Student Evaluation Comments

Fall 2008

Wish I would have known about the tutoring earlier.

I am very grateful for the labs and the great tutors that work there.

Need more tutors in the lab.

I hope someday you might have longer hours.

You guys (& girls) rock!

I like this facility and have found it very useful. If I could, I would change a few things more tutors and longer hours. Also the tutor Jon is the best example of this. He will get me started,

More tutors, longer hours, having to move to the Lundstrom building is annoying.

Tutors are awesome, maybe get one more for the Lundstrom center.

Armand and Alex are the best tutors ever did an incredible job. Overall, math tutors center is amazing.

Depending on the time, it was really quick. In the later afternoon it was longer to wait.

Everything is fine on your end, my problem is with the other students who show up and do not sign in.

It would be nice if there were more tutors for 2250.

It's nice when they will give you the time you need. And I appreciate that can all speak english.

Demand less math problems!

A different or new way of us logging in.

More tutors!

They were very helpful and friendly.

I've only ever used the books to help me in my homework but the books were very helpful.

Sometimes the tutors are so busy they seem really rushed in their explanations and it doesn't really help at all.

I love this place!

Maybe have more tutors available for a certain course if an exam is approaching.

The time waiting for the problems was way too long. A new system or more tutors
