Compared to last year, the Logan Campus has 1,189 more students, Regional Campuses 2,070 more students, while Eastern is down 32 students. There has been more aggressive recruiting both in- and out-of-state, returning missionaries are coming back, and there is increased recruitment for students from abroad. Logan campus enrollment increased by 7 percent and Regional Campuses increased by 18 percent which includes on-line students. There is an increased number of students coupling face-to-face classes with on-line classes. Our academic profile continues to be solid with increased ACT/index scores of incoming freshman. The ratio of male (53 percent) to female (47 percent) has shifted. Scholarships are now held for students who defer to serve religious missions, military assignments, or other service. IV. **ACTION AGENDA**

1. **Proposal by the Department of Nutrition, Dietetics and Food Science to discontinue the Food Technology Management Emphasis**

   Provost Cockett explained the proposal to discontinue the Food Technology Management Emphasis which was formed 20 years ago when students with this degree would move into middle management positions. Students with this emphasis are taking courses in both business and food science. Food science companies are currently looking for a high degree of expertise in food science as well as business degrees to be part of the management team. In 2011, only five students graduated with this emphasis. Four students will graduate this fall leaving two in the program. The department has a plan in place for these students to complete. Going forward the students will gain full credentials in food science and, if they choose, may add a minor in business.

   **Action:** Trustee Nixon moved the approval of Resolution 15-10-24 the proposal by the Department of Nutrition, Dietetics and Food Science to discontinue the Food Technology Management Emphasis (Appendix QQ). Trustee Huntsman seconded the motion. The voting was unanimous in the affirmative.

2. **Proposal by the Department of Psychology to offer a Minor in Behavioral Health**

   Provost Cockett explained that the Department of Psychology currently offers a Bachelor of Science in Psychology. They would like to add the option for students to add a minor in behavioral health by taking additional classes with this focus. There is an increased request for students with a background in behavioral health with an emphasis on wellness and a healthy approach to life.

   **Action:** Trustee Holland moved the approval of Resolution 15-10-25 the proposal by the Department of Psychology to offer a Minor in Behavior Health (Appendix RR). Trustee Burnett seconded the motion. The voting was unanimous in the affirmative.

3. **Proposal to Approve Phase 2 of the Space Dynamics Laboratory Building, a Non-State Funded Project**

   Vice President Cowley explained that we are seeking approval to bond for and construct Phase 2 of the Space Dynamics Laboratory Building, a non-state funded project. Phase 1 is in the design and programming stage. The project was to be done in two phases but, it will cost less per square foot to complete both phases at the same time. The Space
Dynamics Lab (SDL) receives no state funding.

**Action:** Trustee Huntsman moved the approval of Resolution 15-05-26 the proposal to approve Phase 2 of the Space Dynamics Laboratory Building, a non-state funded project (Appendix SS). Trustee Olsen seconded the motion. The voting was unanimous in the affirmative.

4. **Proposal to Approve the Utah State University Master Plan**

Vice President Cowley explained that the master plan is presented to the Trustees every two years and is also approved by the Board of Regents. In 1998, Sasaki Associates, a design and planning firm out of Boston, broke the overall plan down into districts to better understand the future development of those areas. A transportation master plan nearing completion includes consideration for the major entrance/exit points for campus. Master planning is an ongoing issue that looks well into the future to accommodate increased enrollment.

Projects recently completed include the Icon Sports Performance Center and Wayne Estes Center on the Logan campus and the Blanding Residence Hall, USU Eastern Central Instructional Building, and Tooele Science and Technology Building on the statewide campuses. Projects near completion include Huntsman Hall, the Aggie Recreation Center, and the Brigham City Academic Building. Projects under construction or in design include the Maverik Stadium Renovation, Biological Sciences Building, Clinical Services, Valley View Residence Hall Replacement, Fine Arts Renovation, and the Space Dynamics Lab Building.

**Action:** Trustee Johnson moved the approval of Resolution 15-10-27 the proposal to approve the Utah State University Master Plan (Appendix TT). Trustee Olsen seconded the motion. The voting was unanimous in the affirmative.

5. **Real Property Acquisition – Blue Square**

Vice President Cowley explained this proposal is to exercise Utah State University’s option to purchase a parcel of developed commercial land (Blue Square) that includes three buildings with student apartments and some commercial space currently used for restaurants. The purchase price will be at fair market value agreed upon by both parties. Bonds will be issued under the housing system.

**Action:** Trustee Watterson moved the approval of Resolution 15-10-28 the proposal to approve the Real Property Acquisition of Blue Square (Appendix UU). Trustee Burnett seconded the motion. Trustees Nixon and Thomas abstained due to a potential conflict of interests. Two Trustees abstained, eight were in favor.
Action: Trustee Holland made a motion to adjourn the meeting. Trustee Nixon seconded the motion; the voting was unanimous in the affirmative.

The meeting adjourned at 11:38 a.m.
