knowledge Requirement—Option II

(46 Credits Minimum) (2.5 GPA)

For detailed information or to apply for the LAS Certificate, visit the HASS Advising Center in TSC 302.

Credit by Examination

Students may apply CLEP, Advanced Placement, and other approved examination credit toward the undergraduate degree in accordance with State Board of Regents' policy. It is possible for General Education coursework (including part of the Written Communication Requirement and all of the American Institutions requirement) to be fulfilled by examinations; however, students may elect to take General Education courses for personal and professional enrichment.

Students Transferring to Utah State University

If in compliance with current articulation agreements, General Education courses completed at any accredited institution of higher education in the State of Utah will fill General Education requirements, including Communication Skills. Where the designations are appropriate, courses are identified with the following prefixes: **SS, Social Sciences; LS, Life (Biological) Sciences; PS, Physical Sciences; HU, Humanities and Arts.**

Students with Associate of Science and Associate of Arts degrees from Utah Institutions (or from other institutions with which USU has articulation agreements) are assumed to have completed the General Education requirements.

College of Engineering

Written Communication and General Education Requirements for Engineering Majors (BS Degrees) (40 credits, plus a minimum of 6 credits in Written Communication) (Students in all Majors in the Department of Industrial Technology and Education complete the standard University General Education Broadening Knowledge Requirements for Majors in the Physical Sciences Area of Broadening Knowledge Requirement Credit Distribution Table 1. See Major Requirement Sheet and Academic Advisor.)

Note: Students in the College of Engineering who are Engineering Majors must satisfy Utah State University Written Communication and General Education requirements as well as the College of Engineering breadth and depth requirements described below. Students should carefully plan their General Education Program to ensure meeting both sets of requirements.

The Written Communication and General Education requirements for Engineering Majors in the College of

Engineering are somewhat more restrictive than the general education program for the University due to accreditation standards imposed by ABET (Accreditation Board for Engineering and Technology). Students who complete the engineering program also satisfy University Written Communication and General Education requirements.

**College of Engineering
Written Communication Requirements
(6 credits)**

The Written Communication requirement is satisfied by completion of ENGL 101 (English Composition) or ENGL 111 (Strategies of Writing); and ENGL 201 (Research Writing) or HONR 204 (Writing Seminar). Advanced Placement (AP) English credit or College Level Examination Program (CLEP) credit may be substituted for ENGL 101. ENGL 201 or HONR 204 may not be taken using *P-D-F* grading option.

General Education Requirements for Engineering Majors Only

Learning Skills Requirement (10 credits) including:
(a) at least one course from Group 1, and (b) courses from at least 2 of the 6 subject areas. (See Learning Skills Courses on page 120 of this handbook.)

College of Engineering Broadening Knowledge Requirement (30 credits) Credit Distribution				
Humanities and Arts (HU)	Social Sciences (SS)	Life Sciences (LS)	Physical Sciences (PS)	Integrative Option (IO)
5-16	5-16	0-6	0-5*	0-9**

*Outside the courses taught by the major. Required Chemistry and Physics courses satisfy this requirement.

**Integrative Option (IO) courses are not required, but may be used to satisfy up to 9 of the 30 credits required for the Broadening Knowledge Requirement. Only one IO course taught by a department in the Physical Sciences quadrant may be selected.

Transfer Students

Transfer students coming to USU with an Associate degree from a Utah college or university have been deemed as meeting the USU General Education Requirements, but not necessarily the College of Engineering requirements. Students with transfer credits in General Education areas will need to have their transfer credit evaluated by the College of Engineering to determine if it will satisfy USU and/or College of Engineering General Education requirements.

College of Engineering

**General Education Breadth and Depth Requirement
(28 credits minimum)**

Breadth Requirement:
Complete at least one course in four of the five breadth and depth areas. ECON 200 is required.

Consult with the College of Engineering for semester equivalencies.
