Advising, Office of University

Taggart Student Center 304, (435) 797-3373
<http://www.usu.edu/advising/>

The Office of University Advising (UA) provides advising referrals and information regarding University requirements, academic policies and procedures, academic program planning, University Studies requirements, services, and resources of the University. UA also facilitates the Peer Advising program. Students who are designated as Undeclared, Undeclared Business, Undeclared Science, or Provisional Admission Warning are advised by UA advisors.

Undeclared Program

The chief function of the Undeclared program is the advisement of students who have not yet decided upon a major or area of specialization. Students in the Undeclared program typically work on their University Studies requirements while exploring major options. This allows them to make progress toward overall degree requirements and provides them with extra time to make wise, informed decisions. Undeclared students are advised by UA until they choose a major.

Students who are enrolled in another department, but feel they have chosen their major unwisely, may transfer to the Undeclared program upon receiving permission from an advisor in UA.

No degree is offered through the Undeclared program. Most Undeclared students are freshmen or sophomores. Prior to the junior year, students should select a major and be taking major courses. Students should not remain in the Undeclared program beyond 60 credits or past the end of the sophomore year.

Provisional Admission Warning Program

Provisional Admission Warning is the designation used to identify students who do not meet the admissions requirements of the seven academic colleges. By state policy, admission of students to this category is limited.

The primary function of the program is to assist and encourage students in the improvement of their academic status, so they may transfer to the major of their choice. To accomplish this purpose, participants are urged to limit their course loads each semester, satisfy remedial requirements when indicated, and meet frequently with an advisor. Students admitted provisionally are encouraged to take General Education and exploratory classes. Resources in the Academic Resource Center, the University Counseling Center, the Testing Center, and Career Services are available to assist such students with career, aptitude, life skills, and study skills counseling.

When a student has demonstrated an ability to maintain a GPA appropriate for the intended major, the student may submit a Change of Matriculation form through the Registrar's Office. **It is the student's responsibility, in consultation with an advisor, to complete all necessary paperwork.**
