

CALL FOR POSTERS

Ecological Restoration of Southwest Ponderosa Pine and Pinyon-Juniper Ecosystems

Pinus ponderosa

*A joint meeting of the Southwest and
Intermountain Societies of American Foresters
Co-sponsored by
Ecological Restoration Institute,
Bureau of Land Management,
Rocky Mountain Research Station (USFS), and
Arizona Game and Fish Department*

*Pinus
monophylla*

This meeting will take place on the Utah/Arizona border. It will include a field trip to the Mt. Trumbull forest restoration site, featuring a 10-year collaborative effort between the Bureau of Land Management (Arizona Strip District), Arizona Game & Fish Department, and Northern Arizona University (Ecological Restoration Institute). Research and operational experience in ponderosa pine and pinyon-juniper restoration will be featured.

This meeting is a chance to see remote landscapes in the Grand Canyon-Parashant National Monument and to enjoy the “color country” of southern Utah and the Grand Canyon. Join us in May!

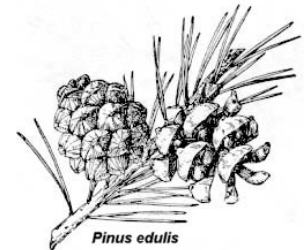

Location: St. George, UT and Mt. Trumbull, AZ

Dates: May 11-13, 2005

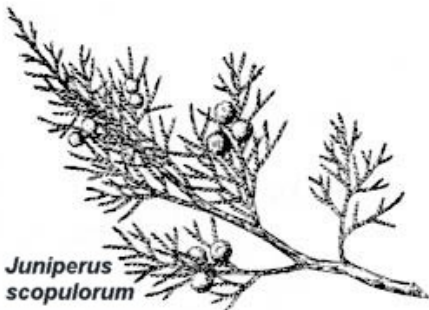

CALL FOR POSTERS: Poster presentations are welcome. Deadline to submit an abstract is **April 15, 2005**. Submit abstracts electronically to Dave Borland (David_Borland@nm.blm.gov) or Doug Page (picea@comcast.net).

Conference Topics:

- Hazardous fuel reduction
- Operations (harvesting methods, slash treatment, burning prescriptions)
- Utilization and economics
- Ecological impacts (plant and animal communities, weeds, endangered species)

Pinus edulis

*Juniperus
scopulorum*
