

Psychology Teaching, BS, BA

Department: Psychology Department

College: Emma Eccles Jones College of Education & Human Services

Overview

About This Degree

Psychology is the science of behavior and mental processes. Psychology teaching majors study various areas in psychology and take teacher education courses to prepare them to teach in middle schools and high schools.

The department is internationally known for its innovative research, teaching, and scholarship programs. Faculty involve students in research opportunities, which can be conducted in any number of Utah State's excellent research facilities. In addition to their coursework, students are required to complete an apprenticeship, which allows them to gain work experience outside of the classroom. They are also encouraged to get involved with Psi Chi, the national honor society in psychology, in order to help them with their academic pursuits and get more information about opportunities available with a degree in psychology.

Students receive a **BS** by completing all required courses in the major. To receive a **BA**, students must also gain proficiency in one or more foreign languages.

Distance Education

The BS in psychology teaching is available online through USU's Regional Campuses and Distance Education program.

Career Options

Students who graduate in psychology teaching are qualified to teach psychology in middle schools or high schools.

[Career Services](#) provides counseling and information on hundreds of job and internship opportunities and even helps students apply and interview.

What it takes

Admissions Requirements

In addition to Utah State University's [admissions requirements](#), the psychology program has additional requirements:

- **Freshmen:** Students that meet the USU admission requirements can be admitted in to the pre-psychology major.
- **Transfer Students:** Transfer students and USU students transferring from other majors qualify for the pre-psychology major if they meet USU's general admissions requirements.
- To be a psychology major, students must submit a written application to the department after meeting the following prerequisites:
 - Completion of at least 40 semester credits with a cumulative GPA of 2.75 or higher
 - Completion of at least 18 USU credits with a GPA of 2.75 or higher
 - Completion of the psychology pre-major core courses
- **STEP Requirements:** In order to be accepted into STEP, students must go through an application process, which includes the following:
 - Complete 60 semester credits with a minimum GPA of 2.75
 - Complete certain core courses (see department for more information)
 - Complete a speech and hearing test
 - Pass the Teacher Education Writing Exam
 - Provide an unofficial copy of your transcript
 - Pass a criminal background check (this should be done one semester before submitting the application)

International students have [additional admissions requirements](#).

Get Involved

Professional Organizations, Honor Societies, and Clubs

American Psychological Association: Based in Washington, D.C., the APA is a scientific and professional organization that represents psychology in the United States. The mission of the APA is to advance the creation, communication, and application of psychological knowledge to benefit society and improve people's lives.

American Psychological Society: This is a nonprofit organization dedicated to the advancement of scientific psychology and its representation at the national and international levels. Its mission is to promote, protect, and advance the interests of scientifically oriented psychology in research, application, teaching, and the improvement of human welfare.

Psychology Club: The purpose of this club is to promote increased involvement of students in the field of psychology. It aims to provide information about possible research and applied psychology setting opportunities on campus and in the community.

Psi-Chi: This national honor society in psychology was founded in 1929 with the purpose of encouraging, stimulating, and maintaining excellence in scholarship, and advancing the science of psychology. Membership is open to graduates and undergraduates who are making the study of psychology one of their major interests.

Labs, Centers, Research

With the second oldest [undergraduate research](#) program in the nation, USU offers students a wide range of opportunities to gain hands-on research experience. The [Undergraduate Research and Creative Opportunities](#) program allows students to apply for grants and receive funding. USU's [Honors Program](#) prepares students for excellent graduate programs by helping them build relationships with professors, participate in research projects, take smaller, more intensive classes, and develop leadership skills.
