Camp Staff

One of the goals of creating the camp is to provide quality professional experience for students at Utah State University. The professional staff are a part of the Campus Recreation Department, and the counselors are all students at Utah State University. Our camps create an environment for the counselors to apply the skills, abilities, and knowledge they learn in the classroom out in the field. All counselors are encouraged to take on leadership roles in creating curriculum, adapting it to each age group, and executing it in the field.

Paraprofessionals Staff

We staff Paraprofessionals at camp. These individuals, on a daily basis at camp, will just act as another counselor, but are in place to aid with behavior issues and also offer further assistance and/or accommodation for campers. All of these individuals are trained to the standard of para educators and are employed within the local schools during the school year.

I, the undersigned, affirm that Utah State University Campus Recreation is providing my child/ward with permission to, and use of, certain programs and facilities at Utah State University ("USU"). I understand that participation in camp programs and facilities requires physical exertion and that, as with any activity or program involving physical exertion, there are certain inherent risks to personal health, safety, and/or property.

Last updated 4/22/26

I understand that my child should not participate in any said programs unless I am willing to accept the associated risks. I understand that USU cannot guarantee my child's health and safety while participating in these programs. I understand that my failure to acknowledge and accept these risks will disqualify my child from gaining entry to, and use, the programs. By accepting this I acknowledge and accept the inherent risks provided with this program.

I hereby acknowledge that certain risks of injury are inherent to participation in camp recreational and classroom activities. These types of injuries may be minor or serious and may result from the camper's actions, or the actions or interactions of others, or a combination of both. I understand that certain activities require a minimum level of fitness and health (physical, mental, and emotional) and that each person has a different capacity for participating in these activities.

I agree that as the parent/guardian of a participant in the above program(s), I am responsible for my child's behavior and well-being. I understand that in the event of an accident or injury, personal judgment may be required by program personnel regarding what actions should or must be taken on my child/ward's behalf.

I also understand that it is my responsibility to secure personal health insurance in advance, if desired, and to take into account my child's personal health and physical condition. My child has no serious health issues or problems that would preclude them from participating in the program(s) or that present an abnormal, unusual, or unreasonable risk of, or susceptibility to, injury. I further agree to abide by any and all Campus Recreation rules and policies applicable to this program; and, I will take responsibility for abiding by specific requests made of me for my child's safety, the safety of others, or the welfare of any general interest concerning the program. I understand that USU reserves the right to exclude my child's participation in the program(s) if at any time my child's participation or behavior is deemed detrimental to the safety and welfare of others.

I acknowledge that engaging in the program(s) may require a degree of skill and knowledge different from other activities and that I have responsibilities as the parent/guardian of a participant. I acknowledge that Campus Recreation has been available to fully explain to me the nature and physical demands of the program(s) and the inherent risks, hazards, and dangers associated with this activity. I acknowledge that my child's participation in the program(s) is purely voluntary, and I elect to have them participate with full knowledge of the inherent risks.
