

# Tech Expo 2008

## Employer\* Evaluations and Comments

### Amount of student traffic at your table

Above Average	Average			Poor
5	4	3	2	1
<b>33%</b>	<b>44%</b>	<b>13%</b>	<b>10%</b>	<b>0%</b>

**Comments:**

Thanks for the great location!  
 More mechanical and electrical than civil  
 Most looking for internships  
 We had a ton of traffic. Good number of CS majors  
 Not as much as last year- we didn't collect as many resumes, however we didn't staff our booth as heavily  
 We had a lot of traffic lots of good contacts.  
 For being a new company to recruit at usu, I was always busy talking to students. It was great!  
 Tapered off toward end  
 Excellent traffic  
 Steady for majority of evening  
 Excellent turn out-thank you for all the advertising to get students here  
 Lots of students, time will tell the amount of interest  
 Generally good liked department heads coming around  
 Great traffic  
 Very good turnout of engineering students  
 Good flow - not too much down time typically not much line, plenty of time to talk with students

### Quality of students visiting your table

Above Average	Average			Poor
5	4	3	2	1
<b>26%</b>	<b>59%</b>	<b>15%</b>	<b>0%</b>	<b>0%</b>

**Comments:**

There were some really great people!  
 Most were a few years away from graduation  
 Some good candidates, but the best ones were still a few years away from graduating  
 Very mature, very good resumes in general  
 Truly some great candidates this year  
 More prepared  
 Excellent students, lots of great resumes  
 I was hoping for more EE/CS. I mostly had M.E.'s at my booth  
 Pretty good. Wrong degree, not very many computer science  
 Most well dressed and good at communications  
 Super- interns and grads!  
 More students looking for internships this year  
 Great applicants  
 Seemed very confident and enthusiastic  
 For the most part - good quality with the right interests

# Tech Expo 2008

## Employer\* Evaluations and Comments

### Overall, how satisfied were you with the Tech Expo?

Very Satisfied	Satisfied	Somewhat Satisfied	Not Satisfied
4	3	2	1
<b>44%</b>	<b>49%</b>	<b>8%</b>	<b>0%</b>

### Certifications

Internships  
 EIT  
 Embedded systems, strong hardware skills  
 Linux certifications  
 Leed experience, AutoCAD  
 Seniors to take and pass FE/EIT exam  
 MSHA  
 Their degree, EIT cert  
 More advanced computer drafting  
 Encourage MS in Geotechnical Engineering

### Other Comments and Suggestions:

The food and hospitality were great! Maybe students should be taught how to give a good handshake! :)  
 Great fair!  
 Name tags with majors listed are a great idea. Encourage students to use them  
 List of attendees so we could send them targeted info to the ones we would like to see most  
 More environmental sciences, biology, plant science, environmental studies etc.  
 Well done! Very organized  
 Attention to detail is very helpful thanks!  
 Interested in students with high level of maturity-USU does well on this list  
 Well organized and conducted. Thank you for all of your help. We would like to return for this and for the spring career fair.  
 Parking and assistance with displays was very nice. Thanks!  
 Good food! Well organized  
 Thanks  
 Advertise better in CS department  
 Not many biology and chem. students this year.  
 Well prepared staff-good flow of students  
 Sending out a letter in summer with both fall and spring fair dates is great. Set up is very good I always get great help when I call  
 I will be back in spring I may need a table against the wall and a room for waiting students  
 While it didn't affect our discussions too much, foreign students should be aware that visas are more and more expensive and harder to obtain  
 Very good career fair  
 Well organized-thank you  
 I know it was a coincidence but the 3:00 start time on the last day of the UDOT conference was a challenge. I like the time, just try not to have it on the same day as UDOT.
