## *University Studies Objectives: The Citizen Scholar*

The mission of undergraduate education at Utah State University is to help students develop intellectually, personally, and culturally, so that they may serve the people of Utah, the nation, and the world. USU prepares citizen-scholars who participate and lead in local, regional, national, and global communities. University Studies is an integral part of every student's experience—in both lower-division and upper-division courses. A solid University Studies foundation, combined with concentrated study in a major discipline and interdisciplinary studies, provides the breadth and depth of knowledge qualifying USU graduates as educated citizens.

The University Studies program is intended to help students learn how to learn—not just for the present, but also for the future. No individual can master all, or even a small portion, of society's knowledge, but students can learn the basic patterns used to obtain and organize information, enabling them to discover or recover knowledge. University Studies involves a series of interrelated educational experiences which stimulate and assist students in becoming self-reliant scholars and individuals. The ultimate objective is for general and discipline-specific education to complement each other in helping students to:

1. understand processes of acquiring knowledge and information;
2. reason logically, critically, creatively, and independently, and be able to address problems in a broad context;
3. recognize different ways of thinking, creating, expressing, and communicating through a variety of media;
4. understand diversity in value systems and cultures in an interdependent world; and
5. develop a capacity for self-assessment and lifelong learning.

By introducing ideas and issues in human thought and experience, University Studies courses help students achieve the intellectual integration and awareness needed to meet the challenges they will face in their personal, social, and professional lives. University Studies courses emphasize how knowledge is achieved and applied in different domains. Collectively, they provide a foundation and perspective for:

1. understanding the nature, history, and methods of the arts and humanities, as well as the natural and physical sciences;
2. understanding the cultural, historical, and natural contexts shaping the human experience; and
3. interpreting the important cultural, socio-economic, scientific, and technological issues of the diverse global community in which we live.

A university education prepares students to work and live meaningfully in today's rapidly changing global society. Together, general and discipline-specific education help students master the essential competencies making this goal possible. These competencies include:

1. reading, listening, and viewing for comprehension;
2. communicating effectively for various purposes and audiences;
3. understanding and applying mathematics and other quantitative reasoning techniques;
4. using various technologies competently; and
5. working effectively, both collaboratively and individually.

## *University Studies Requirements*

The University Studies program, along with study in the major, is designed to assist students in achieving the Citizen Scholar Objectives. The program consists of two sets of requirements: General Education Requirements and Depth Education Requirements. Students who have received an AA or AS degree at any institution within the Utah System of Higher Education, or at another institution with which USU has an articulation agreement, will be considered to have fulfilled the General Education Requirements, but must still complete the Depth Education Requirements.

Students who transfer to Utah State University with less than an Associate Degree (and have not completed General Education requirements) or with an Associate of Applied Science Degree will have their General Education courses evaluated on a course-by-course basis and may be required to take any additional courses necessary to satisfy the General Education requirements at Utah State University. However, if these students have taken equivalent General Education courses at the sending institution, these courses will be accepted toward satisfying General Education requirements at Utah State University.

Courses approved as fulfilling General Education requirements at a Utah System of Higher Education (USHE) institution, Brigham Young University, Brigham Young University (Idaho), LDS Business College, and Westminster College will be acceptable to Utah State University as satisfying comparable General Education requirements.

## General Education Requirements (27-31 credits)

USU's General Education program consists of two sets of requirements: Competency and Breadth.

### Competency Requirements (9-13 credits)

The Citizen Scholar Objectives propose that students should be able to communicate effectively, utilize quantitative methods, make appropriate use of technology, and function effectively in groups. The competency requirements are structured to develop these skills.

### Communications Literacy (CL) (6 credits)

ENGL 1010 CL Introduction to Writing: Academic Prose . . . . . (3)

#### Or one of the following exams:

- AP English Language and Composition Test: Score of 3 or higher
- AP English Literature and Composition Test: Score of 3 or higher
- ACT English Test: Score of 29 or higher
- CLEP English Composition Test: Score of 50 or higher
- CLEP Freshman College Composition Test: Score of 53 or higher
- SAT Verbal Test: Score of 640 or higher

#### And

ENGL 2010 CL Intermediate Writing: Research Writing in a Persuasive Mode . . . . . (3)

### Quantitative Literacy (QL) (3-4 credits)

MATH 1030 QL Quantitative Reasoning . . . . . (3)

#### Or

MATH 1050 QL College Algebra . . . . . (4)

#### Or

STAT 1040 QL Introduction to Statistics . . . . . (3)

#### Or

One Mathematics or Statistics course requiring MATH 1050 as a prerequisite, such as MATH 1100, 1210, 1220; or STAT 2300

#### Or one of the following exams:

- AP Calculus AB Test: Score of 3 or higher
- AP Calculus BC Test: Score of 3 or higher
- CLEP Calculus Test: Score of 50 or higher
- CLEP College Algebra Test: Score of 50 or higher

### Computer and Information Literacy (CIL) (0-3 credits)

No specific course is required, but students must pass a competency exam in computer and information literacy. Communications Literacy, Quantitative Literacy, and Breadth courses associated with University Studies are intended to further develop these skills.

The Computer and Information Literacy exam has six parts:

1. Information Law and Ethics
2. Information Resources
3. Document Processing
4. Operating Systems and Environments
5. Spreadsheets
6. Presentations

Students must score 70 percent or higher on each exam to pass. A student has met the requirement only after he or she has passed all six examinations. There is no college credit associated with this requirement. While some college credit classes (USU 1000 and BIS 1400) teach the required skills and include the CIL exams as part of the course, simply passing the class does not meet the requirement. Only by passing all of the six CIL tests is the CIL requirement met. It is *strongly suggested* that students complete the CIL requirement during their freshman year.

There is a \$30 fee associated with this exam. Students having less than 60 semester credits when they register for their first semester at USU will automatically be assessed a \$30 Computer and Information Literacy (CIL) fee. (If a student can show proof that the CIL requirement has been met at another Utah institution, the \$30 fee will be credited to the student's account.)

Once the fee is paid, there is no limit to the number of times a student can take each test. Once a test is passed, a student may not retake that test. After all tests are passed, students must go to the CIL web page, select **Recording on Transcript**, and then complete and submit the form. The CIL information will then be posted to their transcripts.

To learn more about the CIL requirement, visit the following website:  
<http://cil.usu.edu>.

### Breadth Requirements (18 credits minimum)

General Education breadth requirements are intended to introduce students to the nature, history, and methods of different disciplines; and to help students understand the cultural, historical, and natural contexts shaping the human experience. Breadth courses also focus on the important cultural, socio-economic, scientific, and technological issues of today's global community.

Students must take a minimum of 18 total credits, including at least one course from each of the six categories shown below.

**At least two of the six breadth courses must be University Studies courses (USU 1300, 1320, 1330, 1340, 1350, and 1360).** Students enrolled in the Honors Program may substitute HONR 1300H, 1320H, 1330H, 1340H, 1350H, and 1360H for USU 1300, 1320, 1330, 1340, 1350, and 1360. **Prerequisites are required for breadth courses having titles followed by (prereq.). For details, see course listings in the Course Descriptions section of this catalog.**

**Depth Course Requirements (2 courses)**

Students are required to take two upper-division courses out-side of their major.

Approved 3000-level or above courses must be taken from two of the following three categories: **Depth Humanities and Creative Arts (DHA)**, **Depth Life and Physical Sciences (DSC)**, and **Depth Social Sciences (DSS)**. Each student must select one course from each of the two categories which *do not* include his or her major (e.g., Sociology majors would select one 3000-level or above course from the Depth Humanities and Creative Arts and one 3000-level or above course from the Depth Life and Physical Sciences). **Prerequisites are required for depth courses having titles followed by (prereq.). For details, see course listings in the Course Descriptions section of this catalog.**

**Depth Humanities and Creative Arts (DHA)**

One course is required for all students whose major is **not** categorized as Humanities (HU) or Creative Arts (CA).
