

## What Is AgrAbility?

AgrAbility is a national program designed to help farmers and ranchers (and their family members) remain in agriculture when facing limitations due to aging, disease, injury, illness or other disability.

*"When I was injured I was afraid I'd have to quit farming. If it wasn't for AgrAbility's support I wouldn't be farming today."*

AgrAbility of Utah is a partnership between Utah State University Extension and two Independent Living Centers:

- OPTIONS for Independence
- Red Rock Center for Independence

## Who Can Benefit From AgrAbility?

AgrAbility serves farmers and ranchers impacted by a variety of conditions who are looking for innovative, practical ways to increase productivity on the farm. Conditions may include:

- Arthritis
- Back Injury
- Chronic Pain
- Heart Conditions
- Hearing Impairments or Deafness
- Visual Impairments or Blindness
- Respiratory Diseases
- Spinal Cord Injury
- Post-Polio Syndrome
- Amputations
- Traumatic Brain Injury and More

## What Does AgrAbility Do?

AgrAbility helps farmers and ranchers remain productive in agriculture by making it easier or more comfortable to perform daily tasks. AgrAbility specialists analyze each situation and recommend practical solutions to address everyday challenges faced by agriculturalists.

Services Available Include:

- Agricultural Work-site Analysis
- Farm/Home Accessibility
- Technical Support
- Environmental Modifications
- Equipment Adaptation and Modification
- Information and Referral
- Aid in Locating Assistive Technology Resources
- Facilitation of Independent Living and Vocational Rehabilitation
- Individual Advocacy
- Peer Support
- Education and More

## How Can AgrAbility Help Me?

Through on-site assessments AgrAbility staff are able to restructure work tasks, modify ag operations, coordinate community and state resources, and customize a plan to meet individual and family needs.

*"My husband likes how AgrAbility made farming easier and safer... I'm grateful for the peace of mind that comes from knowing that he can still do what he loves."*
