IV.  **Action Agenda**

Dwight Davis, Associate Vice President for Business and Finance discussed bonding authority for a 28,000 square foot, $7.5 Million dollar Athletic Competitive/Practice Facility to seek the approval to present it to the Legislature for funding this year. This facility was approved in 2011, but was set aside so that the focus could be on the Strength and Conditioning Center. The building will function primarily as a practice facility for men’s and women’s basketball and volleyball and as a venue for volleyball competitions. The facility will put Utah State University at a competitive edge and will help with recruiting.

Funding for the building will be through a bond that will be for no more than 10 years. The type of bond is undetermined at this point. Payment for the bond will be made by donations that will be coming in over time.

There are two locations being considered for the building. The first location (Location A) is on the side of the hill to the west and south of the Spectrum. The second location (Location B) is where the current Harris Center is located.

**Action:** Trustee Nixon moved approval of Resolution 12-11-17 the approval to seek bonding authority for the Athletics Competitive/Practice Facility. Trustee Foley seconded the motion. The voting was unanimous in the affirmative.

V.  **Strategic Agenda**

A.  **Enrollment Management Plan**

Vice President James Morales discussed the announcement made by the LDS Church in early October changing the age that men and women can serve missions (Appendix S). President Albrecht asked Vice President Morales to convene an enrollment taskforce to focus on three items related to the change: (1) impact on enrollment, (2) impact on revenue, and (3) strategies to mitigate any negative impact and capitalize on any positive opportunities this change will have. The taskforce is comprised of enrollment managers, USU Eastern and RCDE representatives, deans, representatives from Residence Life and Housing and the LDS Church, Christian Thrapp, Sydney Peterson, and Whitney Pugh.

The taskforce is focusing on three time periods: immediate impact (Spring 2013, short-term impact (Fall 2013-Fall 2015) and long-term impact. Based on past statistics and taking into account the change in missionary age, there could potentially be around 1900 students that will leave on missions between now and December 2013. This is about 1300 more students than typically leave on missions.

Student Services will be monitoring the leave of absence requests, coupled with the preliminary data from the LDS church, historical data, and registration data.
and will have a much better idea in late November or early December of the impact on spring semester enrollment.

Discussion points for short and long-term strategies can be referenced in Appendix S.

B. Graduate Program Review

Vice President Mark McLellan presented a review of the Graduate Program (Appendix T). A taskforce of distinguished faculty was formed a year ago to create a self-study program that allowed each of the graduate programs to evaluate themselves in comparison to peer institutions. After the graduate programs completed their evaluation, the taskforce prepared a comprehensive response to every program. A set of best practices came out of the review to help each of the programs move forward. Each program was asked to devise a five-year plan of how they were going to improve. The review process has already yielded great results.

Other points of interest for the School of Graduate Studies can be referenced in Appendix T.

Action: Vice Chair Watterson made a motion to adjourn the Regular Meeting. Trustee Foley seconded the motion and the voting was unanimous.

The regular meeting adjourned at 11:53 a.m.
