| 12.00                   | 10                  | 125.00   | 9.75                         | 12                  | 112.50   |
| 13.00                   | 10                  | 125.00   | 10.00                        | 11                  | 112.50   |
|                         |                     |          | 11.00                        | 10                  | 112.50   |

While pay rates vary slightly between jobs, the amount you may earn (your award) is fixed. This total is on your award letter. Once you have earned this amount, you must stop working. That's why it is important to plan your work schedule at the beginning of each term and figure out how long it will take to earn your award.

The formula is simple:

$$* (\text{Work-Study Award Amount} / \text{Hourly Pay Rate}) / \text{Weeks in School Year} = \text{Hours Per Week}$$

Weeks in Semester = 16 Weeks

Weeks in School Year = 32 Weeks
