The Utah State University Student Code Article V Section 3.B.22 states, “Violating any published University policy related to University-owned living units or breaching a University living unit contract” is considered student misconduct under the student code.

***COVID-19 Policy Addendum***

This policy addendum modifies certain Housing and Residence Life procedures described below. As long as this addendum is in effect, any procedures that are inconsistent with this addendum are suspended. Residents are encouraged to carefully review this addendum and all Housing and Residence Life policies, and to seek assistance from their Resident Advisors as needed. Residents should keep in mind that violations of this policy addendum will be considered serious violations that could result in disciplinary action under the Student Code, including the possibility of suspension or expulsion.

**Face Coverings:** Residents are required to wear face coverings in a manner consistent with University Policy 20.T3 [https://www.usu.edu/policies/20-t3/](https://www.usu.edu/policies/20-t3/) and consistent with the directives of Housing and Residence Life.

**Guests:** A guest is defined as any individual who has not been assigned to a specific suite, apartment, or room.

- Guests are only allowed to enter individual suites, apartments, or rooms if
  1. The guest is also a resident of the same on-campus residence hall; and
  2. The guest is wearing a face covering while visiting; and (3) All roommates have verbally agreed to the guest’s visit.
- If a suite, apartment, or room is subject to a quarantine or isolation order, no guests are permitted in that suite, apartment, or room.
- More generally, guests (and other visitors) will be permitted in lobbies in buildings where lobbies are separated from resident living quarters and designated common spaces. Face coverings must be worn and social distancing should be practiced in lobbies and designated common spaces.
- All guests and residents are expected to abide by all Residence Life policies and procedures, including this Policy Supplement’s requirements of social distancing guidelines and to wear face coverings while in these lobbies.
Health Monitoring and Reporting: Residents are expected to monitor their health and to seek appropriate care in order to minimize the possibility of spreading COVID-19. Residents who have been asked to quarantine, self-isolate or who have had a COVID-19 test must submit the COVID-19 Questionnaire available at: https://www.usu.edu/covid-19/.

Separate Suites and Room Changes: Housing and Residence Life has set aside separate suites for individuals who may need to self-isolate. Residents may be required to relocate to these suites during any appropriate period of isolation. Additionally, residents may be required to change rooms within traditional suites for any reason.

Self-isolation: Self-isolation will be required consistent with the University practices described on the University’s COVID-19 information guide, including “If You Feel Sick” requirements: https://www.usu.edu/covid-19/if-you-are-sick/ and https://www.usu.edu/student-affairs/wellbeing, and isolation may be required, among other circumstances, where a resident tests positive for COVID-19 or has symptoms consistent with COVID-19, or where a resident has been exposed to someone who has tested positive or has such symptoms. Housing and Residence Life may also require testing of residents for COVID-19, including both symptom checking and medical testing, to facilitate appropriate isolation.

Testing: Housing and Residence Life may require testing of residents for COVID-19, including both symptom checking and medical testing, to facilitate appropriate isolation.

Public Health Authorities: Isolation or other steps may be required by appropriate public health authorities, and residents must comply with any directive of a public health authority, such as Bear River Health Department.

Demographic Information: Residents may be required to provide information on whether any members of their immediate family have tested positive for COVID-19 or have symptoms consistent with COVID-19, and locations and dates of travel.

***

Air Conditioners
Window mount air conditioners are not permitted to be attached to the building in any resident apartment due to the danger of units falling out of windows. However, there are options available for residents who would like additional cooling in their apartments. Residents can also purchase/use a portable air conditioner. These units may be identified in retail stores as “apartment air conditioners”. Typically, the units consist of an air conditioner that is on wheels with an air hose and bracket that exhaust heat out a window without removing the window screen. Residents can also purchase/use a window-mount style air conditioner, but only under the following conditions: window screen must be kept in place and not removed. Unit must be free-standing and in no way attached to the building. It is up to the resident to devise a safe way of accomplishing this. For any questions, please contact Housing Facilities at (435) 797-3117.

Alcohol and Drugs
**Student Code Article V Section 3.B.1-4 states:** Possession, consumption, distribution, manufacture or storage of alcohol and/or illegal drugs anywhere on campus is prohibited. Off-campus and University functions are subject to federal, state, or local laws. Crimes committed on or off campus violate University standards and may subject student to discipline under the nonacademic section of the student code. Disciplinary actions, which may include referral to the Substance Abuse Program, probation, suspension, and/or expulsion, are designed to maintain the institution’s integrity, protect individual rights, and help students solve personal problems. Violation of this code by students under the age of 21 may also result in parental notification. Staff and students are expected to report violations of campus regulations to the Office of the Vice President for Student Affairs.

The Utah State University Student Code prohibits possession, consumption, sale, distribution, manufacture, or storage of any alcoholic beverage (including beer) or illegal drugs on University property. Housing regulations further prohibit possession or storage of full or empty alcoholic beverage, bottles, containers, receptacles, as well as brewing kits. These prohibitions apply equally to all residents regardless of age.
Bicycles, Skateboards, Roller Blade, etc.

University Policy 501 States: “The use of bicycles, skateboards, and in-line skates shall be allowed only as a means of transportation on walkways and other vehicular travelways of USU. Anyone using a bicycle, skateboard, or in-line skates on USU property shall give right of way to any pedestrian and shall travel at a reasonable, safe, and prudent speed. Under no circumstance will bicycling, skateboarding, or in-line skating be allowed on ramps, curbs, benches, steps, or stairs and other such structures. The use of bicycles, skateboards, or inline skates shall not be permitted inside any building.”

Bikes can only be stored in individual rooms or apartments, or in specified bicycle racks in the area. Bikes should not be chained to trees, signs, rails, or poles. Housing and Residence Life requires that all residents register their bicycles with the University Police to aid in returning lost and/or stolen bikes. Residents may fill out registration information at their individual Area Offices to obtain a free bike permit. Bike permits must be taped visibly on bicycle frame. Any bicycle on Housing property that does not have an appropriately displayed bike permit may be impounded by the University Police.

Due to the damage caused to carpet and tile, bicycles, scooters, roller blades, roller skates, skateboards, etc., cannot be ridden within residence halls or apartment communities. Fines and/or sanctions may be imposed for noncompliance. The above-mentioned items cannot be stored in the hallways, stairwells, or other common areas within the residence halls or apartments communities. Only wheelchairs or equipment required exclusively by persons with disabilities are approved for indoor use, but the resident is still responsible for in-room storage.

Care of Furnishings, Equipment, Premises

Residents are responsible for general care of the room/apartment and of all furniture and equipment provided inside or exterior to the room/apartment. An initial inspection and inventory of the room/apartment and its furnishings must be made upon occupancy by the resident’s completion of the “Acceptance of Agreement” form. It is retained in the student’s file, and will be the recorded basis for determining damage, loss, or cleaning charges assessed during or at termination of residency. Any charge resulting from extra cleaning, repairs, or replacements associated with damages, including normal wear and tear, may be assessed. Charges are usually assessed for labor and/or materials at a cost of $30 per hour.

Any breakage, damage, or need for general maintenance and repairs must be reported to the Housing Facilities Office, (435) 797-3117. Repairs will be made within a reasonable time. Resident will incur repair costs if damage is due to negligence (such as not reporting leaking water, loose hinges, etc.), carelessness, or misuse by self or visitors. Damage assessment does not necessarily constitute immediate replacement.

Furniture, equipment and recreation tables in common areas, lounges and study areas may not be removed from their original location. Furniture may be rearranged but must be returned to original locations after use. Violations are subject to a minimum $50 relocation fee. Residents are not allowed to stack or “bunk” their beds (does not apply to Moen, Greaves, or Reeder Halls where they are installed).

Any physical repairs, alterations, or installations to the apartment, buildings, or grounds, are not allowed. These include but are not limited to painting, papering, dismantling furnishings, and equipment, wiring, adding or changing locks, constructing lofts, removing window screens, installing mounting antennas or satellite dishes, constructing fences or patio/balcony enclosures, and general remodeling.

Community Meetings

Residents may be required by Housing and Residence Life Staff to participate in community meetings, mandatory educational programs, apartment/floor/hall/area meetings, and safety drills. Noncompliance may result in a minimum $10 fine.

Computers

Student Code Article V Section 3.B.25 states: Inappropriate use of computer, data network, and information technology facilities and services. Violations include, but are not limited to:

a. Unauthorized access to data, transmissions, facilities, or services owned or created by, or intended for, another person or entity.
b. Unauthorized use of another person’s username, password, or network identity.

c. Use of computers/computing facilities which interferes with or disrupts the work of another student, faculty member, or University official.

d. Use of computers/computing facilities to store, access, or send obscene or pornographic materials.

e. Use of computers/computing facilities which interferes with or disrupts normal operation of the University computer, data network, and information technology facilities and services.

f. Use of authorized access to shared services or resources with the intention or result of denying authorized access to other persons.

g. Introduction of disruptive computer codes.

As such, misuse of Housing-provided computer labs, e-mail terminals, computers, or in-room lines or connection is prohibited. The use of University Information Technology is also managed by University Policies 550-579.

**Contract Renewal**

A Housing contract is renewable annually, at the discretion of Housing and Residence Life, for a maximum number of five additional renewals (six total years). Housing reserves the right to refuse housing to any resident who becomes delinquent in rental payments, or who has demonstrated an unwillingness or continual inability to abide by community rules, regulations and policies within the housing system, as well as those who exceed the six-year residency eligibility.

Each academic year, current residents will be given an opportunity to sign up for preferred spaces before new, incoming student are assigned. Check with the Housing and Residence Life Office, Housing Staff or watch for published advertisements with detailed information.

**Drones**

Residents with drones (Unmanned Aircraft Systems) for recreational use in University Housing owned or operated areas must follow FAA Guidelines as listed at [https://www.faa.gov/uas/recreational_fliers/](https://www.faa.gov/uas/recreational_fliers/). USU Housing prohibits the use of any drones inside any building and within 25 feet of any building to protect the buildings from damage and to protect the privacy of our residents. The operation of a drone may not interfere with any University or Housing activity or function. Operators are responsible for ensuring they know and understand local regulations for recreational drone use. Any resident who feels their privacy is being violated by the use of a drone has the right to contact the University Police at 435-797-1939.

**Explosives, Firearms and Dangerous Chemicals**

*Student Code Article V* Section 3.B.20 states: “Illegal or unauthorized possession or use of a firearm, ammunition, explosives, weapons, or dangerous chemicals on University property.

Within On-Campus Housing except as expressly permitted by law, explosives (including firecrackers, fireworks, homemade explosives and pyrotechnics), firearms and other weapons are not permitted on campus. Weapons used for decoration are not permitted this includes simulated weapons, disabled weapons, dangerous chemicals, any explosive device, nun chucks, swords, brass knuckles, butterfly knives, paintball guns, toy guns, pellet guns or any other item designed as a weapon that can be used to threaten or endanger others.

If a student has a firearm, it is preferred that it be stored off campus. In the event state law allows state higher education institutions to restrict firearms and ammunition in campus housing facilities, USU Housing reserves the right to do so.

**Fire Safety**

Fire safety is an important factor in communities with large populations and shared living space. The following policies are in place to ensure the safety of individuals in their living environments.

The following items or actions can represent a potential fire hazard and are therefore prohibited. A minimum $25 fine may result for each prohibited item discovered by staff, with fines escalating for repeat offenses.
Incense and incense burners

Candles and other open flame items are expressly prohibited campus-wide unless authorized by the University Fire Marshall. Decorative candles may be displayed but are strongly discouraged. Wicks must remain white and unburned. Candle warmers (including Scentsy type warmers) are prohibited as per State Risk Management requirements. Candle usage may be requested in writing and sent to the University Fire Marshall for theatrical or other entertaining arts performances, dining and food services areas, special religious ceremonies, and other purposes as may appear necessary.

All coiled resistance units (such as hot-plates)

Halogen bulbs

Inappropriate indoor storage of flammable liquids.

Installing plastic, aluminum, or paper liners in and around apartment stoves.

Taping or hanging material from smoke detectors, fire sprinklers or fire extinguishers.

Use of paints, stains, paint removers, solvents or other similar flammable crafting liquids or pastes inside of any Housing building is prohibited. Use of these materials should be outside on grass/cardboard surfaces where they will not permanently alter the buildings and grounds.

All electrical appliances and cords must meet UL (Underwriters Laboratory) safety standards. UL-approved power strips must be used when more than two electrical items share an outlet. The Utah State University Fire Marshal highly recommends purchasing extension cords manufactured by Fire Shield which senses damage caused by overload, overheating, pinching or aging and shuts off the power in 25/1000 of a second if a dangerous condition is detected.

Mini-refrigerator, freezers and air conditioners that require 1500 watts of power usage or less are allowed and must be plugged directly into a wall outlet. All appliances, including microwaves, must be plugged directly into a wall outlet, not a surge protector or extension cord as required by state fire code. This policy will be enforced by staff.

Grilling on BBQs is prohibited within 10 feet of any housing building. Residents may not store propane tanks larger than 5 lbs. in their apartments.

Space heaters are strongly discouraged but can be used if they are ceramic and oil filled heaters and they MUST have the following: UL listing 1,500 watts or under, self-limiting element temperature setting, automatic tip over protection, built in timer that does not exceed an 8 hour time limit, built in programmable thermostat and thermal limiter to protect against overheating. If a space heater is needed the following rules are to be followed: Allow a 3 foot clearance between the heater and anything that burns, always plug the heater directly into an outlet to avoid overheating of cords, use the heater only as long as required, shut off the heater whenever it is not in use, place the heater on a level surface, always shut the heater off when no one is home to watch it!

No open element or metallic element heaters are allowed (anything that glows red when on). Also no fuel fired heaters are allowed (kerosene, propane, etc.)

Fire Drills

Fire drills or fire safety programs are conducted by the University Fire Marshal and Residence Life staff to ensure that residents are familiar with emergency evacuation procedures and general fire safety. When requested or mandated, all occupants must immediately evacuate a residence hall. Interfering with or noncompliance will result in disciplinary action, including a $100 fine. Residents are also required by the Fire Marshal to keep hallways, stairwells, and balconies clear of obstructions at all times, to facilitate proper access and egress.

Fire Extinguisher

A fire extinguisher is located in all apartments on the kitchen wall. In traditional housing the extinguisher is located in the hallways on each floor. If the extinguisher is discharged while putting out a fire, promptly notify the Housing Facilities Office. If it occurs after-hours or on weekends, immediately notify the Utah State University Police at 797-1939. The extinguisher will be replaced immediately at no cost. Extinguisher must not be re-hung or relocated after discharge. Fire extinguishers are checked by the University Fire Marshal at least annually. If an extinguisher is found to be empty, tampered with, relocated, or missing, the student apartment will be charged $75 for recharging and/or replacement.
Periodically inspect the fire extinguisher gauge to be certain it is properly charged. If the needle indicates that it is undercharged or overcharged, call the Housing Facilities Office immediately for replacement.

**Fire extinguishers or other equipment can only be discharged in an actual fire emergency.** Starting fires, tampering with or misuse of fire safety equipment, or falsely reporting a fire may result in criminal prosecution.

**Smoke Detectors**

Smoke detectors are located in all Housing facilities. When the detector is activated, it will make a loud, piercing sound. When the detector beeps intermittently, the batteries need to be replaced. It is the resident’s responsibility to report to Housing Facilities whenever the smoke detector is inoperative or batteries need to be replaced. Any smoke detector problems after 4:30 p.m. or on weekends can be directed to our On-Call Maintenance staff, and will be handled as quickly as possible. Calls can also be left after-hours on the dispatch voicemail at Residential Facilities and will be handled the next morning. Residents should please leave their name, apartment number, time of call, and current problem with the detector. Excessive amounts of smoke from cooking, or steam from the bathroom, may activate a smoke detector. If the smoke detector is overly sensitive notify Housing Facilities.

If Housing staff determine that the smoke detector and/or battery has been removed, tampered with, or is inoperable and has not been reported, the student will be charged $75. If there is a second violation, the student will be charged $100 and appropriate restorative measures imposed.

**Fire Sprinklers**

Many Housing buildings have been retrofitted with fire sprinklers. It is critical that residents not tamper with the sprinkler systems, especially the sprinkler heads. The water in the sprinkler systems is under tremendous pressure and a damaged sprinkler head or pipe can lead to significant damage to both the building and resident’s property. The resident will be responsible for all damages caused to Housing facilities by breaking/or tampering with a sprinkler head. Housing is not responsible for any damage or losses that occur because of sprinklers being activated for any reason. Housing strongly recommends residents seek insurance for their personal property.

**Guest Policy**

A guest is defined as any individual who is not a contracted resident of the specific residence hall, floor or room in question. Each guest must have a resident host and be escorted at all times in the residence halls.

Guests must be acceptable to all roommates, at all times. Residents must obtain approval (email, text or verbally) from all suitemates and/or roommates about any possible guest before they are invited into the residence hall. Residents have the right to sleep, study, and socialize in their room (in that priority order). For example, if one resident wants to sleep and the other wants to have friends over, the right to sleep will always take precedence over the right to socialize. Residence Life staff will provide an opportunity for residents to discuss guests in their room and/or suite in a facilitated roommate agreement at the start of each semester.

Residents are responsible for notifying guests of University and Housing and Residence Life policies and procedures, and will be held accountable for the behavior of their guests. Guest(s) must adhere to all federal, state, and local laws, and University and Housing and Residence Life policies. Guests must comply immediately with all directives issued by University officials and Housing and Residence Life staff. Resident assumes responsibility for guest compliance with Housing and Residence Life policies. Guest(s) will be escorted out of the community if their behavior is deemed inappropriate or if they are found without their resident host.

Residents must not loan or give out their keys to anyone. Keys are for the sole use of the resident to whom they are issued.

An overnight guest is defined as one who intends for the room to be their place to stay for the night. Overnight guests may not stay more than three (3) consecutive nights and no more than eight (8) nights per semester, per guest. Exceptions can sometimes be made, in writing, by the area professional staff member if there are unique circumstances that warrant additional consideration. All overnight guests must be registered by the resident via the Housing and Residence Life Form: [https://forms.gle/NbpsR1itdEWDvxin6](https://forms.gle/NbpsR1itdEWDvxin6).
Unauthorized guest occupancy may result in fines and/or other disciplinary action including possible referral to the Director of Residence Life and/or University Conduct Officer and possible termination of the contract.

Area professional staff members and Resident Assistants (RA) are available to assist residents who may require support or guidance in working with a roommate about the presence of guests in their shared accommodations, and especially in cases where a roommate displays lack of consideration for others or abuses the privilege of hosting guests.

**Housing Staff**

Housing and Residence Life staff members represent the University and are considered its agents and officials, with authority commensurate and necessary to accomplish a requested task or action. Failure to comply with verbal and/or written instructions issued by Housing and Residence Life staff, or impeding their performance or duties, will be deemed a violation and may result in a $100 non-compliance fine. Such behavior can result in referral to higher-level campus administrators who have the authority to sanction the individual to University probation, or suspend any violator from the University, according to the University Student Code.

**Keys**

The resident is issued an apartment key, a bedroom key (where applicable), and a mailbox key at the time of check-in. At the time of check-out original room/apartment and mailbox keys not returned will result in a lock replacement fee, and all charges will be billed to the resident. **Keys returned after the resident departs or vacates will not be accepted, once a new key has been ordered.**

- Bedroom Hard Key replacement fee is $10.00
- Electronic Key Card replacement fee is $10.00
- Mailbox key replacement fee is $10.00

If residents want a hole punched in their electronic key card, they should go to their Area Office for that service. Residents should not punch holes in their key cards on their own.

**University Policy** 520.2.10 states that the State of Utah law prohibits the duplication of University keys. If a key is duplicated or tampered with, the resident will be charged to replace the key and will also face disciplinary action. Unauthorized possession or misuse of University issued keys is also prohibited. **Residents must not loan or give out their keys to anyone, including their roommates. Keys are for the sole use of the resident to whom they are issued. If a resident’s key is found in the possession of anyone other than the resident it will be deactivated/collected until the resident meets with their Area Professional Staff.**

Non-University approved locks are not allowed on any resident’s room or apartment door. Damage to or tampering with a University lock will subject the resident to disciplinary action and possible charges. Approved Door locks can be requested from University Facilities for $150.

**Needles and Sharps Disposal**

Housing urges those residents using needles or syringes for valid medical reasons to purchase EPA-approved Sharps Disposal containers for proper disposal. Use those made specifically for bio-hazardous medically contaminated wastes like needles.

**Newsletters and Notices**

The **E-mail Communication Policy** in the University Catalog states: “All students enrolled at USU must specify a preferred e-mail address in the central system of record. A University-provided account or a commercial service provider e-mail account may be specified. Preferred e-mail addresses may be specified or changed at: https://id.usu.edu/

University officials, including advisors, professors, administrators, and various office personnel, may use a student’s preferred e-mail account as an official means of communication.
It is the responsibility of all students to check their e-mail accounts on a regular basis. Students will be held accountable as being officially notified when any correspondence is sent by University representatives to their preferred e-mail accounts.

Additionally, notices to residents from Housing and Residence Life will be in writing and sent via email or posted in visible locations or bulletin boards, personally hand-delivered, deposited in U.S. Mail addressed to the assigned room/apartment, or attached to the front door. This constitutes proper notice to residents.

**Notice of Non-discrimination**

In its programs and activities, including in admissions and employment, Utah State University does not discriminate or tolerate discrimination, including harassment, based on race, color, religion, sex, national origin, age, genetic information, sexual orientation, gender identity or expression, disability, status as a protected veteran, or any other status protected by University policy, Title IX, or any other federal, state, or local law. The following individuals have been designated to handle inquiries regarding the application of Title IX and its implementing regulations and/or USU’s non-discrimination policies:

**Executive Director of the Office of Equity**  
Alison Adams-Perlac  
alison.adams-perlac@usu.edu  
Old Main Rm. 161  
435-797-1266

**Title IX Coordinator**  
Hilary Renshaw  
titleix@usu.edu  
Old Main Rm. 161  
435-797-1266

For further information regarding non-discrimination, please visit [https://equity.usu.edu/](https://equity.usu.edu/), or contact:

U.S. Department of Education  
Office of Assistant Secretary for Civil Rights  
800-421-3481  
OCR@ed.gov

U.S. Department of Education  
Denver Regional Office  
303-844-5695  
OCR.Denver@ed.gov

**Parking**

All residents wishing to park a vehicle in residential parking lots must purchase and display a valid parking permit in each vehicle, exclusive for each residential area. Residents are responsible for properly parking, driving and maintaining the posted speed limit at all times, and ensuring that all guests follow those as well.

Occupants of campus residence halls are required to purchase a permit to park in the area adjacent to their respective residences. Resident permits are only valid when the student has a signed contract with Housing and Residence Life to live in that particular area. In the event that a student moves out of their on-campus residence prior to their contract expiration, his/her resident parking permit must be returned to the Parking Office immediately and may be exchanged for a non-resident parking permit.

All vehicles parked on campus must have a current registration and license plate. Any vehicle that is non-operational for a period of seven (7) days shall be deemed abandoned and will be impounded. Any vehicle parked on campus must be (1)
operational and (2) have current registration. Vehicles with flat tires, broken windows, missing fenders or engines, or on blocks give the appearance of being abandoned and are subject to towing.

**Driving on the sidewalks is strictly prohibited. Violators who drive or park on the grass or sidewalk can be charged for any damage to property, ticketed and assessed a $75 fine.**

Visitors are welcome at Utah State University. Day passes are available for visitors to purchase at the Visitor Information Center (597 N 700 E) or the Parking Office for $5 per day.

Any questions pertaining to parking on campus should be directed to the Utah State University Parking and Transportation Services Office at (435) 797-3414. Their office hours are Monday through Friday 7:30 a.m. to 5:00 p.m. You may also visit their website at: parking.usu.edu.

**Pets**

Possession, care, or harboring of all animals, except fish, is prohibited in University Housing or adjacent grounds. A fish is defined as a legless, cold-blooded, aquatic vertebrate animal with gills, fins and scales. There is a 20-gallon size limit on fish tanks or aquariums. Visitors are not exempted from this regulation. Violation of this policy may result in a $50 fine and immediate removal of the animal by the resident. An additional $100 fine may be assessed and eviction proceedings initiated if the animal has not been removed within the 3-day period. A notarized statement signed by the resident must be turned into the Housing Office regarding the permanent relocation of the animal from our premises.

**Disability Accommodations**

Utah State University (USU) recognizes the importance of providing reasonable accommodations in its housing policies and practices where necessary for individuals with disabilities to fully participate in the University Housing program. These guidelines explain the specific requirements and processes that govern requests for reasonable accommodation in University housing. Utah State reserves the right to amend these guidelines at any time as circumstances require.

The **Disability Resource Center** (DRC) is responsible for evaluating whether to grant or deny requests for reasonable accommodation in University housing. In evaluating the request, the DRC may consult with University Housing and Residence Life, Student Health and Wellness, and Counseling and Psychological Services as necessary, to determine whether the requested accommodation is necessary and reasonable. Individuals with a disability who reside or intend to reside in University housing who believe they need a reasonable accommodation must contact the DRC.

The DRC will accept and consider requests for reasonable accommodation in University housing at any time. The individual making the request for accommodation should contact the DRC as soon as practicably possible before moving into University housing. However, if the request for accommodation is made fewer than 60 days before the individual intends to move into University housing, USU cannot guarantee that it will be able to meet the individual’s accommodation needs during the first semester or term of occupancy. If the need for the accommodation arises when an individual already resides in University housing, he/she should contact the DRC as soon as practicably possible. USU cannot guarantee that it will be able to meet the accommodation needs during the semester or term in which the request is received.

If the individual's disability and the necessity for the accommodation are obvious, the individual needs only explain what type of accommodation he/she is requesting. No third-party verification of disability and/or necessity is required under these circumstances. If the disability and/or necessity for the accommodation are not obvious, the DRC will require the individual to provide documentation from a reliable third party who can verify that the individual has a disability and that the requested accommodation is necessary to provide the individual an equal opportunity to participate at the University.

If the third-party documentation does not contain sufficient information for the DRC to determine whether an accommodation is necessary, the insufficiency and any request for additional information will be communicated in writing within ten business days of receiving the documentation.
The DRC may deny the requested accommodation if it is unreasonable. An accommodation is unreasonable if it: (1) imposes an undue financial and/or administrative burden; (2) fundamentally alters University housing policies; (3) poses a direct threat to the health and safety of others or would cause substantial property damage to the property of others, including University property; and/or (4) is otherwise unreasonable to the operation of the University.

**Emotional Support Animals**

Utah State University is committed to allowing Emotional Support Animals (ESAs) when necessary to provide individuals with disabilities an equal opportunity to use and enjoy University housing. This guideline explains the specific requirements applicable to an individual’s use of an ESA in University housing. USU reserves the right to amend this guideline as circumstances require. This guideline applies solely to ESAs which may be necessary in University housing. It does not apply to Service Animals as defined by the ADAAA.

Animals, except fish, are prohibited in University Housing or adjacent grounds, however, USU will consider a request by an individual with a disability for accommodation from this prohibition to allow an ESA that is necessary because of a disability and reasonable. However, no ESA may be kept in University housing at any time prior to the individual receiving approval as a reasonable accommodation pursuant to this guideline.

ESAs are a category of animals that provide necessary emotional support to an individual with a mental or psychiatric disability that alleviates one or more identified symptoms of an individual’s disability, but which are not considered Service Animals under the ADAAA.

**Requesting an ESA**

The procedure for requesting an ESA follows the general procedures set forth in the Disability Accommodation guideline for University Housing and the requirements set forth below. However, to the extent the requirements and procedures in this Guideline conflict with the Reasonable Accommodation Guideline, this Guideline shall control.

The question in determining if an ESA will be allowed in University housing is two part. First, is the ESA is necessary to afford the individual an equal opportunity to use and enjoy University housing (It is a violation of Utah State Law to knowingly and intentionally misrepresent to another person that an animal is an ESA). Determinations regarding an individual's eligibility for an ESA accommodation will be made in accordance with Housing’s Disability Accommodation Guideline.

Second, if the particular animal requested as an ESA in University housing is reasonable. The reasonableness of ESA requests will be determined on a case-by-case basis through consultation between the DRC, Housing, and Residence Life. USU may consider the following factors, among others, as evidence in determining whether the presence of the animal is reasonable or in the making of housing assignments for individuals with ESAs:

1. The size of the animal is too large for available assigned housing space;
2. The animal's presence would force another individual from individual housing (e.g. serious allergies);
3. The animal's presence otherwise violates individuals' right to peace and quiet;
4. The animal is not housebroken or is unable to live with others in a reasonable manner;
5. The dog is too young. The University has determined that University residences, in most cases, are not an appropriate environment in which to raise a young puppy. Generally, dogs must be at least 10 months of age, be spayed or neutered, and have received their first rabies vaccination before they can live in-residence in University Housing.
6. The animal's vaccinations are not up-to-date;
7. The animal poses or has posed in the past a direct threat to the individual or others such as aggressive behavior towards or injuring the individual or others; or
8. The animal causes or has caused excessive damage to housing beyond reasonable wear and tear.

Determinations of reasonableness depend in part on information specific to an individual's individually assigned Housing unit. As such, any time a student moves housing units a redetermination of reasonableness will be made. USU will not limit room assignments for individuals with ESAs to any particular building or buildings because the individual needs an ESA due to a disability. Generally, the presence of only one ESA will be approved for a student.

**ESA Owner Responsibilities**

If the University grants an Owner’s request to live with an ESA, the Owner is solely responsible for the custody and care of the ESA and must meet the following requirements:

1. ESA’s must be fully housebroken before entering USU Housing.
2. An ESA must be contained within the Owner’s privately assigned individual living accommodations (e.g., room, suite, apartment) except to the extent the individual is taking the animal out for natural relief. Residents in a shared apartment or suite who do not share the individual room with the ESA owner may prevent the ESA from entering their individual room by closing their door, but the animal is permitted to accompany the owner into all other areas of their individually assigned residence.

3. An ESA is not permitted in other areas of the University (e.g. dining facilities, libraries, academic buildings, athletic buildings and facilities, classrooms, labs, individual centers, etc.) beyond the owners individually assigned residence.

4. The Owner is responsible for ensuring that the ESA is contained (caged or crated) as appropriate, when the Owner is not present during the day while attending classes or other activities. The university reserves the right to inspect the enclosure to be used in containing the animal.

5. When an ESA is outside the private individual living accommodations, it must be in an animal carrier or controlled by a leash or harness. No Owner shall permit the animal to go loose or run at large. If an animal is found running at large, the animal is subject to capture and confinement and immediate removal from University housing.

6. The Owner is required to immediately clean up after and properly dispose of the animal’s waste in a safe and sanitary manner.

7. Noise and barking must be kept to a minimum. ESA’s may not create an unmanageable disturbance in USU Housing.

8. The Owner must abide by current city, county, and state ordinances, laws, and/or regulations pertaining to licensing, vaccination, and other requirements for animals. It is the Owner’s responsibility to know and understand these ordinances, laws, and regulations. The University has the right to require documentation of compliance with such ordinances, laws, and/or regulations, which may include a vaccination certificate. The University reserves the right to request documentation showing that the animal has been licensed.

9. The Owner is required to ensure the animal is well cared for at all times. Any evidence of mistreatment or abuse may result in immediate removal of the ESA and/or discipline for the responsible individual.

10. ESAs and their crates, cages, bedding, and other animal related equipment may not be washed using communal Housing facilities or equipment (i.e. showers, bathtubs, washing machines, etc.)

11. An individual with a disability may be charged for any damage caused by his or her ESA beyond reasonable wear and tear to the same extent that Housing charges other individuals for damages beyond reasonable wear and tear. The Owner's living accommodations may also be inspected for fleas, ticks or other pests. If fleas, ticks or other pests are detected through inspection, the residence will be treated using approved fumigation methods. The Owner will be billed for the expense of any pest treatment above and beyond standard pest management in the residence. The University shall have the right to bill the Owner’s account for unmet obligations under this provision.

12. The Owner must fully cooperate with University personnel with regard to meeting the terms of this Guideline and developing procedures for care of the animal (e.g., cleaning the animal, feeding/watering the animal, designating an outdoor relief area, disposing of feces, etc.).

13. ESAs may not be left overnight in University Housing to be cared for by any individual other than the Owner. If the Owner is to be absent from his/her University residence overnight or longer, the animal must accompany the Owner or be boarded off campus.

14. The Owner agrees to abide by all equally applicable residential policies that are unrelated to the individual’s disability such as assuring that the animal does not unduly interfere with the routine activities of the residence or cause difficulties for individuals who reside there.

15. The animal is allowed in University housing only as long as it is necessary because of the Owner’s disability. The Owner must notify the Disability Resource Center in writing if the ESA is no longer needed or is no longer in residence. To replace an ESA, the new animal must be necessary because of the Owner’s disability and the Owner must follow the procedures in this Guideline and the Reasonable Accommodation Guideline when requesting a different animal.

16. USU personnel shall not be required to provide care or food for any ESA including, but not limited to, removing the animal during emergency evacuation for events such as a fire alarm. Emergency personnel will determine whether to remove the animal and may not be held responsible for the care, damage to, or loss of the animal. The Owner must provide the University with the name and contact information for someone who does not reside in
University Housing and who can take responsibility for the animal within 12 hours should the Owner be unable or unavailable to care for it.

17. The individual must provide written consent for the Disability Resource Center to disclose information regarding the request for and presence of the ESA to those individuals who may be impacted by the presence of the animal including, but not limited to, Residence Life personnel and potential and/or actual roommate(s)/neighbor(s). Such information shall be limited to information related to the animal and shall not include information related to the individual’s disability. **Disciplinary Action and Removal of ESA**

Failure to comply with the Support Animal Owner Responsibilities listed above will be documented by Housing or Residence Life staff in incident reports. In keeping with the disciplinary process used in Housing, the standard response to violations will be:

- 1st Violation: Meeting with Area ProStaff, Written Warning and $100 Non-Compliance Fine
- 2nd Violation: Removal of the Approved Animal from University Housing

The University may require the individual to remove the animal from University housing if:

1. the animal poses a direct threat to the health or safety of others or causes substantial property damage to the property of others;
2. the animal’s presence results in a fundamental alteration of a University program;
3. the Owner does not comply with the Owner’s Responsibilities set forth above; or
4. the animal or its presence creates an unmanageable disturbance or interference with the University community.

The University will base such determinations upon the consideration of the behavior of the animal at issue, and not on speculation or fear about the harm or damages an animal may cause. Any removal of the animal will be done in consultation with the DRC and may be appealed to the Directors of Housing and Residence Life. Residents will be notified in writing that they need to remove their animal by Housing or Residence Life staff.

Once notified that an ESA must be removed, the Owner will have 48 hours to remove the animal. After 48 hours, Housing reserves the right to inspect the residence to ensure that the ESA has been removed. If the animal has not been removed after 48 hours, the University may have the animal removed to the nearest, appropriate animal shelter. Additionally, failure to comply with the order for removal will result in a referral to Student Conduct for consideration of sanctions.

**Service Animals in Housing**

The University recognizes the importance of Service Animals as defined by the Americans with Disabilities Act Amendments Act (ADAAA). USU is committed to allowing individuals with disabilities the use of a Service Animal on campus to facilitate their full-participation and equal access to the University’s programs and activities. A Service Animal is any dog that is individually trained to do work or perform tasks for the benefit of an individual with a disability. The work must be active and specifically related to the person’s disability. Simply providing comfort or emotional support does not qualify a dog as a service animal.

Individuals planning to have a Service Animal in their University Housing residence, will need to give sufficient notice to the Disability Resource Center to allow the appropriate arrangements regarding placement, roommates, etc. to be made. Service Animal Handlers will be asked to provide verification that their service animal has had the appropriate vaccinations and information related to their animal that will allow Housing to make appropriate arrangements.

**Expectations for Service Animal Handlers**

- The Handler is responsible for ensuring that the Service Animal is crated when the Handler is not present. The university reserves the right to inspect the enclosure to be used in containing the animal.
- When a Service Animal is outside the private individual living accommodations, it must be controlled by a leash or harness. No Handler shall permit their dog to go loose or run at large. If an animal is found running at large, the animal is subject to capture and confinement and immediate removal from University housing. The Handler is required to immediately clean up after and properly dispose of their dog’s waste in a safe and sanitary manner.
- The Handler must provide the University with verification from a veterinarian that the Service Animal has received all the appropriate vaccinations.
- Service Animals and their crates, cages, and bedding, may not be washed using communal Housing facilities or equipment (i.e. showers, bathtubs, washing machines, etc.)
- A Handler may be charged for any damage caused by his or her dog beyond reasonable wear and tear to the same extent that Housing charges other individuals for damages beyond reasonable wear and tear. The Handler’s living
accommodations may also be inspected for fleas, ticks or other pests. If fleas, ticks or other pests are detected through inspection, the residence will be treated using approved fumigation methods. The Handler will be billed for the expense of any pest treatment above and beyond standard pest management in the residence. The University shall have the right to bill the Handler’s account for unmet obligations under this provision.

- Service Animals in training may not be left overnight in University Housing to be cared for by any individual other than the Handler. If the Handler is to be absent from his/her University residence overnight or longer, the animal must accompany the Handler or be boarded off campus.
- The Handler agrees to abide by all equally applicable residential policies that are unrelated to the individual’s disability such as assuring that the animal does not unduly interfere with the routine activities of the residence or cause difficulties for individuals who reside there.
- USU personnel shall not be required to provide care or food for any Service Animal including, but not limited to, removing the animal during emergency evacuation for events such as a fire alarm. Emergency personnel will determine whether to remove the animal and may not be held responsible for the care, damage to, or loss of the animal. The Handler must provide the University with the name and contact information for someone who does not reside in University Housing and who can take responsibility for the animal within 12 hours should the Handler be unable or unavailable to care for it.

In Single Housing, the individual must provide written consent for the Disability Resource Center to disclose information regarding the presence of the Service Animal to those individuals who may be impacted by the presence of the animal including, but not limited to, Residence Life personnel and potential and/or actual roommate(s)/neighbor(s). Such information shall be limited to information related to the animal and shall not include information related to the individual’s disability.

**Service Animals in Training**

The University recognizes the importance of Service Animals as defined by the Americans with Disabilities Act Amendments Act (ADAAA). While Service Animals in training are not recognized under the ADAAA, Utah State Law (§62A-5b-104) provides those same rights of access for individuals who are training Service Animals. Because Utah State Law does not clarify further its use of the term “in training,” University Housing, has established a definition based on accepted practices suggested by Assistance Dogs International (ADI). A service-dog-in-training is a dog, accompanied by its trainer, that is undergoing individual training to provide specific disability-related work or service for an individual with a disability. This does not include obedience training or socialization of puppies who may later become Service Animals (generally 12-18 months). Thus, adult dogs are recognized as being “in training” to provide disability-specific assistance only after they have completed an earlier period of socialization (obedience training, being house broken, getting acclimated to public places and every day activities as pets).

Students who are training Service Animals and who wish to bring those dogs into University Housing must register those dogs with the Disability Resource Center so that appropriate arrangements regarding placement, roommates, etc. may be made and all appropriate rules regarding expectations/behavior of the animal while on campus can be reviewed. Trainers will also be asked to provide information that allows the University to determine that the dog is indeed being trained as a Service Animal. Service dogs in training and their handlers will be expected to adhere to all of the requirements for Service Animals as outlined in this handbook.

**Expectations for Service Animal Trainers**

- Service Animals in Training must be fully housebroken before entering USU Housing.
- Noise and barking must be kept to a minimum. Service Animals in Training may not create an unmanageable disturbance in USU Housing.
- The Handler is responsible for ensuring that the Service Animal in Training is crated when the Handler is not present. The university reserves the right to inspect the enclosure to be used in containing the animal.
- When a Service Animal in Training is outside the private individual living accommodations, it must be controlled by a leash or harness. No Handler shall permit their dog to go loose or run at large. If an animal is found running at large, the animal is subject to capture and confinement and immediate removal from University housing.
- The Handler is required to immediately clean up after and properly dispose of their dog’s waste in a safe and sanitary manner.
• The Handler must provide the University with verification from a veterinarian that the Service Animal in Training has received all the appropriate vaccinations.
• Service Animals in Training and their crates, cages, and bedding, may not be washed using communal Housing facilities or equipment (i.e. showers, bathtubs, washing machines, etc.)
• A Handler may be charged for any damage caused by his or her dog beyond reasonable wear and tear to the same extent that Housing charges other individuals for damages beyond reasonable wear and tear. The Handler’s living accommodations may also be inspected for fleas, ticks or other pests. If fleas, ticks or other pests are detected through inspection, the residence will be treated using approved fumigation methods. The Handler will be billed for the expense of any pest treatment above and beyond standard pest management in the residence. The University shall have the right to bill the Handler’s account for unmet obligations under this provision.
• Service Animals in Training in training may not be left overnight in University Housing to be cared for by any individual other than the Handler. If the Handler is to be absent from his/her University residence overnight or longer, the animal must accompany the Handler or be boarded off campus.
• The Handler agrees to abide by all equally applicable residential policies that are unrelated to the individual’s disability such as assuring that the animal does not unduly interfere with the routine activities of the residence or cause difficulties for individuals who reside there.
• USU personnel shall not be required to provide care or food for any Service Animal in Training including, but not limited to, removing the animal during emergency evacuation for events such as a fire alarm. Emergency personnel will determine whether to remove the animal and may not be held responsible for the care, damage to, or loss of the animal. The Handler must provide the University with the name and contact information for someone who does not reside in University Housing and who can take responsibility for the animal within 12 hours should the Handler be unable or unavailable to care for it.
• The individual must provide written consent for the Disability Resource Center to disclose information regarding the presence of the Service Animal in Training to those individuals who may be impacted by the presence of the animal including, but not limited to, Residence Life personnel and potential and/or actual roommate(s)/neighbor(s). Such information shall be limited to information related to the animal and shall not include information related to the individual’s disability.

**Quiet Hours**

Each resident agrees to keep themselves, their visitor(s), and their guest(s) from any unreasonable behavior that would interrupt the sleep or study of others during quiet hours. Unreasonable noises and disturbances at all times include, but are not limited to:

• Loud volume radios, television, stereos, vacuums, pianos, musical instruments of other amplified, mechanical or electronic equipment (including voice, computer games, or electronically enhanced equipment).
• Excessive and loud behavior such as jumping or pounding in the apartment, loud noise in and around common areas, parking lots, laundry rooms, community centers, balconies, stairwells or lobbies.
• Belligerent conduct that includes verbal or physical threats, brandishing of weapons or objects that can be construed as weapons, derogatory comments.

The resident can be fined $25 for each occurrence of non-compliance. Throughout Finals Week, 24-hour Quiet Hours are in effect and will be enforced with a $50 fee for non-compliance.

The following Quiet Hours are established for Single Student Housing:
Sunday – Thursday: 10 p.m. - 8 a.m.
Friday and Saturday: Midnight - 8 a.m.

**Sexual Misconduct**

Sexual misconduct, as defined by University policy, is prohibited. If you have experienced sexual misconduct (sexual harassment, sexual assault, dating/domestic violence, or stalking) while living in USU housing, you can report this incident to your resident assistant and they can provide assistance and direct you to support resources. All Residence Life staff, including resident assistants, are responsible employees and are required to report any information they receive regarding sexual misconduct to the USU Title IX Coordinator. You may also report the incident using USU’s online reporting form.
Reports of sexual misconduct by any university student or employee are processed under the direction of the USU Title IX Coordinator. Information about the University’s Title IX process is available here: http://aaeo.usu.edu/sexualmisconduct/Navigating-Title-IX-Process.

Additional information about USU and community reporting options and support resources, including confidential resources, is available at http://www.usu.edu/sexual-assault/.

Remodeling of Facilities
The University reserves the right to close a Housing facility or a portion thereof for maintenance, custodial, cleaning, remodeling, or other purposes. Remodeling of housing units may occur during the academic year in close proximity to residents. Residents may be relocated as needed. No rent adjustment or compensation shall be claimed by a resident for minimal inconvenience or discomfort arising from remodeling projects, reasonable repairs, or other activities necessary to housing provided such occurrences are remedied or completed within a reasonable time.

Safety and Security
Theft is the number one crime reported on campus. Propped doors invite theft and violate fire code. It is the resident’s responsibility to keep their door(s) locked at all times to secure their room/apartment. Residents should carry their key with them at all times. Residents must not loan or give out their keys to anyone. Keys are for the sole use of the resident to whom they are issued. Propping doors open after they have been locked or using ANY items to keep doors from properly closing (such as dead bolts or tape/magnets over the door latch or door frame) is prohibited. All thefts of personal property should be reported immediately to the University Police and the Residence Life Staff.

Utah State University is not liable or responsible for theft or damage to personal property or damage or injury of any kind including loss of personal property, death, or bodily injury to a resident, or to a guest of a resident. Any claims for damage or injury arising from a resident's own negligence is hereby expressly waived and Utah State University and its employees are released from any and all liability for such injury. The personal safety of residents and the physical security of the residence halls depend in part on knowledge of security precautions. Police officers from the University Police Department patrol the campus 24 hours a day. Residence halls are locked at all times.

As an added safety measure, some residence halls have security cameras installed to record the activity of persons at each of the entry doors, hallways, and other common areas. These security cameras are not intended in any way to compromise the residents’ privacy but are helpful in catching vandalism, theft, and other major policy violations. Only Housing and Residence Life staff have access to viewing the camera recording. Camera footage will also be made available to any university administrator or police officer who requests the information in the performance of their duties. **All thefts, injuries, vandalism, or acts of violence should be reported to the police immediately.**

To have protection from the possibility of property losses or personal injury, residents are strongly encouraged to have their apartment property and personal belongings insured. Renter's insurance can be purchased through most local insurance companies, or contact National Student Services, Inc., Post Office Box 2137, Stillwater, Oklahoma 74076, or access their website at www.nssi.com. Personal possessions should be marked and engraved with names and driver’s license number.

**Student Code Article V** Section 3.B.16 also states: “Attempted or actual theft, possession, destruction, damage, or misuse of University property or property belonging to another person” will be considered student misconduct and will be reported to Student Conduct.

Vandalism and Defacing Policy
Defacing, removing, or destroying University or personal property (including, but not limited to, bulletin boards, posters, stickers, door tags, etc.) is vandalism and is prohibited. Intentional damage to, or improper use of, University or personal property is also prohibited and considered vandalism and may be considered Student Code Violations under **Article V** Section 3.B.16.
Residents are liable for any damage that they cause to Housing and Residence Life facilities or equipment, and may need to pay replacement or restoration costs. In each case, reasonable efforts will be made by Housing and Residence Life staff to determine actual responsibility. If the individual(s) responsible for damage cannot be identified, or will not come forward, these unattributed and avoidable damage(s) to public or common areas, the building exterior, or immediately adjacent grounds will be assessed to the community and divided as a separate sanction and/or charge per resident of that community.

If deemed appropriate, Housing and Residence Life staff will file a police report and legal action may be pursued.

Mischief and Pranking Policy

Practical jokes, pranks and mischievous behavior may damage property, harm other individuals, increase work for facilities staff, and also increase the noise level and disturb non-involved residents. Because of the danger to others, dropping or throwing any object out of, into, or onto University property is strictly prohibited. Residents and guests who engage in careless, willful, or malicious behaviors may be held responsible for damages and clean-up. In addition, disciplinary action may be taken. If the individual(s) responsible for damage cannot be identified, or will not come forward, these unattributed and avoidable damage(s) to public or common areas, the building exterior, or immediately adjacent grounds will be assessed to the community and divided as a separate sanction and/or charge per resident of that community.

Individual or group pranks, practical jokes and/or mischief that may lead to any of the following are not permitted:

- Harassment
- Harm
- Damage to University and/or Housing and Residence Life property
- Damage to personal property
- Damage that requires abnormal and/or unnecessary cleaning of residence hall buildings and facilities
- Disruption to community and/or individuals

If deemed appropriate, Housing and Residence Life staff will file a police report and legal action may be pursued.

Sales and Solicitations

Housing rooms/apartments/facilities are rented as student housing, and commercial endeavors are prohibited whether for profit or not. A commercial endeavor is a business and can be classified as:

- A showplace, location or advertising headquarters for a product (including website or voicemail).
- A place for producing a product.
- A storage area for a product to be sold.
- Taking orders for products

Students cannot use University addresses, phone numbers, or email accounts to advertise a commercial business. Also, products cannot be shipped to a University address for distribution to customers.

Absolutely no door-to-door solicitation is permitted in or on Housing facilities without prior written authorization from the Director for Residence Life. Solicitation is defined as the sale, or offer for sale, of any property or service. Solicitation also includes the recruitment of a person for any organization or business. A resident must notify Housing or Campus Police if solicitors or salespersons are on the premises.

Advertising Flyers, and Posters

All posted advertisements (banners, flyers, posters, etc.) must have our prior authorization. Housing may elect to approve distribution of materials or information from student organizations or campus departments (including door-to-door dissemination) which it deems of importance or relevant to residents.

Self-Care

While living in the residence halls, all residents are responsible for their own self-care including appropriate personal hygiene, mental health, management of medical conditions or illnesses, and/or disability-related personal needs. Residents
are expected to utilize the various resources available to them to provide this care for themselves. Residents may not ask roommates, Housing and Residence Life staff, or other residents living within their community to be responsible for their self-care needs. Residents with the inability to care for themselves and/or who cause harm to themselves or others may be asked to adhere to a Behavioral Expectation Plan and/or leave the residence. To request disability-related accommodation please contact the Disability Resource Center.

**Smoking**

The [Student Code Article V](#) Section 3.B.5.a states: “Smoking in (or within 25 feet of any entry to) any building owned or controlled by the University or, if under the age of 19, smoking or otherwise using any cigar, cigarette, or tobacco product in any form” is considered student misconduct and will be reported to student conduct.

The "Utah Indoor Clean Air Act" (1995) states: "a person may not smoke in a building, or portion of a building that is owned, leased, or occupied by the state or any state agency." Utah State University is a state-owned agency; therefore, all Housing property is subject to this act. Housing can levy fines in the amount of $25 for failure to comply, and/or seek eviction.

Smoking outside must take place a minimum of twenty-five (25) feet away from any building entrance, exit, air-intake, and windows that can be opened. Used cigarettes must be properly disposed of and not left on the grounds. Improper disposal is considered littering and could result in a fine of $299.

Hookahs, water bongs and vapor cigarettes are prohibited in all housing areas.
