EDUCATIONAL POLICIES COMMITTEE AGENDA

4 October 2018

A meeting of the Educational Policies Committee will be held on 4 October 2018 at 3:00 pm in Old Main 136 (Champ Hall Conference Room)

1. Approval of 6 September 2018 Minutes

2. Subcommittee Reports

   a. Curriculum Subcommittee (Nicholas Morrison)
      Course Approvals - 131

      Program Proposals
      Request from the Department of History in the College of Humanities and Social Sciences to offer a Masters in Ancient Languages and Cultures.

      Request from the Department of English in the College of Humanities and Social Sciences to change name from American Studies to Folklore and American Studies. Restructure Folklore and American Studies.

      Request from the Department of Languages, Philosophy and Communication Studies in the College of Humanities and Social Sciences to offer a Baccalaureate degree in Chinese.

      Request from the Department of Sociology, Social Work and Anthropology in the College of Humanities and Social Sciences to establish an I-System Institute for Transdisciplinary Studies.

   b. Academic Standards Subcommittee (Scott Bates)
      Minutes – No meeting (nothing to report).

   c. General Education Subcommittee (Lee Rickords)
      Minutes – September 18, 2018

3. Other Business
   N/A

Adjourn:
EDUCATIONAL POLICIES COMMITTEE MINUTES

6 September 2018

A meeting of the Educational Policies Committee was held on 6 September 2018 at 3:00 pm in Old Main 136 (Champ Hall Conference Room)

Present:    Ed Reeve, Chair, College of Agriculture and Applied Sciences
            David Hole, College of Agriculture and Applied Sciences
            Nicholas Morrison, Caine College of the Arts and Curriculum Subcommittee Chair
            Nicholas Morrison for Leslie Brott, Caine College of the Arts
            Christa Haring, Emma Eccles Jones College of Education and Human Services
            Cathy Bullock, College of Humanities and Social Sciences
            Claudia Radel, S.J. & Jessie E. Quinney College of Natural Resources
            Dan Coster, College of Science
            Lee Rickords, General Education Subcommittee Chair
            Kacy Lundstrom, University Libraries
            Michelle Fleck, USU Eastern
            Allie, Haas, USUSA Executive Vice President
            Jaren Hunsaker, USUSA President
            Fran Hopkin, Registrar’s Office
            Michele Hillard, Secretary
            Frank Galey, Provost

Excused:  Timothy Taylor, College of Engineering
            Nicholas Flann, Graduate Council
            Kristin Hall, Graduate Studies Senator
            Scott Bates, Academic Standards Subcommittee Chair
            Sterling Bone, Jon M. Huntsman School of Business
            Shana Geffeney, Regional Campuses

Guests:      John Louviere, Assistant Vice President and Executive Director

I.  Approval 5 April 2018 Minutes
Motion to approve minutes made by David Hole.  Seconded by Nicholas Morrison. Minutes approved.

II.  Subcommittee Reports

a.  Curriculum Subcommittee (Nicholas Morrison)
Course Approvals - 13

Program Proposals
Request from the Department of Mathematics and Statistics in the College of Science to offer an Applied Mathematics Emphasis.

Request from the Office of the Executive Vice President and Provost to establish a Latinx Cultural Center.
Request from the office of Academic and Instructional Services to establish a Center for Student Analytics.

Other Business

A discussion on a request from the Huntsman School of Business (HSB) to change the prefix of specified MGT courses to a new prefix of MSLE was presented. A motion to accept this change, pending approval of the HSB College Curriculum, was approved.

Motion to approve the Curriculum Subcommittee report made by Dan Coster. Seconded by Cathy Bullock. Report approved.

b. Academic Standards Subcommittee (Scott Bates)
   Minutes – No April meeting.
   Nothing to report.

c. General Education Subcommittee (Lee Rickords)
   Minutes – No action items for April
   No actionable items to report.

III. Other Business

Curriculog updates – Utah State University is considered the leader in the field of Curriculog. USU works closely with Digital Architecture to ensure the system provides the desired outcomes.

Pre-requisites and cross-listed courses are causing problems and they will be discussed during the academic year.

Adjourn 3:26 pm
Utah System of Higher Education
New Academic Program Proposal
Cover/Signature Page - Full Template

Institution Submitting Request: Utah State University

Proposed Program Title: Ancient Languages and Cultures

Sponsoring School, College, or Division: College of Humanities and Social Sciences

Sponsoring Academic Department(s) or Unit(s): Department of History

Classification of Instructional Program Code¹: 30.2201

Min/Max Credit Hours Required of Full Program: 30 /

Proposed Beginning Term²: Fall 2019

I, the Chief Academic Officer or Designee, certify that all required institutional approvals have been obtained prior to submitting this request to the Office of the Commissioner.

Frank Galey Date:

I understand that checking this box constitutes my legal signature.

² “Proposed Beginning Term” refers to first term after Regent approval that students may declare this program.
³ Please indicate award such as APE, BFA, MBA, MED, EdD, JD
Section I: The Request
Utah State University requests approval to offer the following Master's degree(s): Ancient Languages and Cultures effective Fall 2019. This program was approved by the institutional Board of Trustees on.

Section II: Program Proposal

Program Description
Present a complete, formal program description.

The Department of History proposes the creation of a Master of Arts/Master of Science (MA/MS) in Ancient Languages and Cultures, focusing on the historical languages students must learn to gain admission to and succeed at institutions which grant PhD degrees in fields where comprehension of various ancient languages is prerequisite. Those fields include Classics; Ancient, Medieval, and Early Modern History; Religious Studies; and related disciplines in literature, theology, divinity, philosophy, and art history. Students who enroll in our program will have an unique opportunity to acquire the linguistic skills they will need to complete advanced work elsewhere, while at the same time taking courses in related historical subjects. These two years of intensive training (30 credit hours) will require students to complete a thesis (Plan A) and provide students a bridge to future success in their chosen discipline, an opportunity which would otherwise be out of reach for many. Because of the rigorous and practical nature of this proposed program, the Department of History is confident that they can recruit nationally (and internationally) for the degree.

Program Goals:
1. To provide students with sufficient training in an ancient language or languages so that they can successfully enter a doctoral program in their chosen field.
2. To provide students with methodological tools that prepare them to succeed in the study of peoples who used the ancient language(s).
3. To provide students with the opportunity to practice historical research in their chosen field, using their chosen ancient language(s).

Learning Outcomes:
1. Students will have demonstrable proficiency in reading their chosen ancient language(s).
2. Students will demonstrate an ability to use appropriate methodological tools to study peoples who used the ancient language(s).
3. Students will compose a master's thesis which demonstrates the ability to utilize ancient language(s) and appropriate methodologies in carrying out an original research project.

Consistency with Institutional Mission
Explain how the program is consistent with the institution's Regents-approved mission, roles, and goals (see mission and roles at higheredutah.org/policies/policyr312) or, for “out of mission” program requests, the rationale for the request.

This MA/MS aligns with the mission of USU as a doctoral-level institution charged with the discovery, creation and transmission of knowledge through education and training programs at the undergraduate, graduate and professional levels. The Morrill Act of 1862 required Land Grant universities to offer “classical education” to the “mechanic classes.” Therefore, ancient history and languages have always been in the curriculum. Ancient Greece and Rome have been part of the curriculum from USU’s founding in 1889. Concomitantly, four years of Latin were provided to students of the Agricultural College of Utah [USU]. The proposed degree effects that historical mission, advancing it onto the graduate level.
Section III: Needs Assessment

Program Rationale

Describe the institutional procedures used to arrive at a decision to offer the program. Briefly indicate why such a program should be initiated. State how the institution and the USHE benefit by offering the proposed program.

The proposed MA/MS fills a gap in the larger US educational system. Although there is a steady demand for the study of ancient languages and the methods of historical-cultural analysis, there are no graduate programs which combine training in ancient languages with course work in historical methodology. Those who decide late in their undergraduate careers that they want to do advanced study in these fields are prevented from going on because of this gap in the national curriculum.

The Department of History conducted a survey of 32 Chairs, Directors and Heads who oversee or are advisers in a wide range of programs where medieval history, classics and religious studies are taught. The 23 who responded teach at undergraduate and graduate schools, both public and private, including major PhD-granting institutions in the disciplines. The department asked them their opinion about the feasibility of the program being proposed. [All who replied gave their permission to quote their responses.] Their responses were uniformly positive, including comments like “the rationale is perfectly sound” (Anthony Kaldellis, Ohio State University); “your program sounds really promising” (Muriel McClendon, UCLA); “a degree like yours is worth pursuing” (Carl Sederholm, BYU); “your plan to begin an MA program in Ancient Languages and Cultures makes very good sense” (Daniel Botsman, Yale); “your proposed MA in ancient (and medieval) languages is a wonderful idea” (David Stephan Powers, Cornell); “this is very much a worthwhile initiative” (Ian Meyer, University of Michigan); “programs like this fill a really important niche” (Thomas Burman, Notre Dame); and, “the MA program you propose sounds very useful, and I would support you in undertaking it” (Eric Hinderaker, University of Utah).

Some commented at length:

- I certainly agree whole-heartedly that many undergraduates develop a serious interest in the study of the ancient and medieval worlds too late in their career to acquire the language skills they need to be competitive applicants to good graduate programs. So to that extent there’s definitely a need for programs like this… One of the things we look closely at in assessing applicants to our PhD program is the amount and the quality of language training that they’ve had. Other course work is also something we consider, but the languages are the sine qua non. So by giving students more language training, you would certainly make them more attractive to good PhD programs. (James Rives, University of North Carolina)

- Depending on their interests, our top Ph.D. applicants in History always have strong languages; on your list, Latin, Greek, and Arabic are the languages that are most likely to be important. Depending on where they are located in this country (or abroad), of course, it can be difficult for some B.A. students to acquire the necessary languages. As I am sure you have seen many times, a student from a small liberal arts college might develop a passion for a given subject but the school might be unable to support advanced study in that language. In my area, we routinely advise ambitious and talented students of this kind to enter M.A. programs in order to develop their languages. To that extent, your proposed M.A. program could potentially fill a need. (Daniel Smail, Harvard)

- I think top Ph.D. programs would definitely welcome students who had completed this program. Strong language preparation makes for a strong applicant. A track record of graduate level work in other areas would also help. (Mary Ann Eaverly, The University of Florida)

Much of the infrastructure necessary for implementing this new degree program is already in place. The college offers a full slate of courses in Latin and Greek as well as Arabic. Two of our faculty have expertise in Sanskrit. The
History Department teaches historical methodology and theory at the graduate level and offers courses covering a wide range of places, periods and issues related to the pre-modern world. Elsewhere the university's curriculum includes classes in historical fields relating to philosophy, art and literature. In creating this program, the university will gain an innovative graduate program, which will attract students from across the nation and world and will enhance our prestige and reputation for producing high-quality graduates who prosper in their post-USU academic careers.

Before making this proposal, consultations were held with the humanities faculty on campus who might contribute courses and mentorship and who would recruit students into this new MA/MS. These include professors from History, Religious Studies, Art History, English, Languages, and Philosophy. All of these disciplines encourage students who plan to continue their studies in the fields they pursued as undergraduates to seek training in the historical methodologies and ancient language(s) relevant to their chosen subject matter.

Labor Market Demand

Provide local, state, and/or national labor market data that speak to the need for this program. Occupational demand, wage, and number of annual openings information may be found at sources such as Utah DWS Occupation Information Data Viewer (jobs.utah.gov/jsp/wi/utalmis/gotoOccinfo.do) and the Occupation Outlook Handbook (www.bls.gov/oco).

For this degree, the analogue of a labor market is the top tier of PhD programs in ancient and medieval studies, especially those focusing on classics, history and religious studies. They typically require years of language training to gain entrance, as our survey responses confirm:

- Your proposed MA in ancient (and medieval) languages is a wonderful idea. The Medieval Studies Program and Near Eastern Studies Department at Cornell look for prospective graduate students with strong language training. But language training is not enough. To be competitive, prospective students should also have taken courses and seminars in ancient studies, medieval studies, or Islamic studies… (David Stephan Powers, Cornell)

- The lack of language preparation for graduate applicants is, indeed, a major problem. In our own doctoral program, we have stopped accepting students for the medieval Ph.D. who do not have some facility with Latin… Likewise, we do not accept applicants into our Byzantine Ph.D. program without Greek. I know from colleagues at Notre Dame that they have the same restrictions… I think that students with a language preparation M.A. would be very attractive to high quality doctoral programs. (Thomas Madden, Saint Louis University)

It is clear that without the requisite language skills and historical training appropriate to their chosen field a student's prospect for admission to and success in PhD programs drops dramatically.

Student Demand

Provide evidence of student interest and demand that supports potential program enrollment. Use Appendix D to project five years' enrollments and graduates. Note: If the proposed program is an expansion of an existing program, present several years enrollment trends by headcount and/or by student credit hours that justify expansion.

The very impulse for the program stems from student demand itself. For decades, our graduating seniors have been requesting the opportunity to pursue further work in ancient languages and historical methodologies as preparation for advanced study. In many ways this initiative is driven by a recognition of that need. The Department of History is seeking to formalize and better direct students toward success in their professional goals.

The underlying reason for this need is simple. Students often arrive in college searching for direction in
their academic life. Those who discover an interest in pre-modern studies quickly come to realize they have a limited time frame in which to gain the fundamental language skills necessary to continue their chosen discipline. Language courses pose particular difficulties since their curriculum must follow a prescribed sequence covering several years. Especially those students who come late in their college education to disciplines requiring knowledge of these languages confront an all but insurmountable obstacle to pursuing advanced studies, as Daniel Botsman at Yale University confirms: “These days the overwhelming majority of students coming in to our PhD program in History at Yale have already completed MAs and my sense is that the demand for high quality programs that can help people get advanced language training, in particular, will only continue to grow.”

There is a particular demand for this type of training among students who come from a Religious Studies background. They often discover their interest in studying religion during their sophomore or junior year, after taking a general education course in the subject. By the time they settle on a desired area of specialization (e.g., early Christianity, Hinduism, Buddhism), it is already too late to acquire more than a cursory knowledge of the languages that are required for admission to a doctoral program in their chosen area. So far, the department has been enrolling such students in the History MA/MS, which is an awkward fit, since they must pursue their language study in addition to a full slate of graduate courses. This, indeed, is the challenge for undergraduates at many universities around the nation that have Religious Studies programs like ours. The new MA/MS the department is proposing will provide such students with the training necessary for success in a PhD program.

This degree also opens the door to advanced study for students who, because of limited undergraduate access to ancient language instruction, have been disadvantaged. The external respondents corroborate this point:

- As things stand now, ... the ability to pursue a PhD in the study of the ("western") ancient world is chiefly open to those who were able to take Latin and Greek in high school. And that leaves many people out. (Muriel McClendon, UCLA)

- One issue that we are currently struggling to address is how language preparation can function as a bar to the scholarly field and the profession, effectively excluding students from diverse backgrounds, such as those from minority-serving institutions or community colleges, who may not have access to the resources for language preparation.” (Ian Moyer, University of Michigan)

- Many of those we reject are solely based on a lack of language preparation. It's a shame, because these students are often bright, but for whatever reason they did not pursue the necessary languages when they developed their interests. (Thomas Madden, Saint Louis University)

Opportunity is a matter of access not just to high-quality training but financial resources. USU is in a unique position to provide affordable education, which is a source of concern articulated by Anthony Kaldellis at The Ohio State University: “Students who do not have those resources cannot compete. They have a B.A., an incomplete preparation, ... and have to face up against students who can (to put it bluntly) buy an MA. I have had such students and they have told me how the field is stacked against them.” Our degree will help level that playing field.

Similar Programs
Are similar programs offered elsewhere in the USHE, the state, or Intermountain Region? If yes, identify the existing program(s) and cite justifications for why the Regents should approve another program of this type. How does the proposed program differ from or compliment similar program(s)?

The MA/MS program the department is proposing has analogues but no counterpart in academia. Programs exist which focus on student preparation in languages, particularly Latin and Greek, but none that combine language study with graduate work in history and religious studies. Because of the expertise of our faculty,
the breadth of training, the department will be able to provide a graduate program that is unparalleled.

Collaboration with and Impact on Other USHE Institutions

Indicate if the program will be delivered outside of designated service area; provide justification. Service areas are defined in higheredutah.org/policies/policyr315/. Assess the impact the new program will have on other USHE institutions. Describe any discussions with other institutions pertaining to this program. Include any collaborative efforts that may have been proposed.

No institution in the USHE system offers a degree like this, nor any master's degree in Classics or Religious Studies. Indeed, other universities in the region see merit in creating this kind of graduate program:

- I would recommend a program of that type to interested students. I am always game for such broad interests. (Carl Sederholm, BYU)

- For many years, Lindsay Adams did something similar here. He supervised students who were exactly in the circumstance you describe -- they came to their interest late, and they lacked the language training to pursue graduate studies. They entered our MA program and worked with Lindsay at the same time that they got 2-3 years of language training under their belts. Many of those students went on to good PhD programs... It sounds like you have a good array of faculty resources to bring to bear on this program. (Eric Hinderaker, University of Utah)

- We don't have any graduate level classes in Classics here, and I would think that an option in the Rocky Mountain West would be appealing. (Matthew Semanoff, University of Montana)

External Review and Accreditation

Indicate whether external consultants or, for a career and technical education program, program advisory committee were involved in the development of the proposed program. List the members of the external consultants or advisory committee and briefly describe their activities. If the program will seek special professional accreditation, project anticipated costs and a date for accreditation review.

There is no external review or accreditation agency for this degree.

Section IV: Program Details

Graduation Standards and Number of Credits

Provide graduation standards. Provide justification if number of credit or clock hours exceeds credit limit for this program type described in R401-3.11, which can be found at higheredutah.org/policies/R401.

30 credits, with a 3.0 or better GPA.

Admission Requirements

List admission requirements specific to the proposed program.

An undergraduate degree in a related field and at least one year of study in the ancient language of the student's emphasis. Students will need to meet the USU graduate school's minimum requirements for admission.
Section V: Institution, Faculty, and Staff Support

Institutional Readiness

How do existing administrative structures support the proposed program? Identify new organizational structures that may be needed to deliver the program. Will the proposed program impact the delivery of undergraduate and/or lower-division education? If yes, how?

The program, while interdisciplinary, will be housed in the Department of History, which will provide some funding, a Graduate Program Coordinator, and graduate student facilities through its existing MA/MS program structures. Students in the new MA/MS program who receive funding will support undergraduate education at USU by serving as graduate teaching assistants in survey courses. Admittance and funding to the program will be administered through the History Department's Graduate Committee.

Faculty

Describe faculty development activities that will support this program. Will existing faculty/instructors, including teaching/graduate assistants, be sufficient to instruct the program or will additional faculty be recruited? If needed, provide plans and resources to secure qualified faculty. Use Appendix C to provide detail on faculty profiles and new hires.

The university has adequate numbers of qualified faculty who can staff this new MA/MS degree. If the program should grow in future to other ancient languages, then the department would need to hire faculty in those areas to offer courses. This hiring would be contingent upon program success and needed expansion in other degrees at the university.

Staff

Describe the staff development activities that will support this program. Will existing staff such as administrative, secretarial/clerical, laboratory aides, advisors, be sufficient to support the program or will additional staff need to be hired? Provide plans and resources to secure qualified staff, as needed.

The History Department has two dedicated full-time staff positions to support its programs, and these staff have the capacity and expertise to provide support for the new program.

Student Advisement

Describe how students in the proposed program will be advised.

Our current model for graduate student advising in the History Department relies heavily on the Graduate Program Coordinator and individual faculty advisors. The department would anticipate expanding this model to the new MA/MS program.

Library and Information Resources

Describe library resources required to offer the proposed program if any. List new library resources to be acquired.

The Library provides resources that are adequate to support the needs of the proposed program. Those that directly and uniquely support classical studies include the Loeb Classical Library, a collection of over 500 Greek and Latin primary-source texts with authoritative English translations, in both print and electronic form; Thesaurus Linguae Graecae, a database of ancient Greek texts; L'Année Philologique, a bibliography of scholarly works relevant to ancient Greece and Rome; and Early Church Texts, a database of Greek and Latin texts from the Christian Church up to the fifth century. More general support comes from the ACLS Humanities E-Book collection,
with over 3,000 peer-reviewed e-books; Project MUSE, with hundreds of journals in the humanities, arts, and social sciences; and JSTOR Arts & Sciences modules I-X, an interdisciplinary archive of over 1,500 journals. The Library also purchases roughly 400 books and e-books per year in the areas of history, religious studies, and languages in addition to maintaining a subscription to ProQuest's Academic Complete, which provides access to over 150,000 e-books in all areas of study. The Library solicits faculty feedback to acquire materials relevant to their teaching and research and seeks to collaborate with faculty to develop sustainable forms of research instruction.

Projected Enrollment and Finance

Use Appendix D to provide projected enrollment and information on related operating expenses and funding sources.

Section VI: Program Evaluation

Program Assessment

Identify program goals. Describe the system of assessment to be used to evaluate and develop the program.

As this is an MA/MS program requiring a Plan A thesis, the assessment of individual students will be based on the artifact of their thesis, which will be judged according to a standard rubric. Progress toward the degree will be evaluated in spring semester of students' first year through a tracking of their completion of thesis proposals and their successful defense.

Student Standards of Performance

List the standards, competencies, and marketable skills students will have achieved at the time of graduation. How and why were these standards and competencies chosen? Include formative and summative assessment measures to be used to determine student learning outcomes.

Learning objectives and outcomes are the skill sets, competencies, and knowledge students should acquire in their discipline before graduation. The following criteria are for history majors involving the acquisition and mastery of historical knowledge, historical thinking, and historical skills.

Goal: Emphasize the complex nature of past experiences

Goal: Develop skills in critical thinking, reading, research, and speaking

Goal: Master at least one ancient language to the level that allows for research in that language
# Appendix A: Program Curriculum

List all courses, including new courses, to be offered in the proposed program by prefix, number, title, and credit hours (or credit equivalences). Indicate new courses with an X in the appropriate columns. The total number of credit hours should reflect the number of credits required to be awarded the degree.

For variable credits, please enter the minimum value in the table for credit hours. To explain variable credit in detail as well as any additional information, use the narrative box at the end of this appendix.

Choose 2 of the following courses:
Program Curriculum Narrative

Describe any variable credits. You may also include additional curriculum information.

1. Directed studies courses (HIST 6880, HIST 6900, PHIL 6900, ALC 6900, ENGL 6920) are variable 1-3 credits. Students who choose 1-credit electives still must take 6 hours total of electives. Electives may also include ALC 6000-level language courses focusing on a language different from the student's primary language.

2. Students must complete 9 hours of credit in their primary ancient language. Present options include Latin (ALC 6101, ALC 6102, ALC 6103), Greek (ALC 6201, ALC 6202, ALC 6203), and Arabic (ALC 6301, ALC 6302, ALC 6303). Future offerings will include Sanskrit (ALC 6401, ALC 6402, ALC 6403) and Hebrew (ALC 6501, ALC 6502, ALC 6503). All these are new courses.

3. We have secured permission from department heads in English, Art, LPCS allowing us to incorporate in our program courses listed above.
**Degree Map**

Degree maps pertain to undergraduate programs ONLY. Provide a degree map for proposed program. Degree Maps were approved by the State Board of Regents on July 17, 2014 as a degree completion measure. Degree maps or graduation plans are a suggested semester-by-semester class schedule that includes prefix, number, title, and semester hours. For more details see [http://higheredutah.org/pdf/agendas/201407/TAB%20A%20202014-7-18.pdf](http://higheredutah.org/pdf/agendas/201407/TAB%20A%20202014-7-18.pdf) (Item #3).

Please cut-and-paste the degree map or manually enter the degree map in the table below.

Part II: Expense explanation

Expense Narrative
Describe expenses associated with the proposed program.
The program is built around existing personnel and capacity, so no new expenses are anticipated. All new courses will be taught as part of faculty load for current faculty.

Part III: Describe funding sources

Revenue Narrative 1
Describe what internal reallocations, if applicable, are available and any impact to existing programs or services.
The History Department will reallocate Graduate Teaching Assistantships to the new program, beginning with one the first year ($15,000) and then with two ($30,000) in subsequent years. The program will evaluate the GTA distributions after 4 years and reallocate as necessary for enrollment in this program and in the History master's program.

Revenue Narrative 2
Describe new funding sources and plans to acquire the funds.
No new funding planned initially. The department anticipates using tuition dollars to fund additional language courses in the future.

Program Change Description - Abbreviated Template

Section I: The Request

Utah State University requests approval to change name from American Studies to Folklore and American Studies and restructure Folklore and American Studies effective Fall 2019. This action was approved by the institutional Board of Trustees on.

Section II: Program Proposal

Program Change Description/Rationale

Present a brief program change description. Describe the institutional procedures used to arrive at a decision for the change. Briefly indicate why such a change should be initiated. State how the institution and the USHE benefit by the change.

The Department of English proposes changing the name of the graduate program and graduate degree from "American Studies" to "Folklore and American Studies" as part of larger strategy for a more integrated and holistic graduate program. Currently, Folklore Studies is a specialization in American Studies and therefore administratively a minor partner, despite the fact that USU's Folklore Program is historically strong and nationally recognized. For example, although Folklore students undertake a rigorous program of courses, the Master's degree says "American Studies" and does not reflect their Folklore Studies background. Similarly, many American Studies students take folklore courses but also do not have this reflected in their degree. The proposed change would more accurately reflect the work that students are doing. As part of the larger program change, there will be minor curricular changes to ensure that all students take at least one Folklore and one American Studies course, ensuring a more integrated and interdisciplinary Master's Degree program. that will provide students with greater depth in both of these subject areas. The proposed change will also help the Department of English recruit students to the program by delineating the dual strengths and focus of the degree more clearly. This change will also help the English department improve our administrative efficiency as it will be able to consolidate admissions and assessment responsibilities (currently operating as two separate committees for each process) into two integrated admission and assessment committees for the program as a whole. The decision to make these program changes was accomplished through discussions held by American Studies and Folklore faculty in their monthly program meetings, as well as a joint meeting involving faculty from both areas. A formal vote was held to approve these program changes with members of the American Studies and Folklore faculty on Sept. 12, 2018, where the changes were approved unanimously.

Consistency with Institutional Mission/Institutional Impact

Explain how the action is consistent with the institution's Regent-approved mission, roles, and goals. Institutional mission and roles may be found at higheredutah.org/policies/policy312/. Indicate if the program will be delivered outside of designated service area; provide justification. Service areas are defined in higheredutah.org/policies/policy315/. Will faculty or staff structures be impacted by the proposed change?

This action is completely consistent with USU's mission as both a research-oriented university and as a student-centered, land grant university because the proposed changes promote a more rigorous interdisciplinary program of study and will expose students to a greater range of ideas and faculty. No existing faculty or staff structures will be adversely impacted by this proposed change, and this proposed change will allow the Department of English to manage existing faculty and curricular resources more efficiently.

Finances

What costs or savings are anticipated from this change? If new funds are required to implement the change, indicate expected sources of funds. Describe any budgetary impact on other programs or units within the institution.

No new funds are required for this change. It allows for greater collaboration and sharing of resources between Folklore and American Studies faculty, since the programs will share courses, students, and faculty more fully. In particular the programs anticipate fewer canceled classes due to low enrolment and more faculty available to serve on graduate thesis committees. Faculty will also be able to manage admission and assessment processes more efficiently by consolidating them under a single committee for each, comprised of faculty from both areas.

Section I: The Request
Utah State University requests approval to offer the following Baccalaureate degree(s): Chinese effective Fall 2019. This program was approved by the institutional Board of Trustees on .

Section II: Program Proposal
Program Description
Present a complete, formal program description.

The Bachelor of Arts (B.A.) degree in Chinese will prepare students with the knowledge, motivation and skills necessary to develop a high degree of linguistic competence in the Chinese language as well as to provide the historical, artistic and cultural background needed to understand and interact successfully with Chinese speakers. Students will come to understand various cultural nuances important in Chinese speaking societies as expressed in literature, business, and media outlets.

The language courses emphasize speaking, listening, reading, and writing skills that would be essential for interacting with native Chinese speakers from a variety of countries. It is recognized that there are multiple varieties of Chinese. The focus in this major will be on Mandarin Chinese, which has more speakers than any other language in the world. The courses on literature, culture, film, and theater provide students opportunities to apply and advance their comprehensive language skills through in-depth reading of authentic materials and critical interpretation of traditions in Sinophone cultures and communities, as well as to assess the impact of such trends in and beyond the Chinese-speaking communities across the world. Students will learn about both general and specific cultural differences between Mainland China, Taiwan, Hong Kong, the United States, and other Sinophone areas, including diversities in values, workplace behavior, and relationship development. In the linguistic courses, students will study the nature of language itself, and have an opportunity to explore various features of the Chinese language. Students will also be able to understand social issues that impact language use and develop translation skills.

This program is designed to help students in multiple ways. First, as suggested earlier, it will increase the students' options and opportunities in the job market. Individuals with strong second language skills have more opportunities for placement and advancement in a wide variety of careers. Second, as students learn not only another language, but come to understand other ways of living and organizing, their ability to succeed as a responsible member of the global community improves. Third, the skills associated with second language acquisition, translation, literary analysis, artistic articulations, cultural criticism, and diverse perceptions of the world will help students solve every-day, real-world problems, and think through complex issues and communicate clearly.

Minimum Departmental Requirements Total Credits and Minimum Departmental Requirements

The Chinese Major requires 34 upper-division credit hours.
**Chinese Major Requirements**

**A. Required Courses:** (7 credit hours minimum)
- CHIN 3010 Chinese Third Year I
- And either
  - CHIN 3050 Chinese Conversation (this bridge course is only available to, and required for, students who have not had at least one-year of extensive experience in a Chinese-speaking environment).
  - or
  - LING 3200 Introduction to Linguistics
  - or
  - LING 4100 Study of Language

**B. Elective Courses (27 credits minimum)**
- CHIN 3020 Chinese Third Year II
- CHIN 3060 Chinese Grammar and Composition (pending approval)
- CHIN 3080 Chinese Outreach Practicum
- CHIN 3090 Readings in Contemporary Chinese Culture (DHA)
- CHIN 3118 Chinese Popular Culture
- CHIN 3510 Chinese Business Language
- CHIN 3540 Translating Into and From Chinese (CI)
- CHIN 3800 Chinese III Study Abroad
- CHIN 3880 Individual Readings in Chinese
- CHIN 4090 Masterworks in Classical Chinese Fiction (pending approval)
- CHIN 4100 Teaching Chinese as a Foreign Language
- CHIN 4210 Chinese/ Sinophone Theatre and Performance
- CHIN 4300 Introduction to Classical Chinese (pending approval)
- CHIN 4800 Chinese IV Study Abroad
- CHIN 4920 Chinese Language Tutoring
- LANG 3570: Narrative Ethics in Asian Literature and Film
  - (Or one of the following two classes)
- CMST 3330 Intercultural Communication
- LING 3100 Language in Context

Credits obtained in lower-division Chinese courses cannot be applied toward the major.
Grade Point Average to Declare a Major: 2.5 Career GPA.
Grade Point Average required to Graduate with Major: 2.5 GPA within courses for the major.

Courses for the Chinese Major require minimum grades of C- or better. Courses for the Chinese Major **may not** be taken on a Pass/Fail Basis.

**Consistency with Institutional Mission**

*Explain how the program is consistent with the institution's Regents-approved mission, roles, and goals (see mission and roles at higheredutah.org/policies/policyr312) or, for "out of mission" program requests, the rationale for the request.*

In keeping with Utah State’s mission statement the proposed major in Chinese will foster diversity of thought and culture by encouraging student learning, discovery and engagement with distinct communities worldwide. There are currently fifty-five Chinese language dual immersion schools in the state of Utah (K-12), so the connection to Utah State is a natural one. Proficiency in languages tied to large economic bases, and language knowledge such as Chinese, is crucial for the Utah labor
market and, therefore, is consistent with Utah State’s land-grant role of serving those within Utah by enhancing their quality of life through their ability to function effectively in the marketplace. Additionally, this major will further contribute to the University’s public goal of stimulating knowledge of national and international affairs, and thus aligns clearly with its internationalization efforts. The major will also complement many programs already existing at Utah State, such as Asian Studies, Global Communication, International Studies, and International Business. Many of the student majoring in other languages are double majoring with a variety of programs throughout the university. This increased language and cultural training gives the state’s students a distinct advantage in the workplace.

Section III: Needs Assessment

Program Rationale
Describe the institutional procedures used to arrive at a decision to offer the program. Briefly indicate why such a program should be initiated. State how the institution and the USHE benefit by offering the proposed program.

This major proposal is responding to student requests, changes in the labor market, and faculty analysis of current trends. This major will prepare students with the knowledge, motivation, and skills necessary to thrive while engaging in work in intercultural contexts. Students in this program will study the Chinese language, as well as the culture and societies of Chinese speaking peoples. With over one billion speakers world-wide, Chinese is clearly a vital language in the world economy. The creation of a major in this area will be beneficial for student's here at USU and for Utah.

Cache Valley has an unusually high number of Chinese speakers in it and also has a dual language program in Chinese at the elementary school level. This is an important language for business and social interactions both world-wide and locally. Having a major that capitalizes on and helps strengthen these connections is very valuable. It is expected that the major in Chinese will also provide an opportunity for greater knowledge and expertise in Chinese language and culture for the students Utah State University serves.

The degree will also help students develop life-long skills such as problem solving, critical thinking, communicating with those from culturally diverse backgrounds, interpretation and translation skills, the ability to empathize and be sensitive to different perspectives, and an understanding for how communities fit into the larger world scene. The courses provide a distinctive element to the baccalaureate education at USU, and encourage a commitment to making a difference in the world.

Labor Market Demand
Provide local, state, and/or national labor market data that speak to the need for this program. Occupational demand, wage, and number of annual openings information may be found at sources such as Utah DWS Occupation Information Data Viewer (jobs.utah.gov/jsp/wi/utalmis/gotoOccinfo.do) and the Occupation Outlook Handbook (www.bls.gov/oco).

As technological advances bring the world’s peoples closer together, the ability to communicate effectively across cultures and languages is becoming increasingly valuable. Chinese is the most commonly spoken language in the world and mainland China has the largest GDP in the world. Chinese is one of nine strategic languages identified in the language flagship program sponsored by the National Security Education Program (NSEP) at the U.S. Department of Defense. Clearly jobs associated with China are growing and students with Chinese language skills have many doors...
Students with strong language skills and cultural knowledge are in high demand across a variety of workplaces, including education, business, marketing, government agencies, tourism, health professions, engineering, and many more. In this age of multinational corporations, enterprises and companies are looking for sales managers, executives, marketing specialists, personnel managers, accountants, and finance managers who speak a second language. Graduates in many fields that speak a second language have greater opportunities for placement and advancement. Students who wish to work for travel industries, technology and international trade companies, health professions, education services, or various governmental agencies often find that the knowledge of a second language gives them a competitive advantage or is an essential qualification for the job.

Student Demand
Provide evidence of student interest and demand that supports potential program enrollment. Use Appendix D to project five years' enrollments and graduates. Note: If the proposed program is an expansion of an existing program, present several years enrollment trends by headcount and/or by student credit hours that justify expansion.

Utah State has many students involved with the Chinese language, either through the Asian Studies program, the Chinese minor, or the Chinese teaching minor. A survey taken in the summer of 2018 of USU students who minoring in Chinese showed that 76% were interested in becoming a major if such a program were created. All of the students responding were supportive of the creation of a major, but 24% felt that they would not have the time to either do a double major or switch to the Chinese major. This is a high percentage of students who are interested in doing more with the Chinese language than what they are currently able to do. Not all students that expressed interest will immediately be able to add this to their program of study, but many will and the program will grow as the news of the new major spreads.

Similar Programs
Are similar programs offered elsewhere in the USHE, the state, or Intermountain Region? If yes, identify the existing program(s) and cite justifications for why the Regents should approve another program of this type. How does the proposed program differ from or compliment similar program(s)?

Only one other institution (The University of Utah) in USHE offers a major in Chinese. Utah Valley University has minors in Chinese Commerce, Chinese Language, and Chinese Studies. Weber State University offers an associate degree of Chinese. Snow College and Dixie State University irregularly have beginner-level Chinese language classes, but no specific programs of Chinese have been set up. Given that the demanding of Chinese knowledge is increasing and only one college in Utah offers a major in Chinese, this major will provide students with an important additional opportunity to achieve a high level of linguistic competence in Chinese. This major will also cultivate students' advanced knowledge of the cultural and literary traditions of China, Taiwan, and other Sinophone communities.

Collaboration with and Impact on Other USHE Institutions
Indicate if the program will be delivered outside of designated service area; provide justification. Service areas are defined in higheredutah.org/policies/policyr315/. Assess the impact the new program will have on other USHE institutions. Describe any discussions with other institutions pertaining to this program. Include any collaborative efforts that may have been proposed.
The program will not be delivered outside of the designated service area. Since there are no other Chinese major programs available nearby (within 80 miles), it will not be in competition with or impact any other programs. The department heads for each of the language programs in the state have been contacted by the Utah State department head about the work on this new program. To date, there have only been supportive responses to the news about this potential new program. For example, the Chair of the Department of World Languages at the University of Utah, Dr. Toscano, wrote, “I agree that we need more Chinese programs at our colleges and universities in Utah, especially with the thriving Chinese Dual Immersion classrooms in our public schools. So yes, I will support your proposal.” Other department chairs have also been very supportive. Some possible collaborations with other institutions as the program becomes more established include co-hosting undergraduate research symposiums, academic conferences, Chinese film festivals etc. The new major will enrich the exchange of Chinese research and teaching in Utah.

External Review and Accreditation
Indicate whether external consultants or, for a career and technical education program, program advisory committee were involved in the development of the proposed program. List the members of the external consultants or advisory committee and briefly describe their activities. If the program will seek special professional accreditation, project anticipated costs and a date for accreditation review.

The program will not seek a special professional accreditation. The major was designed by the full-time Chinese language faculty at Utah State University using existing language majors as a model.

Section IV: Program Details

Graduation Standards and Number of Credits
Provide graduation standards. Provide justification if number of credit or clock hours exceeds credit limit for this program type described in R401-3.11, which can be found at higheredutah.org/policies/R401.

A minimum of 34 “upper-division” credits will be required for graduation. This number is similar to the 33 upper-division credits required for the French, German and Portuguese language majors at Utah State. A student who begins with a background in Chinese would need to complete 20 lower division credits before they would be able to enroll in upper-division Chinese courses. Similar to the other language programs a 2.5 GPA within the major courses would be required to graduate and at least fifty percent of the major credits must be completed at USU. Courses for Chinese majors require a C- grade or better to be counted toward graduation. In addition, courses taken for the Chinese major may not be taken on a Pass/Fail basis.

Admission Requirements
List admission requirements specific to the proposed program.

1. New freshmen admitted to USU in good standing qualify for admission to this major.
2. Transfer students from other institutions need a 2.5 total GPA for admission to this major.
3. Students transferring from other USU majors need a total GPA of 2.5 for admission to this major.
Curriculum and Degree Map

Use the tables in Appendix A to provide a list of courses and Appendix B to provide a program Degree Map, also referred to as a graduation plan.

Section V: Institution, Faculty, and Staff Support

Institutional Readiness

How do existing administrative structures support the proposed program? Identify new organizational structures that may be needed to deliver the program. Will the proposed program impact the delivery of undergraduate and/or lower-division education? If yes, how?

The university is well suited to support this degree. The courses required to make this major work are either all existing courses or courses that are in the process of receiving approval. The existing Chinese minor is very popular (roughly 45 returning students this coming fall, 2018). The Department of Languages, Philosophy and Communication Studies currently offers nine different majors and fifteen minors and has the structure in place to easily allow for an additional major. Students will be able to receive the instruction and advising they need with the system that is already in place.

Faculty

Describe faculty development activities that will support this program. Will existing faculty/instructors, including teaching/graduate assistants, be sufficient to instruct the program or will additional faculty be recruited? If needed, provide plans and resources to secure qualified faculty. Use Appendix C to provide detail on faculty profiles and new hires.

No additional faculty members are required for this major. The number of core faculty who will provide fulltime support for this major is three. All three faculty members have doctoral degrees. Two are Associate Professors, Ko-Yin Sung and Li Guo, and one is an Assistant Professor, Jasmine Yu-Hsing Chen. These full-time faculty members have outstanding diversity and multi-disciplinary backgrounds in research and teaching. With sound faculty capacity, the program can offer students an extensive range of courses in language, literature, culture and civilization studies, as well as some courses covering intersecting fields of Asian studies and Global Communication studies. In addition, we have routinely had one or two graduate instructors associated with the department's Master of Second Language Teaching program who teach lower-division Chinese language classes.

Specifically, full-time faculty members' expertise will support the enrichment and long-term development of course structure, and include nuanced and theme-based courses to meet students' increasingly varied demands. Faculty specialties allow offering of courses on language skills at all levels, as well as content-based, upper-level courses covering pre-modern, modern, and contemporary periods of Sinophone communities across cultural, socio-historical, and geographical boundaries.

Also, the department has four faculty members who teach in linguistics and culture, and can provide support for related requirements. All four faculty have doctoral degrees.
Staff
Describe the staff development activities that will support this program. Will existing staff such as administrative, secretarial/clerical, laboratory aides, advisors, be sufficient to support the program or will additional staff need to be hired? Provide plans and resources to secure qualified staff, as needed.

The Department of Languages, Philosophy and Communication Studies currently has five staff members. Four of these are full-time and one is three quarter time. The need for additional staff to support this program is not anticipated.

Student Advisement
Describe how students in the proposed program will be advised.

The Department of Languages, Philosophy and Communication Studies currently has a full-time advisor who works with the language majors. The advisor also provides guidance on program requirements to those in the Chinese major. In addition, each of the majors are assigned a faculty member as an advisor to provide more program specific information and mentoring. The three faculty members who specialize in Chinese will be assigned students to work with just as the faculty teaching in the French, German, Portuguese, and Spanish programs are. This process has worked very smoothly.

Library and Information Resources
Describe library resources required to offer the proposed program if any. List new library resources to be acquired.

Utah State University's Merrill-Cazier library offers excellent resources that supports faculty research and the teaching of Chinese classes in the existing minor. The library recently offered an Open Educational Resources (OER) grant to help renovate a Chinese translation class. Students and faculty will continue to use these same resources. In future, funding could be sought to encourage collaboration with the library in the following aspects: 1) utilizing Digital Commons to promote faculty members' research impact and presence at regional, national and international levels; 2) expanding current digital databases related to Sinophone studies to support faculty members' teaching and research endeavors, especially some essential Chinese/Taiwanese databases such as CNKI, Airiti Library, and Udnodata; 3) collaborating with library specialists and IT experts in promoting digital humanities research in Sinophone studies and Asian studies in general; 4) considering the robust growth of the Chinese language program, Japanese language program and Asian studies program, there will be increasing demands for a part-time or full-time library specialist who can serve as a designated expert in East Asian studies, and take charge of book ordering, journal subscription, and offer library assistance for faculty and students who work in related fields.

Projected Enrollment and Finance
Use Appendix D to provide projected enrollment and information on related operating expenses and funding sources.

Section VI: Program Evaluation

Program Assessment
Identify program goals. Describe the system of assessment to be used to evaluate and develop the program.

Chinese will use a program assessment plan that the department uses for the other language majors in the department, French, German, Portuguese, and Spanish. The basic program assessment plan is as follows:
The framework used for the learning objectives reflects the American Council on the Teaching of Foreign Languages (ACTFL) Standards of Foreign Language Learning, the 5 C's (Communication, Cultures, Connections, Comparisons, and Communities). As such, many of the rubrics used for assessment in the various language programs adhere to nationally recognized standards. Following are the learning objectives along with information about how each one is assessed.

1. Students are proficient in speaking, listening, reading, and writing in their language of study.

   **Source of data to assess learning objective one:** Student work from the following courses: CHIN 3010, 3020, 3060, 3100, 3510, 3540, and 4300.

   **Rubrics to be used for assessment:** Please see supplements A, B, and C in this document. Each of these rubrics are based, in part, on the American Council on the Teaching of Foreign Language (ACTFL) standards for reading, writing, listening, and speaking as well as on other standards for literary/cultural interpretation.

   **Frequency of assessment and reporting of data:** Data for this learning objective is collected in each of the above courses whenever they are offered throughout the academic year (i.e., at least two courses per language, per year). Each language section reports/uploads their assessments for this learning objective by the end of the spring semester. Individual and averaged aggregate scores in each language program for this learning objective are uploaded to the languages assessment page on the LPCS website. Faculty members in each language section also meet at the end of each spring semester and discuss the assessment information/scores and determine any necessary curricular changes needed. The department will also receive feedback from recent graduates through a survey sent out each summer designed to assess their perception of how the program is doing with this objective (see supplement D).

2. Students will be able to interpret a variety of cultural products (texts, films, music, art, theater, performance, photography, etc.).

   **Source of data to assess learning objective two:** Student work from the following courses: CHIN 3090, 3100, 3118, 3540, 4090, 4210, 4300 and Lang 3570.

   **Rubric to be used for assessment:** Please see supplement A which is based, in part, the ACTFL standards for reading and writing as well as on other standards for literary/cultural interpretation.

   **Frequency of assessment and reporting of data:** Data for this learning objective is collected in each of the above courses whenever they are offered throughout the academic year (i.e., fall and/or spring semesters). Each language section reports/uploads their assessments for this learning objective by the end of the spring semester. Individual and averaged aggregate scores in each language program for this learning objective are uploaded to the languages assessment page on the LPCS website. Faculty members in each language section also meet at the end of each spring semester and discuss the assessment information/scores and determine any necessary curricular changes needed. The department will also receive feedback from recent graduates through a survey sent out each summer designed to assess their perception of how the
program is doing with this objective (see supplement D).

3. To expose students to methods of inquiry and research appropriate to the humanities.

Source of data to assess learning objective: Student work from the following courses: CHIN 3090, 3118, 3540, 4090, 4100, 4300 and LANG 3570.

Rubric to be used for assessment three: Please see supplement A which is based, in part, the ACTFL standards for reading and writing as well as on other standards for literary/cultural interpretation.

Frequency of assessment and reporting of data: Data for this learning objective is collected in each of the above courses whenever they are offered throughout the academic year (i.e., fall and/ or spring semesters). Each language section reports/uploads their assessments for this learning objective by the end of the spring semester. Individual and averaged aggregate scores in each language program for this learning objective are uploaded to the languages assessment page on the LPCS website. Faculty members in each language section also meet at the end of each spring semester and discuss the assessment information/scores and determine any necessary curricular changes needed. Feedback will be received from recent graduates through a survey sent out each summer designed to assess their perception of how the program is doing with this objective (see supplement D).

4. To prepare students for a broad selection of professional activities appropriate to the 21st century job market in which knowledge of a foreign language is important, including primary/secondary language instruction, as well as graduate or other professional studies.

Source of data to assess learning objective four: The department will be surveying recent graduates using the survey found in supplement D.

Frequency of assessment and reporting of data: Data for this learning objective is collected each summer from language majors who have graduated in the last year. The LPCS department reports/uploads its assessment for this learning objective by the end of the spring semester. Individual and averaged aggregate scores for this learning objective are uploaded to the languages assessment page on the LPCS website at this time as well. Faculty members in each language section meet at the end of each spring semester and discuss the assessment information/scores and determine any necessary curricular changes needed.

Supplement A

Rubric for
Learning Objective 1 (i.e., reading and writing abilities)
Learning Objective 2 (interpreting cultural products)
Learning Objective 3 (methods of inquiry/research in the Humanities)

Preliminary Note: The following rubric is based, in part, on ACTFL standards for reading and writing, as well as on other standards for literary/cultural interpretation and research in the field. Each student's work is assessed with regards to Objectives 1, 2, and 3 on a point scale of 1 to 4 (with 4 being the highest). While the highest possible score of 12
would indeed be achievable by the very best students, the goal for the majors in general
is a cumulative score of at least 9 in each of the categories expressed in the rubrics (i.e.,
linguistic accuracy and comprehensibility, interpreting literary and cultural texts, and
research methods in the Humanities). A score of 9 represents an acceptable level of
competence in these areas and demonstrates the benchmark for success in the
achievement of the learning objectives as a whole. **Linguistic accuracy and
comprehensibility**

(Learning Objective 1, writing)

(4) Writer uses language correctly, and *precisely* including grammar taught in that
course, spelling, word order, and punctuation. Uses complex sentence structures,
conjunctions, etc. Uses all appropriate formal, academic, or professional style. Reader
can always understand what the writer is trying to communicate. Communicates ideas
effectively; includes elements of persuasion or interpretation, etc.

(3) Writer uses most of the language correctly, including grammar, attempts but does not
use complex sentence structures or more difficult grammar accurately. Uses some
formal, academic, or professional style, some idiomatic or slang terms. Reader can
understand most of what the writer is trying to communicate.

(2) Writer has some problems with basic grammar usage or is inconsistent. Frequently
uses slang terms or lacks formal, academic, or professional style. Reader can
understand less than half of what the writer is trying to communicate.

(1) Writer makes a significant number of basic errors in language usage, such as
basic conjugations, present tense, agreements, etc. Lacks appropriate formal,
academic, or professional style. Reader can understand little of what the writer is
trying to communicate. **Interpreting literary and cultural texts**

(Learning Objective 2, and Learning Objective 1, reading)

(4) Writer shows understanding of provided text. Uses all of the interpretive tools and
critical language taught in class applied to the given text (for example, discusses
theme, context, images, stylistic elements, cultural references, etc. of a literary text
according to assignment). Able to synthesize material and move beyond basic
comprehension or summary. Shows cultural understanding and knowledge; able to
make cultural comparisons.

(3) Writer fulfills all requirements of the assignment. Uses some of the interpretive tools
taught in the class (for example some understanding of context, style, form, content,
etc.). Limited ability to move beyond basic comprehension and summary. Some
effective or original synthesis of material. Shows some detailed knowledge of the other
culture.

(2) Writer fulfills requirements of the assignment. Unable to use interpretive tools or
critical language applied to the text. Demonstrates understanding of text, but cannot
move beyond summary. Makes some limited cultural references with limited
understanding.

(1) Writer fulfills few requirements of the assignment. Does not demonstrate
understanding of the given text. No synthesis of material at all. Makes no cultural
references; does not show cultural understanding. **Research methods of the**
Humanities

(Learning Objective 3)

(4) Writer uses appropriate secondary research sources to support their central thesis and ideas. Sources include academic articles, books, and essays. Writer cites sources correctly (using MLA style) and appropriately incorporates research findings into essay. Use of bibliography shows a sophisticated knowledge of the field of inquiry.

(3) Writer uses some secondary research sources to support their thesis and ideas. Use of sources, citing abilities, knowledge of MLA style, and/or bibliography may be limited or lacking. Research skills are sufficient and show some detailed knowledge of the field of inquiry.

(2) Writer uses few secondary research sources to support their thesis and ideas. Some sources may be non-academic. Use of sources, citing abilities, knowledge of MLA style, and/or bibliography are insufficient. Research paper shows only a limited knowledge of the field of inquiry.

(1) Writer uses no appropriate secondary research sources. Lack of research shows little to no knowledge of field of inquiry.

Supplement B

A note about listening tasks used at USU: Assessing second language listening ability in the language programs may be done via a number of different tasks; some of which will combine the assessment of listening alongside speaking (e.g., via an interactive presentation whereby the student not only talks about a project, but also answers various questions/comments from the instructor and/or fellow students). In many instances, however, listening may be assessed via tasks that isolate/assess a student's listening ability. Language majors in the program should attain, at minimum, listening proficiency at the Advanced Mid-level but may range through the Superior level on the American Council on the Teaching of Foreign Language (ACTFL) Guidelines for Listening (2012). The following rubric reflects the various levels/range of listening proficiency to be assessed.

Sample rubric to be used to assess listening

Holistic Evaluation

Levels of Listening

Proficiency Superior

(4 pts)
*able to understand speech in a standard dialect on a wide range of familiar and less familiar topics.

*understands speech that typically uses precise, specialized vocabulary and complex grammatical structures.

*comprehension is no longer limited to the listener's familiarity with subject matter, but
also comes from a command of the language that is supported by a broad vocabulary, an understanding of more complex structures and linguistic experience within the target culture.

Advanced High (3 pts) *able to understand, with ease and confidence, conventional narrative and descriptive texts of any length as well as complex factual material such as summaries or reports.

*are able to comprehend the facts presented in oral discourse and are often able to recognize speaker intended inferences.

*able to derive some meaning from oral texts that deal with unfamiliar topics or situations.

Advanced - Mid 2 pts.

*able to understand conventional narrative and descriptive texts, such as expanded descriptions of persons, places, and things, and narrations about past, present, and future events.

*understands the main facts and many supporting details.

*comprehension derives not only from situational and subject-matter knowledge, but also from an increasing overall facility with the language itself.

Advanced - Low 1 pt.

*listeners are able to understand short conventional narrative and descriptive texts with a clear underlying structure though their comprehension may be uneven.

*understands the main facts and some supporting details.

*comprehension may often derive primarily from situational and subject-matter knowledge.

[Advanced Low]

Note: Guidelines/parameters used to determine whether or not a language program is effectively addressing listening (part of learning objective #1) are as follows:

*The listening objective is exceeded when the average score for the assessed students in a language program falls in the range of 3.0 to 4.0 points.

*The listening objective is met when the average score for the assessed students in a language program falls in the range of 2.0 to 2.9 points.

* The listening objective is not met when the average score for the assessed students in a language program falls in the range of 0 to 1.9 points.

Supplement C

A note about the speaking task used at USU: The primary oral evaluation task in many of the classes in the language program is an in-class oral presentation. Language
majors in the program should attain, at minimum, an oral proficiency at the Advanced level based on the American Council on the Teaching of Foreign Language (ACTFL) Guidelines for Speaking (2012). The following describes what successful language majors should be able to do at the Advanced level:

Speakers at the Advanced level engage in conversation in a clearly participatory manner in order to communicate information on autobiographical topics, as well as topics of community, national, or international interest. The topics are handled concretely by means of narration and description in the major time frames of past, present, and future. These speakers can also deal with a social situation with an unexpected complication. The language of Advanced-level speakers is abundant, the oral paragraph being the measure of Advanced-level length and discourse. Advanced-level speakers have sufficient control of basic structures and generic vocabulary to be understood by native speakers of the language, including those unaccustomed to non-native speech.

Sample rubric to be used to assess speaking

Holistic Evaluation - Levels of Oral Proficiency

[Advanced High] 4 pts. *able to explain in detail and narrate fully and accurately in all time frames.

*may provide a structured argument to support their opinions, and they may construct hypotheses, but patterns of error appear.

*demonstrates a well-developed ability to compensate for an imperfect grasp of some forms or for limitations in vocabulary by the confident use of communicative strategies, such as paraphrasing, circumlocution, and illustration.

[Advanced Mid] 3 pts. *able to narrate and describe in the major time frames of past, present, and future by providing a full account, with good control of aspect.

*can participate actively in most informal and some formal exchanges on a variety of concrete topics relating to work, school, home, and leisure activities, as well as topics relating to events of current, public, and personal interest or individual relevance.

*can handle successfully and with relative ease the linguistic challenges presented by a complication or unexpected turn of events that occurs within the context of a routine situation or communicative task and their vocabulary is fairly extensive although primarily generic in nature, except in the case of a particular area of specialization or interest.

[Advanced Low] 2 pts. * demonstrate the ability to narrate and describe in the major time frames of past, present, and future in paragraph-length discourse with some control of aspect.

*able to participate in most informal and some formal conversations on topics related to school, home, and leisure activities.

*speech is typically marked by a certain grammatical roughness (e.g., inconsistent
control of verb endings); vocabulary often lacks specificity.

[Intermediate High] 1pt. * can narrate and describe in all major time frames using connected discourse of paragraph length, but not all the time.

* able to handle successfully uncomplicated tasks and social situations requiring an exchange of basic information related to their work, school, recreation, particular interests, and areas of competence.

* when Intermediate High speakers attempt to perform Advanced-level tasks, their speech exhibits one or more features of breakdown, such as the failure to carry out fully the narration or description in the appropriate major time frame, an inability to maintain paragraph-length discourse, or a reduction in breadth and appropriateness of vocabulary.

Note: Guidelines/parameters used to determine whether or not a language program is effectively addressing speaking (part of learning objective #1) are as follows:

*The speaking objective is exceeded when the average score for the assessed students in a language program falls in the range of 3.0 to 4.0 points.

*The speaking objective is met when the average score for the assessed students in a language program falls in the range of 2.0 to 2.9 points.

* The speaking objective is not met when the average score for the assessed students in a language program falls in the range of 0 to 1.9 points.

---

**Supplement D**

**QUESTIONNAIRE FOR STUDENTS WHO GRADUATED WITH A CHINESE MAJOR**

Department of Languages, Philosophy, & Communication Studies

Utah State University

1. Name

2. Please list any minors and/or double majors?

3. Please evaluate your languages classes regarding each of the following learning objectives:

Objective 1:

Students will be proficient in speaking, listening, reading, and writing in their language of study.

With respect to this objective my classes were effective:

___ Strongly agree
___ Agree
___ Neutral
___ Disagree
___ Strongly disagree
Objective 2:
Students will be able to interpret a variety of cultural products (texts, films, music, art, photography, etc.).

With respect to this objective my classes were effective:

__ Strongly agree
__ Agree
__ Neutral
__ Disagree
__ Strongly disagree

Objective 3:
Students will be exposed to methods of inquiry and research appropriate to the humanities.

With respect to this objective my classes were effective:

__ Strongly agree
__ Agree
__ Neutral
__ Disagree
__ Strongly disagree

Objective 4:
To prepare students for a broad selection of professional activities appropriate to the 21st century job market in which knowledge of a foreign language is important, including primary/secondary language instruction, as well as graduate or other professional studies.

With respect to this objective my classes were effective:

__ Strongly agree
__ Agree
__ Neutral
__ Disagree
__ Strongly disagree

4. The department would like to stay in touch with you. What are your post-graduation plans? Please include information concerning a job, graduate school, or professional school.

5. Please provide post-graduation contact information, if possible. This information will be confidential.

   a. E-mail address:

   b. Postal address:
c. Phone number:

The department is very interested in your feedback. Please include any general comments you would like to make about your experiences in the Spanish program and the Department of Languages, Philosophy, and Communication Studies (areas of strength or areas for improvement).

Student Standards of Performance

List the standards, competencies, and marketable skills students will have achieved at the time of graduation. How and why were these standards and competencies chosen? Include formative and summative assessment measures to be used to determine student learning outcomes.

The assessment plan discussed in the previous section is designed to promote the following skills and knowledge:

1. Students are proficient in speaking, listening, reading, and writing in their language of study.

2. Students will be able to interpret a variety of cultural products (texts, films, music, art, photography, etc.).

3. Students will be familiar with methods of inquiry and research appropriate to the humanities.

4. Students will be prepared for a broad selection of professional activities appropriate to the 21st century job market in which knowledge of a foreign language is important, including primary/secondary language instruction, as well as graduate or other professional studies.

Each academic year the faculty focused on the Chinese major will meet together to review the performance of the students in the major based on the collected assessment material described in the previous section. Individuals meeting these objectives will be well prepared for either immediate employment or graduate study. When students do not meet the planned objectives the faculty will meet with the student and devise a plan to help him or her get back on track.
Appendix A: Program Curriculum

List all courses, including new courses, to be offered in the proposed program by prefix, number, title, and credit hours (or credit equivalences). Indicate new courses with an X in the appropriate columns. The total number of credit hours should reflect the number of credits required to be awarded the degree.

For variable credits, please enter the minimum value in the table for credit hours. To explain variable credit in detail as well as any additional information, use the narrative box at the end of this appendix.

**Program Curriculum Narrative**

*Describe any variable credits. You may also include additional curriculum information.*

The only variable credit courses are the independent readings course and study abroad courses. The specific requirements for these courses are worked out with the faculty member supervising the course in question.

The requirements discussed earlier in the program overview and in this appendix focus on upper-division classes because though are the specific requirements for the major. However, Utah State does offer beginning and intermediate level courses, such as CHIN 1010, 1020, 2010, and 2020. Lower-division study abroad courses, CHIN 1800 and 2800, are also offered.
Degree Map

Degree maps pertain to undergraduate programs ONLY. Provide a degree map for proposed program. Degree Maps were approved by the State Board of Regents on July 17, 2014 as a degree completion measure. Degree maps or graduation plans are a suggested semester-by-semester class schedule that includes prefix, number, title, and semester hours. For more details see http://higheredutah.org/pdf/agendas/201407/TAB%20A%202014-7-18.pdf (Item #3).

Please cut-and-paste the degree map or manually enter the degree map in the table below.

Funding - Expense | $0 | $0 | $0 | $0
Part II: Expense explanation

Expense Narrative
Describe expenses associated with the proposed program.
This program does not require any new funding. The faculty and staffing for it are already in place.

Part III: Describe funding sources

Revenue Narrative 1
Describe what internal reallocations, if applicable, are available and any impact to existing programs or services.
N/A

Revenue Narrative 2
Describe new funding sources and plans to acquire the funds.
N/A
Utah System of Higher Education
New Administrative Unit Proposal
Cover/Signature Page - Abbreviated Template

Institution Submitting Request: Utah State University

Proposed Effective Date: 10/01/2018

Institutional Board of Trustees' Approval Date:

Proposed Unit Title: I-System Institute for Transdisciplinary Studies

Sponsoring School, College, or Division: College of Humanities and Social Sciences

Sponsoring Academic Department(s) or Unit(s): Sociology, Social Work and Anthropology

Proposed Unit Type:

☐ New Administrative Unit
☐ New Center
☒ New Institute
☐ New Bureau
☐ Conditional Three-Year Approval for New Center, Institute, or Bureau

Chief Academic Officer (or Designee) Signature:
I, the Chief Academic Officer or Designee, certify that all required institutional approvals have been obtained prior to submitting this request to the Office of the Commissioner.

Please type your first and last name ___________________________ Date: ___________________________

☐ I understand that checking this box constitutes my legal signature.

1 "Proposed Effective Date" refers to date after Regent approval when new unit is operational or change to unit is published.
New Unit Description - Abbreviated Template

Section I: The Request

Utah State University requests approval to establish I-System Institute for Transdisciplinary Studies effective 10/01/2018. This action was approved by the institutional Board of Trustees on.

Section II: Program Proposal

Administrative Unit Description/Rationale
Present a brief description of the unit. Describe the institutional procedures used to arrive at the action being proposed. Briefly indicate why a new administrative unit or change to the unit is justified. Are similar units offered elsewhere in the USHE or the State? State how the institution and the USHE benefit from the proposed unit or unit change.

In 2018, Dr. Stan and Carolyn Block provided USU with an expendable gift of $350,000 to establish the I-System Institute for Transdisciplinary Studies within the Department of Sociology, Social Work, and Anthropology in the College of Humanities and Social Sciences. The Blocks also funded an $800,000 endowment to sustain the Institute. They also donated certain I-System and Mind-Body Bridging Intellectual Property (IP) to the Institute. The Institute's mission is to provide a public service to USU students and to larger communities and social units through the broadest outreach of education, training, and research using the I-System model and Mind-Body Bridging model IP Assets.

The Blocks developed the I-System Model to optimize health, wellness, and human performance. The I-System Model embraces a holistic approach to healing and wellness. Mind-Body Bridging is an evidence-based therapeutic modality based on the I-System and current neuroscience research. Health and mental health clinicians can through the Institute become certified to use Mind-Body Bridging with individuals and groups in clinical settings. The Blocks together with a group of clinicians and researchers developed the clinical modality of Mind-Body Bridging (MBB) through their work with individuals and groups suffering from addiction, violence, trauma, PTSD, cancer, pain, and other health and mental health disorders. The I-System model can also be used to improve organizational functioning through the Productive Mind program, a version of MBB for businesses and other goal-oriented organizations.

No other similar unit is found within USHE or Utah. Both USU, USHE, and Utah will benefit from the Institute's work to increase well-being, decrease suffering, and increase productivity and creativity.

Consistency with Institutional Mission/Institutional Impact
Explain how the unit is consistent with the institution's Regents-approved mission, roles, and goals. Describe how the existing administrative structures support the proposed unit and identify new organizational structures that may be needed. What changes in faculty and staff will be required?

The Institute's mission is consistent with USU's mission (i.e., education, research, service). No new faculty will be required. The director position will be filled by a current faculty member (Derrik Tollefson) who will dedicate a portion (25%) of his time to the Institute. A full-time staff-level Associate Director will be hired to assist the director. Department and college staff will provide additional administrative support.

Finances
What costs or savings are anticipated with the actions proposed? What new facilities or modifications to existing facilities or equipment are needed? Describe any budgetary impact on other programs or units within the institution. If new funds are required, describe expected sources of funds.

The Institute is funded by a generous gift from Stan and Carolyn Block. These funds will support a full-time Associate Director, a part-time Director and cover operating costs. No other USU funds will be used to support the Institute. It is anticipated that the institute will generate funds to help support its growth over time.
GENERAL EDUCATION SUBCOMMITTEE MINUTES

September 18, 2018
9:30 a.m. – 10:30 a.m.
Distance Education – DE 423

Present:  Lee Rickords, College of Agriculture and Applied Sciences (Chair)
          Shelley Lindauer, Emma Eccles Jones College of Education and Human Services
          Thom Fronk, College of Engineering
          Harrison Kleiner, College of Humanities and Social Sciences
          Konrad Lee, Jon M. Huntsman School of Business
          Claudia Radel, S.J. & Jessie E. Quinney College of Natural Resources
          Richard Mueller, College of Science
          Robert Mueller, Regional Campus
          Kacy Lundstrom, University Libraries
          Lawrence Culver, American Institutions
          Ryan Bosworth, Social Sciences
          Charlie Huenemann, Humanities
          David Brown, Quantitative Literacy/Intensive
          Ed Reeve, Office of the Executive Vice President and Provost
          Barbara Williams, Registrar’s Office
          John Mortensen, Academic and Instructional Services
          Matt Sanders, Connections
          Jaren Hunsaker, USUSA President
          Amber Summers-Graham, Secretary

Excused:  Ryan Dupont, Life and Physical Sciences
          Melanie Nelson, USU Eastern
          Stephanie Hamblin, Exploratory Advising
          Mykel Beorchia, University Advising
          Kristine Miller, University Honors Program

Call to Order – Lee Rickords

Approval of Minutes – April 17, 2018
Minutes approved as distributed.

Business

NWCCU Accreditation Review and General Education – Michael Torrens
The Northwest Commission on Colleges and Universities (NWCCU) oversees the regional accreditation for Utah State University. In 2013, NWCCU presented findings that said USU needed to establish and assess learning outcomes for all general education courses. In the spring of 2018, the accreditation Peer Review team highlighted a lack of systematic assessment
of the general education program at USU. Their letter stated that USU is doing assessment at the course level but not beyond that and an overall assessment plan is lacking. The only exception to this finding is the assessment that takes place in mathematics. The Peer Review team noted that the Board of Regents approved R470 lays out a solid approach to offer general education and is guided by learning outcomes that are very specific at each level. Because USU has been out of compliance with general education assessment, the University is now on a two-year clock to remedy this finding or USU could lose its regional accreditation. The University must create a special report by the fall of 2019 that explains the steps that have been taken towards general education assessment and how students are achieving the essential learning outcomes (ELOs) set aside in the R470.

There is not a specific ask of the General Education committee at this time, but the group needs to think about who needs to participate in this task moving forward. The Peer Review team noted that this is a collective action problem. They have tasked the University to develop, implement, and document an effective, regular and comprehensive system of assessment of student achievement of identified essential learning outcomes and ensure that faculty with teaching responsibilities take a collective responsibility. They feel that this is not an administrative responsibility but a faculty responsibility.

There was discussion about including assessment of the ELOs in the IDEA evaluations for courses with general education designations. Student evaluation data can be one part of the assessment but cannot count as the entire assessment because it is self-reported. Faculty should be assessing a student’s achievement of the learning outcomes.

A committee member suggested that the assessment plan for accreditation should be seen as an opportunity to improve the programs at USU. This assessment should be done in a way that can ensure that the courses with approved general education designations are delivering what the committee wants them to deliver. This makes the courses better, gives opportunity for professional development with faculty, and provides better experiences for the students. Additionally, the committee must be aware that as this assessment happens, there are going to be many courses that do not meet the general education criteria. They will need to be addressed.

Michael Torrens reiterated that he is not coming to this committee with a specific ask at this time. Right now, the University is at an organizational point. He would like the General Education committee members to think about who the stakeholders are and who should be involved when deciding the path going forward. This group is likely to be tasked to do things as part of the assessment implementation. The structure of the University is such that the EPC and this committee determines programmatic requirements. A successful solution will come as a result of co-governance, leadership, and participation from the general education committee.
Depth Courses and Categorization of Majors - John Mortensen

In the University Studies requirements section of the catalog, there is a listing of major categorizations to help students determine which depth courses they are required to take. This information was outdated and so at the end of spring 2018 semester, it was decided by the committee that John Mortensen’s staff would reach out to the colleges and departments and ask them to provide categorizations for the missing majors. Additionally, the catalog language was clarified for the students and currently reads, “The courses that must be taken to satisfy University Studies Depth requirements depend on the classification of the student's major. For example, Music is classified in the Creative Arts. Thus, a music major would not need to take a depth course in the Humanities and Creative Arts”. The current list is attached in the minutes.

These categorization of majors are currently being used in the catalog:
CA—Creative Arts, HU—Humanities, LS—Life Sciences, PS—Physical Sciences, and SS—Social Sciences.

It was suggested that the committee cut the categories down to three to match the three general education depth designations. Behind the scenes, a comprehensive list would be maintained. This would make things consistent and easier for the students and the advisors.

One committee member suggested that instead of cutting the categories down to three, the DHA designation should actually be split into two separate designations. One for humanities and one for creative arts in the same way the breadth courses are classified. This is because the learning outcomes of an arts course are very different from the learning outcomes of a humanities course.

This topic is tabled until the next meeting so that the committee members from science can weigh in before a vote is taken.

Current Articulation of Credit by Examination of AP, CLEP, DANTES, and IBO by Breadth Area – John Mortensen

Each year, Brandy Reeves sends a list of credit by examination articulations out to departments for their approval. Over time, courses have evolved and may no longer be equated with a specific general education attribute. If a course doesn’t articulate specifically with a predetermined breadth course, does a department have the authority to award general education credit with their articulations, or do these courses need to come back to the General Education committee? This topic will come back to the committee in the October meeting. John will bring a list of what other universities are doing so this committee can look at the information side-by-side.

Adjournment: 10:32 a.m.

Next meeting will be Tuesday, October 16, 2018 at 9:30 am in Champ Hall conference room. General Education requests for this meeting are due October 6, 2018.
Categorization of Majors
Following is the categorization of majors used for University Studies. These abbreviations are used: CA—Creative Arts, HU—Humanities, LS—Life Sciences, PS—Physical Sciences, and SS—Social Sciences.

College of Agriculture
Agribusiness, SS
Agribusiness and Agricultural Systems Technology Dual Major, SS
Agricultural Communication and Journalism, LS
Agricultural Education, LS
