ECB 02- is a bill that gives ASUSU Executive Council a chance to be more involved in the legislative affairs on a state level. The bill also gives Exec Council a chance to voice their opinions and give suggestions about issues that will go to the capital. It gives the power first to the direct representatives of the students of what issues will be approached and then to the power will go to ASUSU Executive Vice President’s Councils to take action.

Any ASUSU Executive Council member can be more involved if choosing to do so, just contact the ASUSU Executive Vice President.
