

Credit by Examination and Advanced Coursework

Advanced Placement (AP)

Advanced Placement examinations are offered at the high school level only. A number of examination areas are available; not all high schools offer all available AP examinations. Generally, the major areas chosen include English, American history, mathematics, chemistry, and physics.

Examinations are scored on a one-to-five scale. Students may receive 3 to 10 credits for a composite score of 3, 4, or 5 on any Advanced Placement examination. Earned credit may be applied toward the University Studies requirements, and may also be accepted as equivalent to specific courses.

This information is summarized as follows:

AP Score	USU Credits Granted
0, 1, or 2	0
3, 4, or 5	3 to 10

Other institutions have policies differing from those of USU regarding AP scores and credits granted for those scores. For transfer students with less than an associate degree, AP credit posted to another institution's transcript is reevaluated based on USU's standard.

If, prior to (or after) taking an AP examination, a student receives credit for any coursework equivalent to the subject matter of an AP examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

To ensure that AP credits will be posted to their transcripts, students are responsible to submit their AP scores to the Admissions Office, Taggart Student Center 102. Efficient posting of AP credits helps advisors counsel students about requirements.

For further information regarding credits granted for AP examinations, contact the Registrar's Office, (435) 797-1081.

AP Tests Taken Prior to Fall 2007

For historical data on how credits were accepted prior to Fall 2007, contact the Registrar's Office at (435) 797-1081.

Advanced Placement (AP) Credit Allocation Table

AP Test	Score	Credits	USU Credit Awarded
Art History	3-4 5	6 6	[ARTH 2710 (BHU) (3) or ARTH 2720 (BHU) (3)] + 3 elective credits ARTH 2710 (BHU) (3) + ARTH 2720 (BHU) (3)

*The student/advisor may choose the CHEM 1110 or CHEM 1210 track according to what best suits the student's major.

**The student/advisor may choose the PHYS 2110 or PHYS 2210 track according to what best suits the student's major.

College-Level Examination Program (CLEP)

The CLEP examinations were designed for students who wish to utilize previous knowledge and experience in lieu of required coursework. CLEP is a national program of credit-by-examination, allowing students to obtain recognition for college-level achievement. This privilege is intended to measure information and training gained from practical experience that may be considered the equivalent of the experience and training received by students in an organized course given at the University.

Credits may be acquired through the CLEP examinations. These credits may be used to fill General Education Requirements, and may also be accepted as equivalent to specific courses. Students interested in taking a CLEP exam should contact the University Testing Center, University Inn 115.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the CLEP exams may not satisfy.

If, prior to (or after) taking a CLEP examination, a student receives credit (including AP credit) for any coursework equivalent to the subject matter of a CLEP examination, the credits earned for the course will be deducted from the credits earned for the examination.

A student is *not allowed* to take and receive academic credit for a CLEP examination *after* he or she has completed an equivalent or more advanced course within that subject matter. Any exceptions *must* be approved by a student's academic college.

USU will accept a maximum of 30 total credits from CLEP, DANTES Standardized Subject Tests (DSST), and cooperative education/ internship credit combined.

Other institutions have policies differing from those of USU regarding CLEP scores and credits granted for those scores. For transfer students with less than an associate degree, CLEP credit posted to another institution's transcript is reevaluated based on USU's standard.

CLEP Tests Taken Prior to Fall 2001

In Fall 2001, CLEP began using computer-based testing. The results of the computer-based tests are somewhat different for most of the exams. For historical data on how credits were accepted prior to Fall 2001, see an earlier version of the *Advisor Handbook*, or contact the Office of University Advising at (435) 797-3373.

Credit by Examination and Advanced Coursework

College-Level Examination Program (CLEP) Credit Allocation Table

CLEP Test	Min. Score	Credits	USU Credit Awarded
American Government	60	3	3 (BAI) credits
American Literature	50	3	ENGL 2160 (3)
Analyzing & Interpreting Literature	52	3	ENGL 2200 (BHU) (3)

West. Civ. I: Ancient Near East to 1648	50	3	HIST 1100 (BHU) (3)
West. Civ. II: 1648 to the Present	50	3	HIST 1110 (BHU) (3)

*Students who plan to use PSY 3660 for teacher licensure should contact the Graduation, Educator Licensing, and Accreditation Office in Education 103, phone (435) 797-1443, prior to making arrangements for the examination.

Credit by Examination and Advanced Coursework

DANTES Subject Standardized Tests (DSST)

DSSTs provide an opportunity for people to obtain college credit for what they have learned in nontraditional ways.

Designed originally for the military, DSSTs are available to civilian students and adult learners as well. The DSST program is used by colleges and universities to award college credit to those who demonstrate that they have knowledge comparable to someone who completed a classroom course in the subject.

Credits may be acquired through the DSST examinations. These credits may be used to fill General Education Requirements, and may also be accepted as equivalent to specific courses.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the

minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the DSST exams may not satisfy.

If, prior to (or after) taking a DSST examination, a student receives credit (including AP credit) for **any coursework equivalent to the subject matter** of a DSST examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

USU will accept a maximum of 30 total credits from CLEP, DSST, and cooperative education/internship credit combined.

Other institutions have policies differing from those of USU regarding DSST scores and credits granted for those scores. For transfer students with less than an associate degree, DSST credit posted to another institution's transcript is reevaluated based on USU's standard.

DANTES Subject Standardized Tests (DSST) Credit Allocation Table

Technical Writing	46	3	3 lower-division general elective credits
Western Europe Since 1945	45	3	3 lower-division general elective credits

International Baccalaureate Organization (IBO)

The IBO is a nonprofit educational foundation based in Geneva, Switzerland. It grew out of international schools' efforts to establish a common curriculum and university entry credential. The schools were also motivated by an idealistic vision. They hoped that critical thinking and exposure to a variety of points of view would encourage intercultural understanding by young people.

They concentrated on the last two years of school before university studies in order to build a curriculum that would lead to what they called a "baccalaureate," administered in any country and recognized by universities everywhere.

USU recognizes the International Baccalaureate program. Students who enter with International Baccalaureate credit are awarded admission to the Honors Program. Students who present an International Baccalaureate diploma will be awarded a maximum of 30 credits. These credits will waive the appropriate Breadth and Communications Literacy requirements, but students will still be required to complete the Quantitative Literacy and Computer and

Information Literacy requirements, unless their individual scores on IB exams waive those requirements. Each student's transcript will be evaluated individually, based on the courses he or she has completed.

Students who have not completed the International Baccalaureate diploma may receive 3 or more credits for scores of 4 to 7 on standard- or higher-level exams (as shown below), up to a maximum of 30 credits.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the IBO exams may not satisfy.

If, prior to (or after) taking an IBO examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of an IBO examination, the credits earned for the course will be deducted from the credits awarded for the examination.

Other institutions have policies differing from those of USU regarding IBO scores and credits granted for those scores. For transfer students with less than an associate degree, IBO credit posted to another institution's transcript is reevaluated based on USU's standard.

International Baccalaureate Organization (IBO) Credit Allocation Table

IBO Test	Score ¹	Credits	USU Credit Awarded
Biology	4-7 SL	3	3 (BLS) credits
Biology	4-7 HL	6	3 (BLS) credits + 3 elective credits
Business & Management	4-7 SL	3	3 elective credits

Visual Arts	4-7 SL	3	3 (BCA) credits
Visual Arts	4-7 HL	3	3 (BCA) credits

¹Standard-level scores are followed by **SL**. Higher-level scores are followed by **HL**. If no standard-level score is shown for a particular test, then *no* USU credits are granted for a standard-level score in that area.

²The student or advisor may choose the CHEM 1110 or CHEM 1210 track, according to what best suits the student's major.

Placement Tests

Following is a list of areas offering placement tests.

English

ACT test scores may be used as a placement tool for recommending the level of courses to be taken.

An ACT English score of 29 or higher, or an SAT Verbal score of 640 or higher, will waive English 1010 and qualify a student for placement in English 2010 after the student has earned 30 credits. Students with an English ACT score of 16 or lower will be required to take English 0010.

Mathematics and Statistics

ACT or SAT mathematics section scores obtained within the prerequisite acceptability time limit (one calendar year or three successive semesters including summer semester), along with other pertinent information (high school coursework, etc.), are used as a basis for placing incoming freshmen in proper mathematics or statistics courses. Students wanting to obtain approval for registration in the mathematics and statistics courses listed below or with questions about related issues should go to the Drop-in Advisement Office (Lund 201) in the Department of Mathematics and Statistics. Information about hours for advisement is available by phone at (435) 797-0268 or on the Department of Mathematics and Statistics undergraduate Web pages (<http://www.math.usu.edu/>).

Placement in Mathematics and Statistics Courses		
Course	Math ACT Score	Math SAT Score
MATH 1030	23 or higher	540 or higher
MATH 1050	23 or higher	540 or higher
MATH 1060	23 or higher	540 or higher
MATH 1100	25 or higher	580 or higher
MATH 2020	25 or higher	580 or higher
MATH 1210	27 or higher	620 or higher

To qualify for **fall semester** enrollment in the above courses, students must have met a prerequisite *after August 15 of the previous year*. To qualify for **spring semester** enrollment in the above courses, students must have met a prerequisite *after January 1 of the previous year*. To qualify for **summer semester** enrollment in the above courses, students must have met a prerequisite *after June 1 of the previous year*.

Regardless of any previous record, students with an ACT mathematics score of less than 23 are required to take the Math Placement Test administered by the Department of Mathematics and Statistics. In addition, students who do not meet the prerequisite acceptability time limit requirement must take the Math Placement Test. The scores for placement in MATH 1010 and STAT 1040 should be used as an indication of where a student should be placed. The fee for taking the Math Placement Test is \$10, and students may take the test as required. The exams will be given at specified times in Geology 405 or in Geology 310. Students with special circumstances will be able to take the Math Placement Test in Lund Hall.

Credit by Examination and Advanced Coursework

The Math Placement Test is administered online using an Internet browser. Students will be advised based on the results obtained on the Math Placement Test. Students may choose to enroll in a one-week math refresher course offered by the Department of Mathematics and Statistics. The fee for this course is \$100 and includes the fee for taking the Math Placement Test at the beginning of the course and again at the end of the course. Refresher courses will be offered at the beginning of fall and spring semesters, *either* during the week before the semester begins *or* during the first week of classes (based on when the semester begins).

TOEFL

The Test of English as a Foreign Language (TOEFL) is required for international students (from countries in which English is not the official language) for admission to the University. It is not used for granting credit nor for waiver of the communications literacy requirement. International undergraduate students are required to complete the Intensive English program unless they receive a score of at least 500 paper/pencil or at least 61 iBT (Internet-based test) on the TOEFL examination, a Michigan score of 80 or higher, or a 5.0 or higher on the IELTS examination. **Note:** The minimum TOEFL and IELTS scores acceptable for undergraduate students entering USU during the 2010-2011 academic year will be raised to 525 paper/pencil, iBT 71, and IELTS 6.0 (with a minimum of 5.0 on each sub-scale).

Languages

Where basic skills in a language have been acquired by means other than college courses, up to 16 lower-division credits may be earned by special examination.

Students with skills in a language other than those offered by the department may earn up to 16 pass/fail credits by successfully performing on a special Languages, Philosophy, and Speech Communication Department examination. However, these examinations are no longer offered at USU. Interested students must make arrangements to take one of these exams at Brigham Young University.

Students with skills in a language that is offered by the Languages, Philosophy, and Speech Communication Department may earn credit by successfully performing on an examination or by successfully completing an upper-division (3000-level or above) language course with a grade of *B* or better. Students should contact the Languages, Philosophy, and Speech Communication Department in Main 204, (435) 797-1209.

Credit by Departmental Examination

Matriculated students may challenge a course for credit by taking a departmental examination. Departments will determine if a course is appropriate for challenge; students should contact the instructor and/or department. If a challenge examination is available, the instructor should advise the student as to whether he or she has a reasonable chance of passing. The examination will survey knowledge of the course content and may include papers, projects, portfolios, etc.

Students challenging a course for which they are registered must do so within the first two weeks of the course. Students not registered will be required to pay a fee (standard recording fee and course-specific examination fee). Students who take a departmental examination will receive the exam grade posted to their transcript for that course. Credits earned through departmental examination may be used to meet the minimum USU course requirement.

Credit by Advanced Coursework (Language Credits)

Students who are proficient in a foreign language offered by Utah State University may earn lower-division credit through successfully passing a more advanced course. Application for these credits should be made in the Department of Languages, Philosophy, and Speech Communication. Students will be required to pay a posting fee.

Students who receive credit by advanced coursework will receive a grade posted to their transcript with a designation that it was earned by advanced coursework. Credits earned through this option cannot be used to meet the minimum USU course requirement and are treated as transfer work.
