

Effective GROUP PROJECTS

Group projects can help you tackle larger projects and develop teamwork skills. Utilize these tips to make group projects more effective, educational, and enjoyable.

Assignment Phase

- Get to know one another.
- Divide assignments based on skills and interests.
- Define your goals, timeline, and preferred method of communication.
- Discuss how members prefer to receive feedback about their work.

Working Phase

- Communicate often.
- Check in on each other. Ask for help. Offer help.
- Don't let the negative or lazy attitudes of some members affect your progress as a group.

Before Class

- Plan to have the project completed two days before it is due.
- Check the rubric to ensure you meet the assignment's criteria.
- Review your formatting to ensure your formatting is consistent.
