CALL TO ORDER AND THE SCOTSMAN

Approval of minutes: Senator Olson: Moved / Senator Lake: Second / Passed

PUBLIC FORUM

PRESIDENT’S REPORT

VP Haas: Let Sophie know if anybody want a float for the Homecoming Parade. The Senators and council floats will be next to each other. If your Councils would like a float, please let myself or Sophie.

Senator Wise: When is homecoming this year?

VP Haas: October 13. The parade will be that morning.

Tomorrow for the lunchtime activity for Week of Welcome they are having Soda’s with The Senators on the Patio from 11-1.

Senator Lake: We ordered 200 cans of soda from the Pepsi funds. I think it would be nice if we wore our USUSA name tags and Polos. If you feel inclined, please wear yours. We will drape the banner from soar over the tables

COUNCIL UPDATES

Senator Hall: We had our Grad student orientation this last week and our first Grad student opening social. We finished awarding 13 students with the Graduate Research and Creative Opportunities Grant. We will be sending out their funding this week. My council is working on finding a time where everyone can meet. One thing my director and I want to work on is a way that is more efficient for graduate and undergraduate students to be paired up and work together on research. If you know of any system your colleges already have for those, please let me know. We are trying to meet with different Graduate labs across campus.

Senator Olson: One thing I wasn’t clear of last year is what you would like the graduate students role to be on our councils. I would like to utilize ours more.

Senator Hall: A lot of your graduate student representatives sit on my council. Something unique about my council is that it is made up of Grad students that are also part of different colleges.
What I would like is for information to be passed between the different colleges so that we know what Grad students in each colleges would be interested in as we plan events. Also, paying attention to their experiences and needs can help make your activities more appealing to grad students.

Senator Lake: Last Thursday, we had the freshman welcome BBQ and all the connections groups came. We had a turnout of around 300 students came to the event. It was sponsored by the Dean’s Leadership Council which was made up of the Ambassadors and the CASS Council. It was a really great event. We had a lot of clubs out there and departments so that was a great opportunity for CAAS majors and undeclared students to know what is going on. This Thursday, as part of weeks of Welcome, we have free ice cream with the Dean. For CAAS week coming up we have a lot of new activities coming up. It looks like things are looking more positive for having a helicopter land on the quad. Hope and pray that it doesn’t rain, please! We are having a clothes drive that is new as well as a mechanical bull, a petting zoo. Our tractor parade and the Aggie Chocolate grand opening and the tractor parade will close the CAAS week. This year it will go from East to West, ending at the Chocolate factory. VP Greer and I are partnering on a campout event. We are bringing in food trucks for that. On Saturday is our Agg day BBQ.

Senator Wise: Thanks for being so understanding of me not being at retreat but I look forward to this coming year. There have been some pretty serious shifts within the Cain College this summer. The Sullivan investigation that took place in the Spring investigated cases of sexual misconduct within the music department. There were findings that have been concerning how things were handled within the Title 9 office and the college. We are working towards restructuring to make sure everyone is safe and that these things don’t happen again. There have been policy changes that have taken place. I went into a meeting over the summer with a lot of faculty and administration. There was a lot of people in favor and others with continuing concerns with how this policy is being rolled out and we are going to review things to see where we need to patch what we need to consider moving forward. There will likely be legislation that will hit our floor. So if any of you are interested, I would love to have further collaboration on these issues both with AS and EC. One of the things we are working on is the Faculty Code of Conduct. Essentially, when these allegations were happening, people would go the department head but she is bound by what the Faculty Code of Conduct is. They are already revising this to make sure there are proper measures in place to protect students. My Dean is stepping down in the upcoming year and they are working on a scouting in the upcoming year. In the past when they have brought a new person in, they have a scouting committee but also allow students to be apart of that as well. That is something my Council will be working on as well. Another sad update, I had a member of my council commit suicide over the summer. That was really hard but I think that is important for us to remember mental health and the organizations and the structures that we have here that can help people and be willing to do upstander training and reach out to CAPS. One of my top priorities has been to get my Council QPR trained. Tess Swindle is her name and she was a ceramics student. During mental health week, we would like to have a show of her work. If you hear about anyone who is concerned, please refer that to CAPS, they can be expedited in. On a lighter note, we are planning Octoberfest. Josh has been awesome to let us have that during diversity week and we will collaborate there.

Senator Pitt: Over the summer, they combined Business Council with Partners in Business. It has brought a little bit of a confusion but moving forward we have it really lined out. Business week is coming up quickly. My Council has met on and off during the summer and have a lot of events planned. We are planning a Huntsman Expo, basically, one of the major concerns, inside and outside the College, is that there is a mentality of elitism and we would love to squash that and be more open. With this event, we want to give opportunities for students outside the business school opportunities for scholarships, travel abroad, etc. That will be on the 24th. We will also have a taco truck on the Quad. We have a lot of service projects during the week and finish with the Huntsman Gala and we want students from all over, it is a fun time to be all dressed up. Another update, a big issue last year was transparency with differential tuition and we will be sending out weekly emails with events at the school and a survey where students can voice their concerns. We will take that and have a meeting every other week, with the Dean, to go
over those.

Senator Allred: Tomorrow is Light on the Hill. In the morning at 9:30 we are having the Chass frosted cookies. We are handing them out with the Light on the Hill flyers. It will be on the East side of Old Main at 9:30 until the cookies run out. We have a donation for 21 dozen cookies. We will be at the Chass college booth. At the Light on the Hill they are having booths for all the colleges and have food trucks for a dollar as well as speeches. Some of my council will be there collecting donations for the Student to Student Scholarship will be there and if you donate any amount you get a sticker of Old Main.

Senator Kemp: I have a retreat planned for my council on September 21 and we are getting ready for that.

Senator Thomas: We have our first meeting next week and our college week is mostly planned.

Senator Service: We had a booth at connections last week and it was the first event my council helped out with. A lot of people showed up and it was really good to see all of them and I think it will be a great year with that. A couple days after that we had an undergraduate research event. Dr. Muller came and talked about how to get involved with undergraduate research. We had a great turnout with a lot of people from not only the College of Science but other Colleges as well. We will have a booth at Day on the Quad to get people excited about science unwrapped and other events within the College.

Senator Olson: Opening social for Engineering Council and retreat to Bear Lake in two weeks to get everybody trained. I am really excited for the year. I have a good council structure and I am excited to see what we will do.

UNFINISHED BUSINESS

QPR Training dates for Committees:

VP Haas: Last year we did this in October and picked a few dates that we thought our Councils could make it to. It doesn't say required in the charter but as a council member last year, it was presented as mandatory. You can determine if you would like QPR trainings to be required or optional for your individual Councils. We would like to give everyone this opportunity.

Senator Lake: As part of our retreat in May, we had Dr. Olsen come and do this and it was really great to come and do that.

VP Haas: Thank you Dexton. I think that is an awesome opportunity but if you had students that weren't able to come this might be another opportunity for your councils to come. Is there another reason why we do it this way?

Linda: Usually it is hard to get 22 officers and do 22 trainings for each of their Councils. We generally try to pick two dates and I can arrange for Dr. Olsen or someone out of the counseling center that is certified. If your councils can't we can arrange another time.

Senator Kemp: Those dates haven't been chosen, right?

VP Haas: Not yet. What I propose is that next meeting we come with two or three dates that would work with your council and we will discuss which would work for the majority.

Senator Pitt: Is the idea that we gave the whole Council there at one time or can they pick their date?

Linda: No, we can just do a sign up so you know which students came. They can be there for
either one and you can have a copy of that

Senator Kemp: I did the QPR training last year and there were a couple dates that Rebecca emailed us we could pick from. When you go they have a list that you fill out saying which council you are from.

VP Haas: You can read your charter to see which language it uses in regard to extending the invitation to receive these trainings for your Council.

USUSA 2018-2019 House Rules:

VP Haas: If anybody would like to review this, we can read through them.

Senator Kemp: Was anything changed?

VP Haas: No but for a point of clarification, all agenda items must be submitted to the Admin by noon on the Friday prior to the next AS meeting. This is consistent with EC.

Senator Thomas: Moved / Senator Lake: Second / Passed

Senate Pro Tempore Election:

VP Haas: This is a position that is elected and in a minute I will take nominations, you can nominate yourself or someone you believe would do a good job at this. In summary, their charter states that they would fill in for myself if I am unavailable including attending EC, serve as a parliamentary to AS, they would oversee the Sophomore Scholarship Committee and the Classroom Improvement Fund and other responsibilities as delegated. Does anyone have any points of clarification? Are there any nominations for a senate Pro Tempore?

Senator Lake: With my background, in FFA there is a competition of parliamentary procedure To lighten the load of everyone here, I would like to nominate myself.

Senator Olson: I will nominate myself as well. I was already planning on attending EC anyways. As being this is an important position that is being underutilized.

VP Haas: Any other nominations? Seeing that we have two nominations, I would like to send this to a vote. In the case that this position, this would be representing academics as a whole. Would you like to take the week and vote on it next meeting? Is there any discussion on that?

Linda: I would suggest that you give them a two minute each and come in separately and let them express why they would be the best for the job before the vote.

Senator Pitt: I think there would be value in waiting until the next meeting. We could talk to each nominee individually.

Senator Olson: I was reading that this needed to be assigned by the first AS meeting of the year.

Linda: Lets check the rules. It may be by the end of the year but I feel that we changed that.

VP Haas: According to my charter, I guess that we will vote on that today. I would like to table this until the end of this meeting to give each nominee a minute to think of what they would like to say.
NEW BUSINESS

Facilities Enhancement Committee

VP Haas: I would like to give a little bit of history behind this Resolution. This is a new committee being funded by President Cockett of a proposed amount of $200,000 that was discussed at Truth and Tuition in Spring 2018. It came as a result of students discussing a back door to the Library. President Cockett felt like this would be a good committee to allow students to give an opinion on how this money would be allocated. This committee will be composed of 6 senators who cannot be on the Tier II Committee that will be discussed later.

Senator Wise: Point of clarification, would this be a role that will always be held by the Arts Senator, for example, or would it change year to year.

Linda: I think in the resolution you will bring to the table is an appointed position in the Tier II, so it will be whoever is not appointed to Tier II.

VP Haas: Would this be added to charter or would this be nominated year by year? The question is how to divide the remaining Senators? Are those two Senators on Tier II going to remain the same year by year?

President Hunsaker: The one on Tier II will change year by year and the remaining six Senators will be on the Facilities Enhancement Committee. The Senate Pro Tempore will sit on the Tier II.

Linda: We should discuss the wording on that but the Senate Pro Tempore will sit on Tier II.

VP Haas: That would make sense to have it nominated year by year.

Linda: I don’t know how many of you went to that Truth and Tuition. A brief overview. It is legislative written that she has to do this every year. Tier II is when the President comes to a joint EC/AS meeting to discuss the needs on campus to increase Tier II. If you recall from our first meeting that Tier I is the Board of Regents will determine the tuition at all institutions. Tier II gives institution the opportunity to increase tuition on their campus. Tier II funds the AOF, Sophomore Enhancement, basically anything students feel is a need. This is not student fee money that money comes into our budgets is called EMG, is a state money. The President suggested that we get an Ad Hoc meeting together early that gets together with her Administrators on the needs of the overall institution. Last year, she talked about increasing so she could hire additional people in Title 9 so that investigations can be done faster. She would like to talk to students about the needs of a higher institution and of things you would like. That is where this committee will be formed. Along with that, during Truth and Tuition, we had one Senator bring up a complaint about no door on the East side of the Library. She brought up that she could move some of her discretionary funds that could go towards making those things happen. She discussed $200,000 but I don’t know if that will be a commitment from year to year, it may depend on enrollment. She would like a committee to oversee that. Last year, Bridget brought up the fact that there are Box Elder Bugs in many of the classes. That is more of a classroom improvement fund type of problem. We wanted Senators to be used for both of these funds because they would be working with both of those types of budgets. I have had a request that both fees will be a resolution. This will go to the Stators Council which President Hunsaker will hold with your Deans, Department Heads and Vice Presidents to see if they will support this. This is a group that will oversee a large amount of money to fix the larger problems. For example, if you feel there needs to be more lighting going down Old Main Hill, this committee would
determine those needs.

VP Haas: Something Linda told me that is kind of cool is that this money that if it comes back for three years in a row then it is set in stone that this is a committee that will stay in USUSA Academic Senate Charters so this is a great opportunity for something to have an impact on students academically.

Senator Hall: Will this be a one time thing?

Linda: I don’t believe the President intends for this to be a one time thing and I don’t believe that this will be a set amount but once it comes for three straight years it is pretty set in stone. I think we won’t see as many requests coming in as much as we will be determining a need. You will have Administrators on this same committee which is why this is a Bill not a Resolution. Together as a committee, you will meet and get assignments and see what the overall needs are. This request came from a VP who has already talked to the President who is aware of some of the needs this year. I have a feeling that that particular VP will be sitting on that board. It won’t be like the AOF where we will sit and listen to an applicant. The door on the library could cost us $200,000. This committee would work on getting bids on a project and timelines, maybe choosing to wait a year and fix a problem the next. Basically their role is finding the needs of the institution.

Senator Wise: How soon would this committee begin to start taking requests?

Linda: I would hope pretty quickly. The goal of the President is to get this rolling. Probably having a timeline similar to the Classroom Improvement Fund.

Senator Kemp: I am still a little confused on the differences between this and the Classroom Improvement Fund.

Linda: I think we are all in the same boat. The Classroom Improvement is $37,500. The way we have done it is that each one of you works with your Department Head and Dean to come up with whatever need you have. Each one of you will do a presentation and you will prioritize who needs the money most. Money will be allocated to each project until the fund is exhausted. You determine the priority. I feel like this is added money you can put into that.

Senator Kemp: The Classroom Improvement is $37,500. She has proposed $200,000?

Linda: I haven’t heard a confirmed number but that is what came out of the Truth and Tuition meeting. I am assuming that will be confirmed in September. Do you know more?

President Hunsaker: No I don’t know any more. Just that everybody’s jaws dropped when she said that number.

Linda: With that being said, this can be used outside the classroom, like I mentioned the lighting on Old Main. This is not just a classroom. That is why she wants to call it the Facility Enhancement.

VP Haas: Another example of something that would fall under this committee is the new CHaSS bench would fall under this committee as well.
Senator Allred: Two questions...Is it our job to differentiate what is a facility and what is a classroom? For someone to request the Old Main lights, does it have to be a college that requests that or anybody?

Linda: Anybody. That is what this committee is for, to determine those needs that are on campus. You may get requests from MyVoice. This committee will work with the Facilities department and this body can help them with some of their needs. This body will help do the homework to find the needs. With the classroom improvement, you will work with on your Deans. Classroom is solely your college. This facility will be the needs of the overall institution.

Senator Allred: Follow up question...say that with the CHaSS bench, would the College request that from the committee?

Linda: Good question. We are just trying to form the committee. Once formed, the committee will determine if there will be an application process or how to handle that. It is proposed that the Exec VP would chair this working with whoever the President assigns as the chair to be from their end.

Senator Olson: There is no charter for this body. What I understand is that for Classroom Improvement, we personally advocate for the needs of each building whereas this is more of an oversight.

Linda: Correct

Senator Olson: I think this makes sense that this is Chaired by the Exec VP but this is not consistent with the Classroom Improvement Fund and the AOF chair being the Administrative Assistant. Would we need to change those to make them consistent?

Linda: For a little bit of history, we used to have a Senate President and that was part of their responsibilities. When they dissolved that position, it was split between the Student Advocate, the Admin and the Exec VP. Because it would be too hard on the Student Advocate, they determined that those two funds would go to the Admin. I worry about putting more on the Admin because it is hard to take minutes in the two meetings and everything that position does. We felt it would fit into the Exec VP charter better. Again this is the first reading, you can look at the charters more. That is a good point because the Exec VP does not sit on Classroom Improvement or AOF.

Senator Olson: This can be something we can look into. Lastly, with some other similar funds, I think it makes sense to add in the legislation to report to EC on how these funds are used for a good measure of transparency.

VP Haas: We discussed that and can add to our second reading.

Senator Pitt: That 37500 is that from the President’s Discretionary Funds as well?

Linda: Yes. That is a Tier II. The other funds are $20,000 for Aggie Radio, there are multiple across campus as far as we can see. Since it is not student fee money, I think this is a great opportunity for this body to work with upper administration on the needs. Facilities may bring something that we would have no idea about. Lots of unknown, I know.
VP Haas: Let’s have a first reading and I am sure that will generate more discussion.

[First Reading of ASR 2019-01: Facilities Enhancement Committee]

VP Haas: On second reading, we will include a clause that this Committee will report to EC on how they are allocating money. Are there any other concerns or proposed amendments?

Senator Lake: Linda, I understand this is separate from Classroom Improvement. Is it a total of 237,500? Or is it separate where as the total for this is $162,500 and $37,500 for Classroom Improvement?

Linda: The $37,500 is not going to go away. The addition of what the President gives to this group will be in addition. This committee will not make a decision without administrators opinions. The Classroom Improvement is separate.

Senator Kemp: Classroom Improvement is for each College and each Senator will present the needs. With this, will people present or will the needs just arise through things like MyVoice?

VP Haas: It is too early to understand, once the university gets the representatives it sounds like the Committee will decide. Because not all the colleges will be represented, I doubt that it will be every College presenting their specific needs. It will be a committee working to fill a broader need for the whole institution.

Linda: Once the body is formed, one of the first things needed is to determine the policies.

Senator Olson: On the top, there is a typo. It says the “University Presidents”.

Senator Olson: Motion to amend that to be “University President.” / Senator Lake: Second / Passed

Senator Olson: In this committee, will there be an administration as well? Or will the Exec VP and the Senators be the only oversight?

VP Haas: I believe they will be the only oversight, but they will be reporting to the VP that is overseeing this committee on the Administration side.

Linda: The student will chair it but they will determine that. That’s what I would propose.

Senator Olson: We should have people from both USUSA bodies for the Charters for how this body should operate. We should put a line in there about when there will be a date for when this is added to the charter. If this is an extension of USUSA, they should have approval from USUSA as a whole.

Linda: Are you saying that once the committee is determined, they will need to make the policy together and get a approval from both parties. These need to be numbered.

Senator Olson: I think this is a great bill.

Senator Service: ‘As’ needs to be changed to ‘has’ on the first line.

VP Haas: Proposed revisions for second reading will be that EC will need to have a report on how this budget is being spent and that there will have to be a policy written on how this functions.
Are there any other propositions?

Senator Thomas: **Motion to approve ASR 2019-01 as a first reading** / Senator Olson: **Second / Passed**

**ECR 2019-01: Tier Two Ad Hoc**

[First Reading of ECR 2019-01: Tier Two Ad Hoc]

President Hunsaker: This one is very similar. When I went over it, I was confused on what the actual Charter of it would be. this reading more defines who would sit on it than anything else. Are there any questions?

Senator Kemp: This Committee oversees where tuition increases and how it affects the students?

President Hunsaker: From my understanding, Tier II has been from the top down. With this legislation change, this says that the University can change tuition based on a need. This would a tuition change based on what President Cockett says, this Committee would give students the opportunity to be on that committee and give opinion on those decisions.

Senator Kemp: Is this saying that this affects us through our scholarships changing or staying the same based on increases in tuition?

Linda: This would simply affect all student. Anytime there is an increase in tuition it affects all students. USUSA is technically every student. We may want to change the wording on that. The President comes in once a year to talk about this increase and about 10-12 students show up in addition to the Officers. This body is being formed early in the year to know the needs from the Administration side as well as from the students. They want more student involvement from the beginning before the joint meeting.

Senator Lake: I seems to me that rather than the con being that tuition be increased for the worse, I believe that the biggest con would be that not all colleges would be represented by their Senators on the Committee. We have an entire fee board that everyone sits on and their voices are being heard about increases in student fees. It concerns me that there are only select individuals rather than the whole group.

Linda: She does want to keep it small; 5-6 students. We felt it would be best to represent both bodies, rather than just one body or the other. It is like Capital and Support in that way. I would add that there should be a report brought back for discussion to both bodies. There will be a lot of upper Administration involvement. The President may change this rather than the Student Body President. That is why there is a resolution. We are just trying to get a committee put together. They are making us aware of more fees that we may not be aware of and I don’t think it is the need of any particular College.

VP Haas: The other thing to consider is that the people on this committee will be the Student Body President, Exec VP, Graduate Senator, Senate Pro Tempore and the last student will be representative of AS as a whole, not necessarily their specific College.

Senator Olson: This would be prior to President cockett coming in, correct? She would still come in and present to the whole body what this Committee comes up with, correct? We would still be able to give out feedback, correct?
Linda: Correct.

Senator Olson: Two gramatical things. The first line is kind of wacky, you refer to the specific University President but then say “specific to the needs of their own Universities”. One is plural, one is singular. On line 10, add e to Pro Tempor.

Senator Olson: Motion to make proposed changes / Senator Kemp Second / Passed

Senator Olson: Motion to approve as first reading / Senator Thomas: Second / Passed

ECB 2019-01: USUSA Advisor or Staff Hiring Committee

[First Reading of ECB 2019-01: USUSA Advisor or Staff Hiring Committee]

President Hunsaker: This one comes from hiring the new Advisor over the summer. the reason we have done this is that it became difficult to find students who had the time to do this over the summer. This is giving a little bit of leeway to the President. Maybe we can change some wording there where the President can try to find 5 students but at least make sure there is a majority student representation.

Senator Hall: The last line, is that something you are adding or is it already being done?

Linda: We do an advisor evaluation and talk about the things they can improve on from the feedback. I would like it written somewhere so they continue this evaluation. You learn so much from being on this board, you get to see interviews and you learn so much but if it falls in the summer, we went through so many students and it was frustrating. I believe we need more students than staff. The only change is that it used to say 6 but calls for a minimum of 3. The introduction on line 23 is the HR, its a nonexempt and is a 6 month probation. If it is an exempt it would be a year probation. Once they are past the probation period, you have to do a verbal and written to release an employee. Basically, the only change here is the number of students, it says 6 but now it is only calling for a minimum of 3, but still try for 6.

VP Haas: Are there any discussion points?

Senator Wise: I would just say to clarify that language to say that more students are better for the second reading.

Senator Kemp: Is all hiring done during the summer or also throughout the school year?

Linda: We had both. It depends on when a staff member leaves. We love having 6 but it can be really difficult. This to give the President some leeway because there are few students around.

Jaren: The ones that are, work full time jobs. I think the problem was finding students who had the time for the WHOLE process.

VP Haas: Any other discussion?

Senator Lake: Motion to pass ECB 2019-01 as a first reading / Senator Wise Second / Passed

Revisit Senate Pro Tempore

Senator Lake: I think we are both qualified and I believe that Senator Olson has had another year experience in AS but one thing that is advantageous for me is that all through high school and the Council
I have now. I do have the time, I currently do not have a separate job and could dedicate the time towards this position. I have planned on attending EC because I have interest in EC positions to run for. I think this would be a great opportunity to be acquainted with more of those positions.

Senator Olson: One thing that is unique about this position, unlike the Exec VP, is that it is chosen by this particular body. They have an important role in being the internal voice of AS in EC and in other specific bodies. We saw the ability of them to appoint positions and be the representative of AS on top of another Senator. I think it is really important that someone who knows, cares about and can advocate academic interests is really important. Another really important decision they make is when a bill is passed, there is a distinction between whether it is student life focused or academic focused, they help make that choice with the Student Body President and the Exec VP. Again, I think that this position should be emphasized more and I believe that AS voice should be heard more. I have really good relationships with members of EC and really well versed in Parliamentary Procedure. I have been on GRC before and interned in policy over the summer so I am really familiar with legislation. Another thing is that they assist the Exec VP with accomplishing everything they see fit. I would like to work with Allie on that.

VP Haas: I propose that we vote by ballot. I have the charter and whoever is elected, we will have them sign at the close of this meeting. For the sake of having an odd number, I will abstain from voting. The verdict will be Senator Olson. Thank you both for your nominations. I am so happy to have a Council that is so willing to help out. The Senate Pro Tempore will be sitting on the Tier II Tuition Committee. As discussed earlier, both of those committees will be formed quickly. I would be hoping that each of you will be thinking about which committee you would like to sit on. It looks like there is just one more spot on the Tier II Committee. If anybody is interested in sitting on that committee, please email me with why you would like to be on that committee I will appoint that position as soon as it is passed.

ADVISOR ANNOUNCEMENTS

Linda: I don’t have any announcements for this week. Are you going to be going by your new last name?

Senator Service: Yes! It’s Service

Linda: Kenna?

Senator Allred: I will keep mine! If I decide to change, I can grab his from last year.

Linda: We want you to have your own, so let Sophie know! One other thing, if you are ordering polos for your Councils, get those sizes to Sophie as soon as possible. Same with name tags. Her last order will be in the next couple of weeks.

Senator Kemp: Is it required?

Linda: You can do whatever you want. You can do t-shirts or polos or nothing.

Senator Allred: Where do we find the things to order?

Linda: With Sophie. We get our Nike shirts at a really good deal.

Senator Wise: I ordered our polos but our Dean is requesting a representative from the Piano Department to be on my Council this year. Would it be an issue to order one more polo?

Linda: No, I don’t think so. She will probably just place the order with someone else’s order.

Senator Pitt: Do they have to be the same design?
Linda: They can be whatever you want. I would suggest you stick with University colors. If there is something at the bookstore or the Logo Shop you can go with that. It is wherever you want.

Senator Olson: How much do the polos cost?

Linda: For the Nike shirts they are about $20.

**ADJOURNMENT**: Senator Wise: Moved / Senator Olson: Second / Adjourned

**IN ATTENDANCE**: Linda Zimmerman, President Hunsaker, VP Allie Haas, Senator Kristin Hall, Senator Dexton Lake, Senator Sierra Wise, Senator Cameron Pitt, Senator McKenna Allred, Senator Mason Kemp, Senator Deidra Thomas, Senator Abigail Longaker, Senator Erik Olson, Assistant Brooke Jorgensen
