

Credit by Examination

Advanced Placement (AP)

Advanced Placement examinations are offered at the high school level only. A number of examination areas are available; not all high schools offer all available AP examinations. Generally, the major areas chosen include English, American history, mathematics, chemistry, and physics.

Examinations are scored on a one-to-five scale. Students may receive 4 or 8 credits for a composite score of 3, 4, or 5 on any Advanced Placement examination. Earned credit may be applied toward the University Studies requirements. This information is summarized below.

AP Score	USU Credits Granted
0, 1, or 2	0
3, 4, or 5	4 or 8

Other institutions have policies differing from those of USU regarding AP scores and credits granted for those scores. For transfer students with less than an associate degree, AP credit posted to another institution's transcript is reevaluated based on USU's standard.

If, prior to (or after) taking an AP examination, a student receives credit for any coursework equivalent to the subject matter of an AP examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

College-Level Examination Program (CLEP)

The CLEP examinations were designed for students who wish to utilize previous knowledge and experience in lieu of required coursework. CLEP is a national program of credit-by-examination, allowing students to obtain recognition for college-level achievement. This privilege is intended to measure information and training gained from practical experience that may be considered the equivalent of the experience and training received by students in an organized course given at the University.

Credits may be acquired through the CLEP examinations. These credits may be used to fill General Education Requirements and may also be accepted as equivalent to specific courses.

Credit by Examination

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the CLEP exams may not satisfy.

If, prior to (or after) taking a CLEP examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of a CLEP examination, the credits earned for the course will be deducted from the credits awarded for the examination.

USU will accept a maximum of 30 total credits from CLEP, DANTES Standardized Subject Tests (DSST), and cooperative education/ internship credit combined.

Other institutions have policies differing from those of USU regarding CLEP scores and credits granted for those scores. For transfer students with less than an associate degree, CLEP credit posted to another institution's transcript is reevaluated based on USU's standard.

CLEP Tests Taken Prior to Fall 2001

In Fall 2001, CLEP began using computer-based testing. The results of the computer-based tests are somewhat different for most of the exams. For historical data on how credits were accepted prior to Fall 2001, contact University Advising and Transfer Services at (435) 797-9303.

DANTES Standardized Subject Tests (DSST)

DSSTs provide an opportunity for people to obtain college credit for what they have learned in nontraditional ways.

Designed originally for the military, DSSTs are available to civilian students and adult learners as well. The DSST program is used by colleges and universities to award college credit to those who demonstrate that they have knowledge comparable to someone who completed a classroom course in the subject.

Credits may be acquired through the DSST examinations. These credits may be used to fill General Education Requirements, and may also be accepted as equivalent to specific courses.

Credit by Examination

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the DSST exams may not satisfy.

International Baccalaureate Organization (IBO)

The IBO is a nonprofit educational foundation based in Geneva, Switzerland.

It grew out of international schools' efforts to establish a common curriculum and university entry credential. The schools were also motivated by an idealistic vision. They hoped that critical thinking and exposure to a variety of points of view would encourage intercultural understanding by young people.

They concentrated on the last two years of school before university studies in order to build a curriculum that would lead to what they called a "baccalaureate," administered in any country and recognized by universities everywhere.

USU recognizes the International Baccalaureate program. Students who present an International Baccalaureate diploma will be awarded a maximum of 30 credits. These credits will waive the Breadth requirements, but students will still be required to complete the Communications Literacy, Quantitative Literacy, and Computer and Information Literacy requirements.

Students who have not completed the International Baccalaureate diploma may receive up to 8 credits for scores of 5, 6, or 7 achieved on higher-level exams, up to a maximum of 30 credits. No credits are awarded for subsidiary-level exams.

Individual departments and/or colleges may specify the exact courses required to fill their requirements and may require more than the

Credit by Examination

minimum General Education requirements. Some departments and colleges require specific coursework for General Education, which the IBO exams may not satisfy.

If, prior to (or after) taking an IBO examination, a student receives credit (including AP credit) **for any coursework equivalent to the subject matter** of an IBO examination, the number of credits earned for the course will be deducted from the credits awarded for the examination.

Other institutions have policies differing from those of USU regarding IBO scores and credits granted for those scores. For transfer students with less than an associate degree, IBO credit posted to another institution's transcript is reevaluated based on USU's standard.

Placement Tests

Following is a list of areas offering placement tests.

English

ACT test scores may be used as a placement tool for recommending the level of courses to be taken.

An ACT English score of 29 or higher, or an SAT Verbal score of 640 or higher, will waive English 1010 and qualify a student for placement in English 2010 after the student has earned 30 credits. Students with an English ACT score of 16 or lower will be required to take English 0010.

Mathematics

The results of the ACT or SAT mathematics section, along with other pertinent information (high school coursework, etc.), are used as a basis for placing incoming freshmen students in the proper mathematics course as follows:

Placement in Mathematics and Statistics Courses

Course	Math ACT Score	Math SAT Score
MATH 1010	18 or higher	440 or higher
STAT 1040	19 or higher	460 or higher
MATH 1030	23 or higher	540 or higher
MATH 1050	23 or higher	540 or higher
MATH 1060	23 or higher	540 or higher
MATH 1100	25 or higher	580 or higher
MATH 2020	25 or higher	580 or higher
MATH 1210	27 or higher	620 or higher

Regardless of previous record, a student may take any of the math placement tests up to twice per semester. Students should schedule an appointment in advance at the Testing Center, located in University Inn 115. A \$5 fee will be required for each test, and results will be known within a few minutes. There are three different tests for placement into the following:

1. MATH 1010
2. MATH 1030, 1050, 1060, or STAT 1040
3. MATH 1100, 1210, 2020, or STAT 2300

Generally, students who receive an ACT score of 17 or lower are advised to take the MATH 1010 Placement Test to determine which entry-level course is needed. Based on the results of the test, MATH 1010 or 0900 will be recommended. MATH 0900 is a refresher course and has an additional fee. In addition, MATH 0900 does not count for college credit.

TOEFL

The Test of English as a Foreign Language (TOEFL) is required for international students (from countries in which English is not the official language) for admission to the University. It is not used for granting credit nor for waiver of the communications literacy requirement.

International undergraduate students are required to complete the Intensive English course unless they receive a score of at least 500 (paper/pencil) or at least 173 (computerized) on the TOEFL examination, a Michigan score of 80 or higher, or a 5.0 or higher on the IELTS examination.

Languages

Where basic skills in a language have been acquired by means other than college courses, up to 16 lower-division credits may be earned by special examination.

Students with skills in a language other than those offered by the department may earn up to 16 pass/fail credits by successfully performing on a special Languages, Philosophy, and Speech Communication Department examination. However, these examinations are no longer offered at USU. Interested students must make arrangements to take one of these exams at Brigham Young University.

Students with skills in a language that is offered by the Languages, Philosophy, and Speech Communication Department may earn credit by successfully performing on an examination or by successfully completing an upper-division (3000-level or above) language course with a grade of *B* or better. Students should contact the Languages, Philosophy, and Speech Communication Department in Main 204, 797-1209.
