NPS Position!

This is a developmental position in the National Park Service Rivers, Trails, and Conservation Assistance Program. Primary duties will be related to assisting the professional planner or landscape architect in the development of plans and designs, serving as a supporting project team member on community conservation and recreation planning initiatives involving federal, state, and local organizations and government agencies. Assignments will consist of a variety of tasks in planning projects and are selected to provide the trainee with training and on-the-job experience in methods, procedures, and techniques relevant to conservation and outdoor recreation planning; an orientation to the National Park Service and the Rivers, Trails, and Conservation Assistance Program; and a basis for more responsible assignments. Position will be duty stationed in Salt Lake City, Utah. [For more information, view this .pdf document.](#) E-mailed applications are preferred.
