

# Graduate School Fair 2006

## Student Evaluation and Entry Form

N=86 forms

### A. Please rate the quality of info gathered by talking to school representatives.

Above Average		Average		Poor
5	4	3	2	1

Mean: 3.79 Most Frequent: 4's=47

#### Comments:

Good info on requirements

Great for Business & Medical students – not for Fine Arts

Too few knew anything about my major

Not what I'm looking for, not many physics or math grad schools

I only spoke with 2 people. Idaho State guy was good, & USU lady was gone teaching a class (MIS).

There was only one booth with my major and they didn't offer my degree program.

No law school to talk with.

Very helpful

While schools had reps from MBA programs, few people had direct answers about MACC programs. At least the MBA reps gave me contact info for MACC reps.

It was great!

I wish there was more schools to get info from, I was only able to come at lunch and many were gone.

I was looking to talk to one and that is the only one I visited.

Some individuals seemed disinterested in people.

Some were very helpful and others were disinterested.

Willing to answer questions and take time with you.

Not very many out of state schools.

Representatives were very friendly and helpful.

Lots of business, engineering, not much else.

Would be nice to see more schools that have international business focus.

More info about individual professors

Well organized. Some were kind of pushy.

For the most part, they were knowledgeable to my questions. If they didn't know, a reference was given.

Everyone was very informative.

It wasn't very helpful for me in regards to my future plans.

Fabulous, I spent a half hour talking with her and she was so patient and very willing to answer my questions.

Great.

The people I talked with are very friendly.

It's just that there wasn't anyone her with the program I'm interested in.

It was very helpful!  
It helped out a lot.  
It was good info.  
Wasn't much more helpful than department websites and U.S. news best graduate schools  
Learned a lot about expectations of graduate programs and requirements.  
I wish there was a table from The Natural Resources Department.  
Anything the representative could not tell me directly was listed in the informational brochure and/or I was directed to the website.

## **B. What Graduate Schools or programs would you like to see invited to future Fairs?**

Communication/Journalism  
Music Programs  
More MBA Program Schools  
Creative Writing MFA programs  
Physics, more outside of Utah  
MIT, Carnegie Mellon, University of Arizona, University of Texas (Austin)  
More Speech Pathology programs  
Johns Hopkins  
More engineering  
MHR  
Engineering – Mechanical & Aerospace  
More schools from outside Utah  
Anything psychology  
Maybe just a list of graduate schools in UT  
Law schools from around the states  
More Colorado schools  
Speech Language master, Occupational Therapy  
University of Idaho  
Language Programs  
Ohio State University MBA/MACC, Other top MBA/MACC programs  
More Engineering Schools  
U of U and ISU – Physical Therapy  
Boise State, Gonzaga, Eastern Washington MBA  
More Agriculture/Horticulture  
More East Coast Schools  
Law Schools  
Dental  
More Law & MBA schools – out of state  
Wider Variety of Schools  
ISU & U of U – physical therapy  
Computer Science  
More FCHD! From more schools than just ours.  
University of Washington, Economics, Political Science, Any Political Science!

Online/e-mail 10  
Bulletin in Library  
Career Resource Center  
Career Services

**D. What other suggestions do you have for improving the Graduate School Fair?**

More Variety/Schools/Programs 28  
Commented on only business & medical 4  
Other programs wanted:  
    Psychology  
    Physical Therapy  
    English  
    PA  
Advertising/Mass E-mail 3  
    Ex. More advertisement for seniors! I think it would be better attended if  
    more people knew. Tell upper division classes.  
Cookies 5  
Other suggestions:  
    Liven it up a bit. We're graduating, not touring a museum  
    Always have people manning each station  
    Have some graduate students to share experiences  
    A folder or bag to collect information in.  
    More info about financial help & scholarships the universities provide.  
    Explanations of benefits and how to use the graduate fair  
    It seemed pretty small this year.  
    Longer hours  
    Last past 2:00  
    More than one day, so it fits into schedule better
