HOMETOWN: Merlin, OR. MAJOR: Human Movement Science, Pre-Physical Therapy. DABBLES IN: Rock climbing, mountain biking, cliff jumping, rafting, hiking, swimming, snowboarding, camping... you get the idea.
PAYING FOR SCHOOL: WUE scholarship, works at the university's "Quickstop."
WHY I'M AN AGGIE: "USU is the prime spot for learning, meeting new people, and outdoor adventures!"

Aggies define themselves

Aggies are Trailblazers. They are confident in their decisions to start a new path where others did not go. They work hard to achieve their dreams. They only listen to those who say they can.

Aggies are Leaders. They translate vision into reality. They make a decision to take a stand in order to encourage, inspire, and empower others to succeed.

Aggies are Champions. They defy the odds and rise above. They see a challenge and take it head on. They are not afraid of the unknown, but rise up to conquer it.

Being an Aggie is in everyone; we define who we are. We are fun. We work hard. We succeed. We enjoy all that life has to offer us. Because, in the end, we all are proud to say, I'M AN AGGIE!"
HOMETOWN: Logan, UT; MAJOR: MFA Candidate, Art Major - Graphic Design Emphasis. WHAT WOULD YOU SAY YOU DO HERE? Avid “powsurfer,” skateboarder, snowboarder, and recently a new father. TAKING CARE OF BUSINESS: Owner/Shaper/Designer/Filmmaker for Grassroots Powdersurfing, a company that makes handcrafted surfboards designed for riding snow without bindings. WHY I’M AN AGGIE: “We’re in a beautiful mountain valley that provides constant inspiration and plenty of opportunity for creative outlets.”
Not all collegiate competitions take place on a court or field. Meet the USU Concrete Canoe Team: three-peat regional champs of the RMASCE Concrete Canoe competition and top-5 finishers in the 2013 National ASCE Competition. These engineering students are literally making waves against competition elites like University of Texas, Cal Poly, and Clemson.

Michael Morgan

HOMETOWN: Hyrum, UT. MAJOR: Biochemistry. DIY’ER: Builds and pilots drag cars, then uses the fuel he creates at USU. TRENDSETTER: Only person to ever drive a yeast-powered biodiesel vehicle. WHY I’M AN AGGIE: “USU has the opportunity to do cross-discipline research while being mentored by actual-researching professors in multiple departments.”
Cameron Copeland
HOMETOWN: Orem, UT. MAJOR: Biological Engineering. JACK OF ALL TRADES: Billiards Club President, Swing Dance Club. WELL READ: Favorite book is Mistborn. WELL PLAYED: Favorite game is Star Wars’ Dominion. WELL FED: Favorite food is an authentic Philly Cheese Steak from Philly. WHY I’M AN AGGIE: “Top-tier research. I want to continue my research. I’d like to learn how to mass produce spider silk and begin weaving it into artificial tendons and ligaments.”

RESEARCH THAT MATTERS

WE SEND MORE STUDENT-DEVELOPED EXPERIMENTS INTO SPACE THAN ANY OTHER UNIVERSITY IN THE NATION

WEATHER PREDICTION TECHNOLOGY: Utah State scientists developed a “4D Weather Satellite Sensor” that predicts storms 8 hours earlier than currently used technology.

CLEAN COKE FUEL: Taking waste coal, a current environmental hazard, USU can make “Clean Coke” that is cleaner, cheaper, and profitable.

WIRELESS POWER ENERGY: A team at USU designed and developed a wireless power-transfer technology that can charge electric vehicles as they drive down the road.
