Information Items
Council on Teacher Education Report - Francine Johnson. Francine highlighted just a few items from their report. First, there are two new teaching minors for secondary education; Chinese teaching and American Sign Language. This is important as many school districts in the state are implementing dual immersion programs in the K-12 system, where half of the teaching is done in English and half of the classroom teaching is done in a foreign language. Admission to the program is up by 4% and the mean ACT score and entrance GPA is equal to or higher than the University as a whole. There was a slight drop in licensure of students due to the Distance Education cohort which is on a two year cycle. The placement rate for those seeking employment upon graduation is 83% and the Praxis pass rate is 85%.

A motion to place the report on the consent agenda was made by Yanghee Kim and seconded by Doug Jackson-Smith. The motion passed unanimously.

Scholarship Advisory Board Report – Patti Kohler. The total number of scholarship recipients is 7700 which remains stable and comparable to past years. There has been a large increase in the alumni legacy scholarship. The senators requested that the information in the report be broken down to reflect the actual dollars spent and tuition waivers granted. The amended report will be sent to the full senate.

A motion to place the report on the consent agenda was made by Doug Jackson-Smith and seconded by Vince Wickwar. The motion passed unanimously.
