- Other Comments and Suggestions:**
- ~ 8 foot table is fine, but there wasn't enough from in between the tables, Need more room!
 - ~ Thanks!
 - ~ Foot was great. Service, organization, materials were all super. One of the best this year. We just didn't find much interest from the students.
 - ~ Very good contacts, we will be back
 - ~ Need more room between rows - too crowded and congested
 - ~ Very well organized. Over and above help by Maleah when it became apparent I would arrive late (she set up my booth/display)
 - ~ Williams table had 5 recruiters. If they have more than 3 they should have 2 tables, recruiters moved into our table area. I liked the food area, it was much better than a sit down.
 - ~ Excellent - would like to make this a recruiting tradition for our organization
 - ~ The snacks were great! :) Tables are a good size. You had it laid out really well to fit so many people in here.
 - ~ Great fall career fair - many spring graduates were contacted and looking for employment
 - ~ Parking was a small problem, that is because you had a great turnout. Food was great as always!!!
 - ~ Good food, friendly staff, great candidates. Much better than previous career fairs. Great high speed wireless access
 - ~ Love the assistance in the loading zone
 - ~ Good Job!
 - ~ More aisle space would be good and to organize by primary job categories i.e. computer engineers, civil engineers, (but I know several hire in many categories)
 - ~ Thanks. It was great to have specified parking area for employers!
