

# Economics, MS, MA

**Department:** Economics and Finance Department

**College:** Jon M. Huntsman School of Business

## Overview

### About This Degree

This master's program is designed to be equivalent to the first year of a rigorous PhD program in economics at a top-30 university, and, therefore, prepares students for entry into a top-level economics or finance doctoral program. Many graduates have gone on to programs at institutions including Harvard Law School, George Mason University, and University of Oregon. In the master's program at USU, students are encouraged to present papers at conferences, preparing them for the professional world of academia. The department also holds weekly faculty seminars where graduate students are encouraged to participate.

The oldest business school west of the Mississippi, USU's Huntsman School of Business has been offering degrees since 1894 and has long held prestigious accreditation from the Association to Advance Collegiate Schools of Business (AACSB) International and continues to be on the forefront of advanced business education.

The **MA** degree requires students to gain proficiency in one or more foreign languages. The **MS** degree is identical except that it does not require foreign language study.

## Career Options

This program is primarily designed to prepare students for doctoral programs.

## Get Involved

### Professional Organizations, Honor Societies, and Clubs

**Western Economic Association International:** Founded in 1922, the Western Economic Association International is a nonprofit, educational organization dedicated to encouraging and communicating economic research and analysis. The association's principal activities include publishing two refereed quarterly journals and staging scholarly conferences that are forums for current economic research.

**Utah Academy of Sciences, Arts, & Letters** and **Western Regional Science Association:** Students are encouraged to submit papers to the Utah Academy of Sciences, Arts & Letters and the Western Regional Science Association, both of which are multidisciplinary organizations that hold conferences where scholars present research.

## Labs, Centers, Research

**Center for Entrepreneurial Excellence:** This center aids students in the creation of new organizations that promote independence and self-sufficiency and make significant contributions to the communities in which they operate. Some of the resources offered include a lecture series, tools for assessing business opportunities, branding services, web design, programming, student competitions, mentoring programs, marketing tools, workshops on critical topics, corporate partners, and funding sources for new ventures.

**Entrepreneurship Research Group:** Founded in the Jon M. Huntsman School of Business, the Entrepreneurship Research Group is based on the notion of engaged scholarship and administered as a scholarly think tank. The Research Group is a nationally recognized consortium of university scholars, corporate leaders, and qualified undergraduate students dedicated to high-quality research experiences who contribute to the business profession.

**Huntsman Computer Laboratory:** The computer lab in the business building has sophisticated statistical software, including E-Reviews, R, and SAS.

**Huntsman Field Studies:** As part of the field studies experience, students and faculty work together to provide consulting for companies and non-profit organizations in exchange for a modest financial contribution to the school. The program typically provides a variety of consulting opportunities from which to choose, such as marketing research, supply chain issues, establishing lean management systems, organizational design, employee satisfaction surveys, international business, entrepreneurial projects, and corporate strategy.

**Partners in Business:** Partners in Business professional business seminars feature speakers from the cream of the business and academic worlds. Seminars cover current and compelling business issues and provide in-depth training and continuing education for business professionals. Top-notch business students from USU are actively involved in coordinating seminars and running various aspects of the Partners program.

**Small Enterprise Education and Development Program:** SEED gives USU students an opportunity to work with people in developing economies. Students teach workshops about business principles, including tracking sales, and how to identify costs, manage cash, and develop a business plan. At the conclusion of the training, participants may be awarded funding by an external company. USU students continue to work with the funded businesses, helping them grow.
