

Aggie CARE's Work and Family Life Faculty Forum Minutes

August 10, 2010

Attendees: Carrie Stott, Leah Schilling, Cara Allen, Beth Fauth, Renee Bryce, Xiaojun Qi, Sanghamitra Roy

Discussion within the group focused on individuals sharing their personal experiences of being on a tenure track and having young children or being pregnant during that time.

The group was enlisted to make suggestions on ideas of how USU can assist families with emergency drop in care and sick children options. Brainstorm ideas were discussed about current family options and possible services that would benefit faculty and/or all university families when a child or your child provider is sick. The suggestions made will be used in further discussions with Human Resources on possible employee benefit enhancements.

The new center is slated to open Wednesday, August 25, 2010. There will be eight infant slot openings in the new building. Lisa Boyce is the contact for specific questions on child placement. She can be reached at lisa.boyce@usu.edu or call 797-3657.
