

Graduate School Fair 2007
School Representative Evaluation Form
61 School Reps

A. Amount of student traffic at your table: 2.66129

Above Average			Average		Poor
5	4	3	2	1	

Comments:

- Tuesday may not be a good day to hold a fair, Monday or Wed. would probably be better.
- It's not about quantity, but quality!
- Last year, we had more student interest than this year, but we know it varies from one year to the next
- Better than yesterday at WSU
- Good conversations
- Had 4 students all day
- I was here for over 4 hours, and perhaps 60 students filed past my table. Most aren't interested in my field. I ended up having an actual conversation with 9 students
- I am not experienced enough to rate this question
- We had a lot more traffic when the fair was in the lounge. It was much more productive there.
- Enough traffic for me
- Usually there is a lot. This year has been really slow.
- Lots of students
- They mostly stopped for the candy (and that was okay)
- I guess we need a flashier display

B. Quality of students visiting your table: 3.870968

Above Average			Average		Poor
5	4	3	2	1	

Comments:

- N/A no students
- Very qualified applicants
- Right on!
- Good folks, just not our niche
- Two (out of four) were not sure of interest or what they wanted to do
- Hard to tell
- Of the few students that stopped by the table, half were a 5 and half were about a 2. Big mix
- USU students are always well prepared
- The closed in room made it inconvenient for students to stop by

- Few in number, but excellent applicants
- The students had lots of great questions. People weren't just stopping by to get free bees. They were prepared.
- Those that did stop, seemed interested

C. The registration process for the fair: 4.169355

Above Average		Average		Poor
5	4	3	2	1

Comments:

- Great info/contact ahead of time
- Very pleasant, helpful, and nice fair
- I don't know-I didn't register-an associate of mine did
- I didn't do the registering
- Good, helpful, thank you
- We didn't do it someone from our dept. did
- Excellent
- Great idea to coordinate a week's worth of fairs, thanks!
- It would be more convenient to be able to register for all fairs at once. Several separate payments were cumbersome
- As this is the 1st year of the 5 day tour, I assume the process will be better (less disorganized) in the future
- Easy!
- Very organized and smooth-great for all
- You had to register before you could see what payment options were accepted

D. Accommodations at USU (parking, food, etc.): 4.685484

Above Average		Average		Poor
5	4	3	2	1

Comments:

- Have signs showing location of fair from parking
- Love the food, pass!
- Excellent!!
- Thanks for the greens at lunch!
- Wonderful hotel and food
- Thank you
- Great food
- Great parking! Great food!
- University Inn was great and parking was no problem. I got a wonderful rec on a restaurant from Inn staff.
- Outstanding food
- People were at the parking garage, there were people there to help you with your materials, there was plenty of time for lunch, and the organization was better than I've seen. Thanks!

- Really good-Thank you, I don't need supper ☺
- The maps were useful and the staff was very friendly and helpful.

Other Comments and Suggestions:

- Move event to international student lounge, where it's more visible, to improve attendance.
- Great food!
- Great Experience, thank you!
- Thanks
- Student traffic was slow, but the students we talked to were prepared and had great questions. The end of the fair was busier. Maybe change the time so that it starts later and goes later. (10:30-3:00)
- The hospitality was exceptional-Thank you
- Hand carts and help bringing in materials greatly appreciated.
- Love that you have wireless available-what a great perk! Getting here was very easy, but I kind of "stumbled upon" the parking garage. I don't recall seeing any signs-maybe that would be helpful in the future.
- Great help with bringing in materials and getting stuff back to car. Thanks for internet access and great lunch one of the better fairs that I have attended.
- Thanks for a nicely organized fair!
- Great fair!
- Street names on the driving direction would be helpful. A start time of 10:00 would be better for those coming in from SLC airport and students didn't begin arriving until 10:30 in any number. Thanks for participating in Utah's week. We probably wouldn't come individually!
- Nice setup and computer assistance!
- Would it be better/more beneficial to have USU departments closer to the front of the entrance since it is our home school-or USU grouped together instead of scattered? (Something to consider)
- Thanks!
- It was a great experience. Eddy Tsing really helped w/my stuff and all at Career Services were friendly and accommodating. It was better attended by students than Weber's but could be advertised better, perhaps. It might be helpful to group universities or areas together.
- I met a young woman who graduated from my high school that was fun-Thanks for all you effort and care!
- Better location overall, grouping of schools or types of schools
- Thank you so much!
- This was so poorly attended-awful!
- Great fair, thanks!
- Cafeteria food not the best idea for grad school professionals
- A pleasant environment with people to give directions and help at any point, very well
- Great staff, very helpful!

- We loved the food and the staff was very helpful
- Great fair!
- 3 Thank you!
- Thank you for your organization and employees were very helpful
- I think there is better traffic when we're in the lounge. Lunch is great!
- Organized very well! Great parking and greeting. Did not see and advertisement throughout the campus that the fair was going on
- For all recruiters going to all 5 fairs there should be a single contact to register and pay for all fairs. In 2007 there was confusion and disorganization
- Fair length was great!
- Was told by several students and faculty that Tuesday and Thursday are not good days for student to be on campus
- We would like the opportunity to choose where our booth is located in the ballroom. In the back corner we didn't see as many students
- Bring back in the ballroom was great- much more room; not too crowded for traffic- flowed very easily
- More traffic is always appreciated. Thanks for all of the people who were available to help. The food was great too.
- I would be really helpful to streamline the registration process with the other universities if this is truly going to end up being an annual grad fair week
- Need to energize more students and get them excited about grad school!
- Thank you- the fair was well organized and inviting
