Comments:

- I didn't know there was a website.
- Not a lot I was interested in.
- Great plan. Enjoyed it. Nice to have reps fro marriage, family therapy.
- I didn't see many companies of interest on the internet listings.
- I like the variety and quantity of companies/business.
- More companies with internships.
- I wish the booklet available at the fair had a short description of the company.
- It would be nice to have more engineering specific companies here. Otherwise good.
- There weren't very many biomedical companies. That would be helpful for our major.
- Should do it at a later time so students don't have to miss class.
- Have more aviation that just Skywest.
- Need more NR employers. Selection this year was bad.
- Place well know companies like Micron in more open areas.
- It seemed like there was a ton of engineering companies that were hiring, but nothing else.
- Best career fair ever!
- Career Services is awesome.
- Need more student hosts and wireless internet.
- Career Services helped me prepare and know what to expect.
- The career fairs here rock! I got a job offer from the company I interviewed with at the Tech Expo.
- Lots of companies, great info and resource.
- Donna is awesome. Thanks so much for the help!
- Good representation, some more government employers would be great.
- This was wonderful! I didn't realize there was so much out there.
- I appreciate the opportunity to meet with employers across the country in one location.
- The map isn't very helpful and there should be more international career opportunities presented.
- It was very distraction to have such small aisles between employers.
- Not everyone is an engineer. Find more employers who are looking outside of that spectrum.
- None of the careers offered appealed to HASS.
- Definitely worth the time.
- Thank you for providing this amazing chance to talk with so many people.

*Evaluations and comments taken from surveys from 357 students attending the 2006 USU Career Fair

Comments (cont.):

- As a freshman, I got a wonderful glimpse of where my degree can take me.
- Got some good tips on resumes.
- To prepare, I looked at the list of employers in the statesman. Then when I got here there were a lot more employers that what had been listed, so I didn't feel prepared.
- It was a great event.
- The companies I mainly was interested in cancelled... but could use more variety of business.
- Excellent information and employers.
- Wow! I am very impressed with the scale and variety. Thank you!
- Try to bring in more journalism type employers.
- Even better than in past years.
- Helpful somewhat. Very fun and entertaining.
- Need more jobs for EE.
- This is excellent.
- You need more companies looking for writing, editing, etc.
- No employers were interested in English majors.
- Great fair – professional but try to expand employer options.
- There were a lot of good employers.
- Great event!
- They gave great help and advice on my major selection.
- It would be helpful to know what degrees each company is looking for on the green info sheet.
- I liked the assortment of businesses.
- It would be helpful if it was organized online by the type of business.
- Would like more English oriented companies.
- Everything seemed scattered and unorganized.
- Great presentation.
- The map was very helpful.
- Very helpful to view information before hand.
- The links provided by Career Services were very helpful.
- It would be better to list the major companies look for on the website.
- Great fair. Good variety of employers.
- Why do companies come if the don't accept resumes?

- Excellent fair. Very impressed with the number of companies here.
- It was pretty much a waste of time when everyone just sends you to their website.
- HELP international rep was extremely helpful and genuine.
- Links to their websites are very useful.
- The website was very useful. I felt prepared coming here.
- Always great businesses here.
- Great opportunity to meet potential employers.
- I wish the web site was more organized. For instance limit search for location and major to make preparation more efficient. Employers need only indicate what majors they tend to work with when they register.
- Great opportunity to learn about career fields and what employers are looking for.
- Need more landscaping companies.

Comments (cont.):

- More time would be nice.
 - More local companies with less engineering.
 - Not enough federal agencies besides fish and game.
 - No technical writing or graphic design.
 - More local companies for cache valley.
 - I got my NR job a few years ago from this event.
 - Invite Lockheed Martin, Boeing, and ATK Thiokol.
 - Encourage companies to display disciplines involved.
 - What a great service!
 - There were no careers in the area of English.
 - Great job!
 - It would be nice to know when people have lunch breaks.
 - Great turnout!
 - Great! This event is so helpful I wish I got involved as a sophomore.
 - Newspaper information was helpful.
 - I was surprised how willing people were to help me and talk to me.
 - This is an awesome program for USU students.
 - Need more space.
 - Great event and good timing.
 - Good resume tips, few jobs.
 - Need more representatives for biomedical companies.
 - The companies could be grouped based on specialization in one row.
 - More engineering companies needed.
 - Too few actually have jobs and too many summer type jobs.
 - It was great. I would like if you provided a list of employers according to the majors.
 - Could use more natural resources agencies or businesses.
 - Career Services website was not easy to navigate.
 - Thanks so much!
 - The web site was very helpful in knowing beforehand where I want to spend my time.
