- b. USU 1350: Integrated Life Science (Kimberly Sweeting)
- c. USU 1360: Physics (Charley Langley)
- d. FCSE 3030: Textile Science (Lu Oaks)

IV. Forecasting Future Gen Ed Demand

Data has been received from John Mortensen to help figure out the number of seats needed for freshman classes for a longer range funding model. The numbers are based on actual demand. There is a need to stabilize staffing.

V. Other Business

Norm attended the Educated Person Conference at Snowbird last week. The conference discussed system wide goals and outcomes for general education. He distributed copies of two handouts to those present. There is a need to rewrite our goals. The state is working on a model of how it can be done, but he would appreciate any ideas. There will be further reports from this conference in the future.

VI. Adjournment

The meeting adjourned at 8:50 a.m.
