

bike aware. bike safe.

bike responsible.

# safety tips

wear a **helmet**  
helmets protect cyclists and improve their visibility on the road

use **lights** at night  
(or in low visibility situations) stay visible with a white light on the front, a red taillight, and reflectors on each side

watch for **hazards**  
keep an eye out for vehicles, pedestrians, and road debris. ride two feet from road edge and allow for maneuverability

give **audible** signals  
call out, "to your left" to let pedestrians know you are passing, or use a bell

**U-lock** it up  
cable locks are good, but U-locks are better. whichever you choose, run the lock through the frame, wheel, and bike rack.

Ride for health, sustainability, convenience, and fun! Cyclists, motorists, and pedestrians have the responsibility to know the rules of the road and campus sidewalks. Together we can ensure a bike-friendly campus!

# amenities

## Aggie Blue Bikes

- FREE bike checkouts & tune-up tutorials
- Workshops and events
- Free "lube" for all bicycles
- Free use of the bike shop

# bike map

# Utah State University

## riding on campus

bike/wheels **crossing**  
use caution and yield the right-of-way to pedestrians.

bike-friendly **sidewalk**  
look for this marker. check the map. if it's not bike-friendly, ride the road.

**dismount** in highly congested areas.  
pedestrians always have the right-of-way. this sign indicates bicyclists need to walk for safety.

**slow** in congested areas.  
respect and watch for pedestrians.

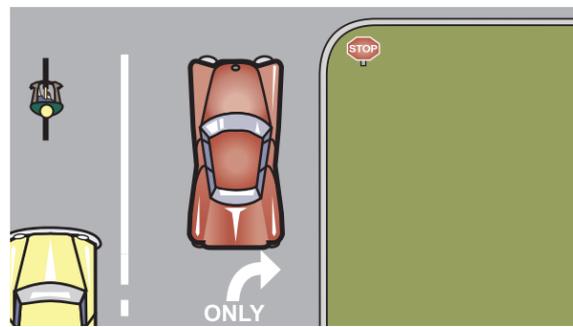

### Parking

- Lock bikes to bike parking devices only.
- Do not lock bikes to railings, trees, signs, fences, etc. Do not lock bikes in areas prohibiting parking or in areas where your bike could obstruct sidewalks or ramps.

## riding in town

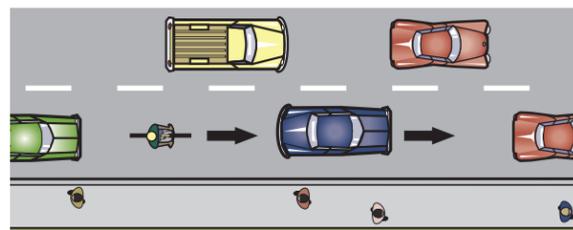

**Obey** traffic signs, signals, and laws

**Ride** as far **right** as practicable while avoiding hazards, such as open doors on parked cars and road debris.

### Follow the lane markings

that best serve your travel destination. Don't go straight in a "right turn only" lane.

Ride **with traffic** in a **straight** path. If the road is narrow, **take the lane** by riding in the center.

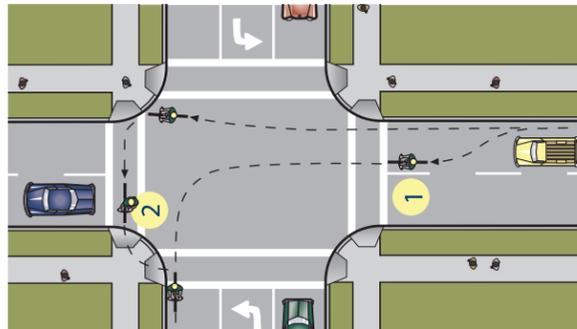

**Never ride** on **sidewalks** off-campus unless you are traveling at the speed of a pedestrian. studies show riding on the sidewalk has a higher accident rate than riding on the road.

**Ride predictably and visibly** through the use of reflectors, lights, bright clothing, and signals

Always use **hand signals** when changing lanes, decelerating, turning, and stopping

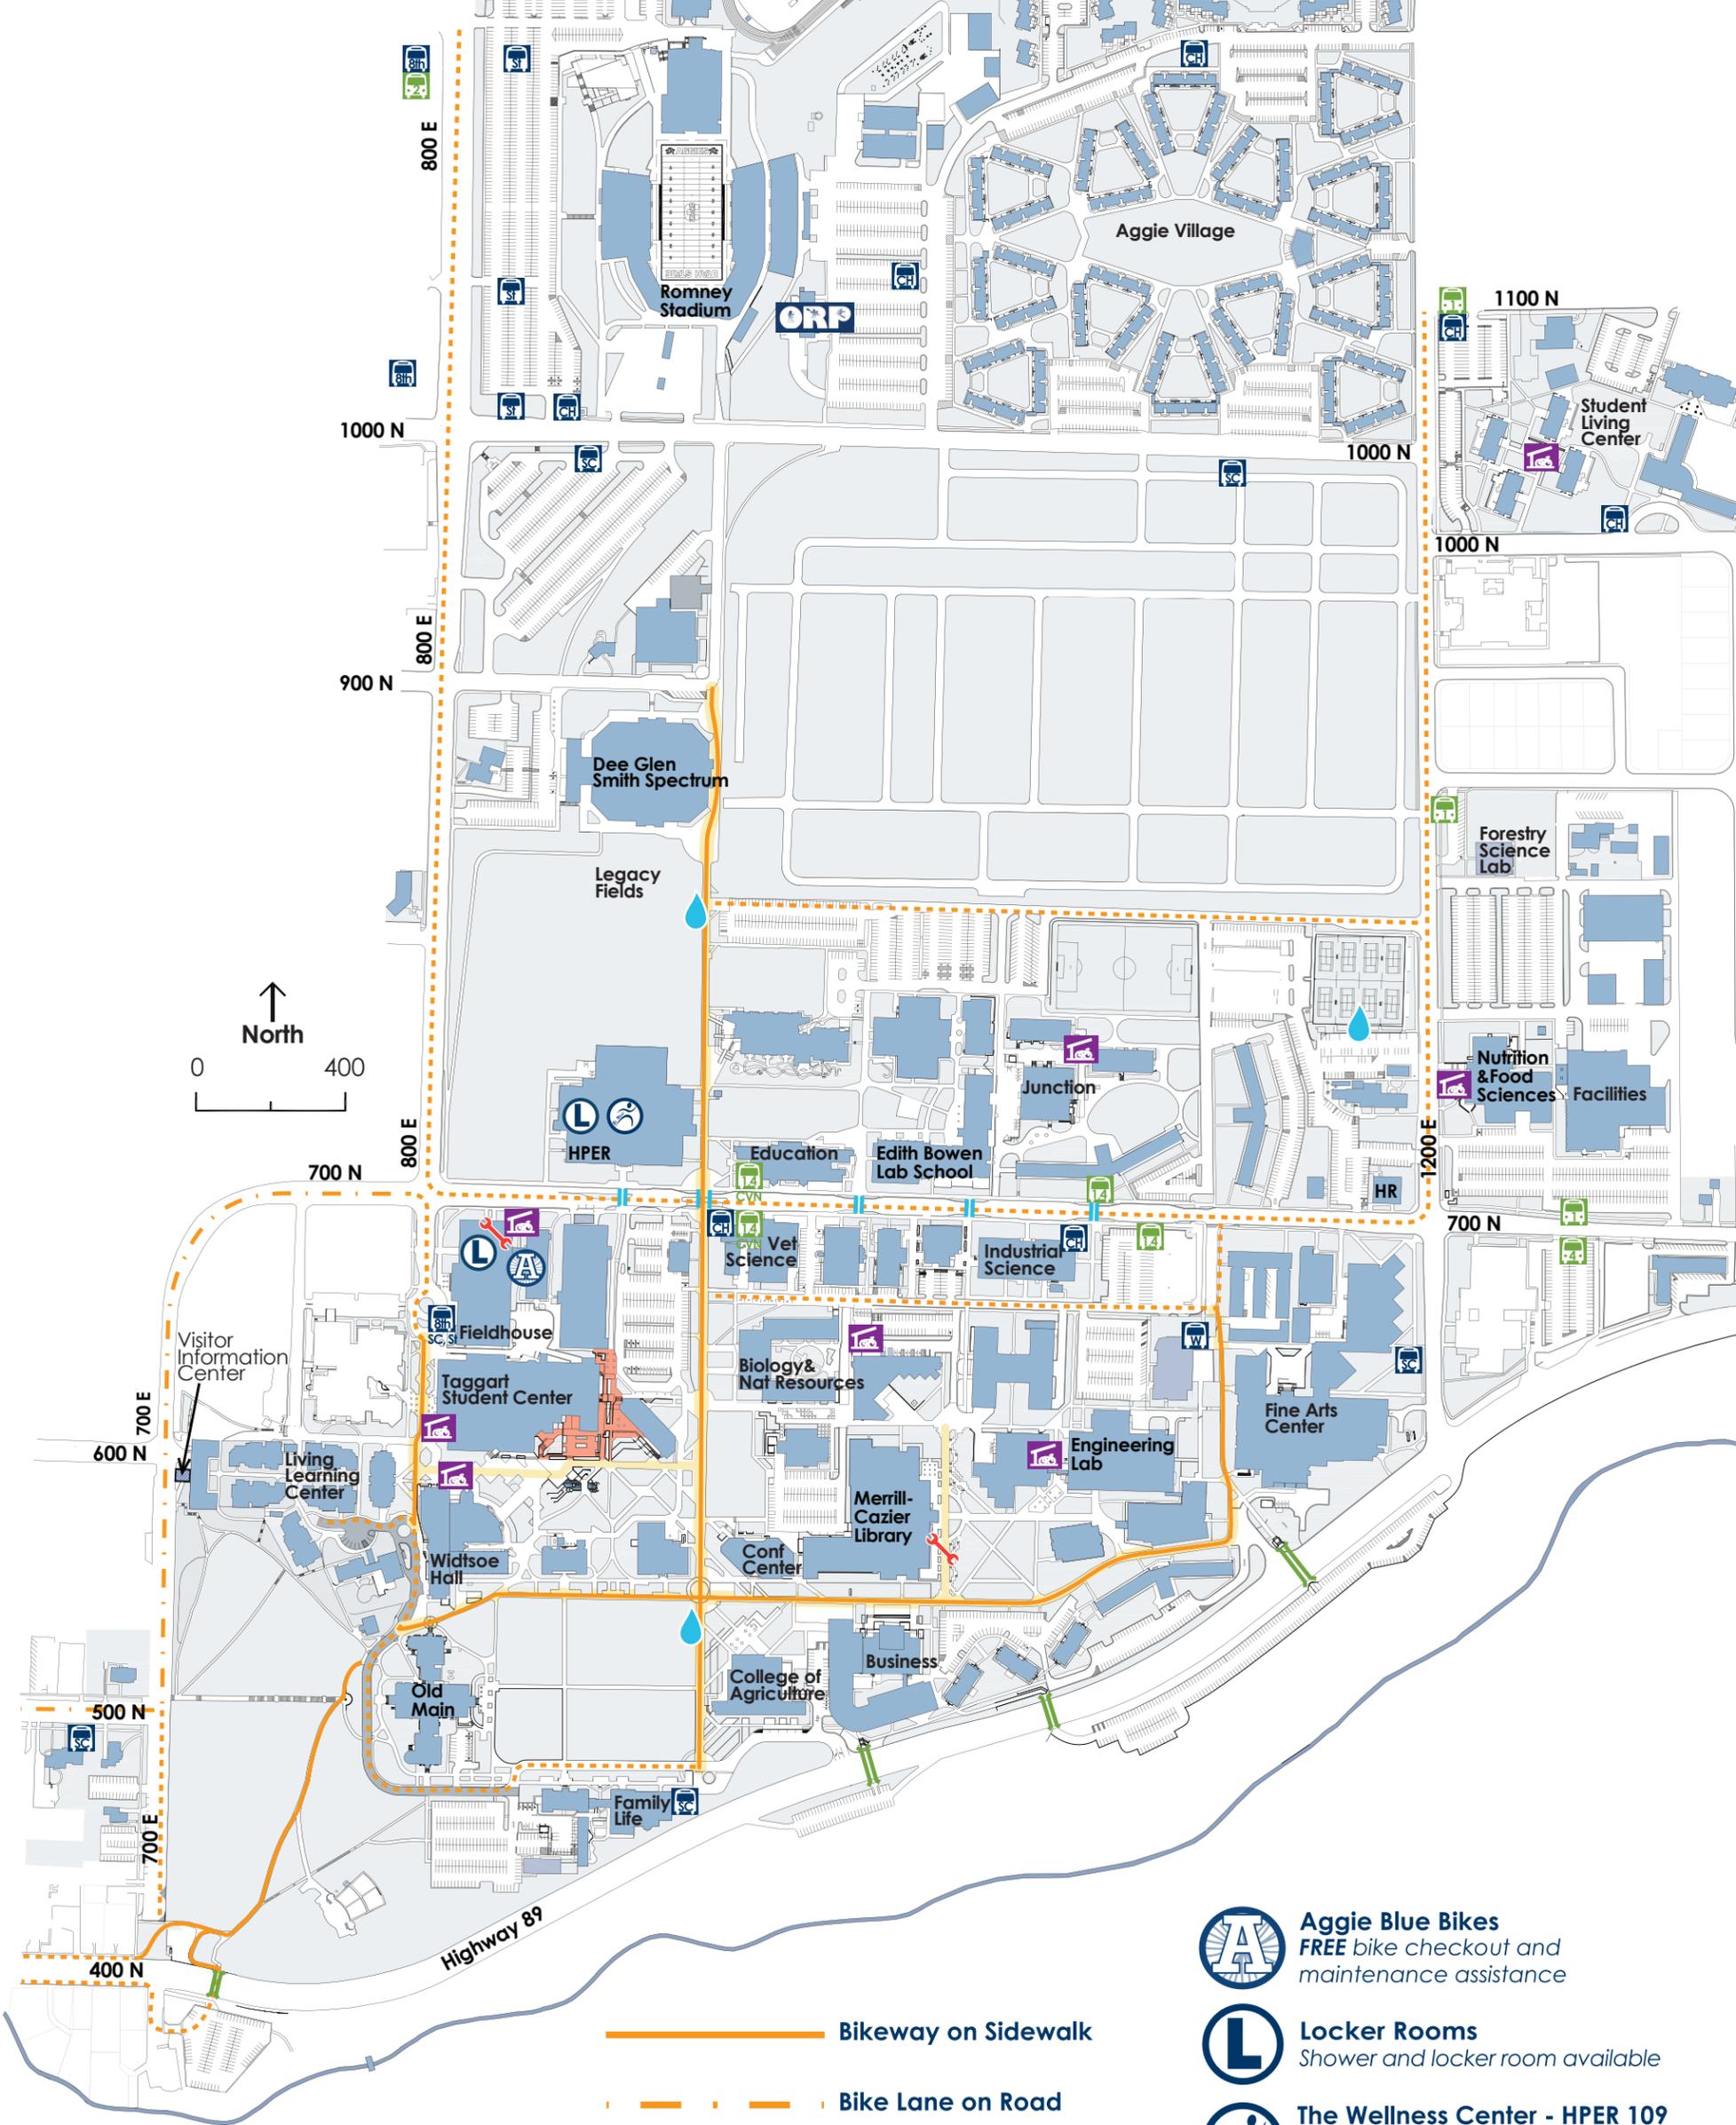

**Never pass** vehicles on the **right** to get to the front of the line of traffic.

### Turn left:

- 1 signal, move to left lane, and turn
- OR
- 2 ride straight to the far crosswalk, and walk the bike across the street.

**"Bicyclists** fare best when they act and are treated as **drivers** of vehicles."

## Legend

-  **24-Hour Outdoor Bike Maintenance Station**
-  **Outdoor Water Fountains**
-  **Covered Bike Parking**
-  **Aggie Shuttle**
-  **CVTD**
- Bike Supported Public Transit**  
All buses are equipped with bike racks

-  **Bikeway on Sidewalk**
-  **Bike Lane on Road**
-  **Bike-shared Road**
-  **Yield Your Wheels**  
Always yield to pedestrians, especially in these specified congested areas.
-  **Pedestrian Tunnel**  
Safe bike/ped crossing
-  **Ped/Bike Crossing**  
slow down and exercise extreme caution
-  **Dismount Zone**

-  **Aggie Blue Bikes**  
FREE bike checkout and maintenance assistance
-  **Locker Rooms**  
Shower and locker room available
-  **The Wellness Center - HPER 109**  
Sustainability, outreach, screenings, events, and incentive programs
-  **Outdoor Recreation Program**  
Education and equipment for wilderness recreation

**blue goes green**
