WELCOME TO UTAH STATE UNIVERSITY, HOME OF THE AGGIES.

We hope the next few years are full of learning and growth for your student, and that you feel welcomed as a member of the Aggie family. As the parent of an Aggie, I have seen firsthand the personal growth that occurs as students participate in the learning, discovery, and engagement available at this world-class university.

Students regularly cite parents among the greatest influences in their lives. We recognize you are a tremendous partner in helping your student reach his or her goals. We thank you for your influence and support as your student experiences both the successes and challenges that will shape his or her experience as a learner. Whether you are a returning parent, a first-time parent, or alumni, this handbook will provide you with resources and information to help support your student’s transition to college.

While the past year was challenging, we are anticipating fall semester back in the classroom and looking forward to offering students a more traditional Aggie experience. Our campus community has shown enormous resilience during the pandemic, and we are excited to come together again on campus. To stay up-to-date on the university’s plans, please visit usu.edu/parents, subscribe to the Aggie Parent and Family Podcast, and join the Parent and Family Network for regular newsletter communications.

Welcome to Utah State, and welcome to the Aggie family.

Sincerely,

Noelle E. Cockett, President
USU PARENT & FAMILY MISSION & OUTCOMES

The USU Parent & Family Programs Mission is to serve families through programming designed to equip parents with resources they need to help their student succeed at Utah State University. We do this by providing Parent Orientation, Parent Publications & Podcasts, and Deferment & Leave of Absence Outreach. We provide parents and families with these resources to promote student success and independence at any stage in their student’s academic career at Utah State University.

Parent & Family Outcomes

To empower parents and families to navigate this new part of their student’s life.

To understand the structure and mission of the university.

To assist parents in helping their student to become a learner.

To learn intentional practices and behaviors that parents and families can engage in and not engage in to support their student along their path to becoming an educated person.

To discover the resources that are available for parents to help their student succeed.

To help parents become a part of the Aggie Family.

Parent & Family Big Questions

1. How can a university education translate into success for my student?
   - What is an educated person?
   - How do general education, the major, and the overall student experience help my student become an educated person?

2. How can I intentionally engage in ways that will help my student be successful?
   - What does an intentional college parent look like?
   - How do I best support my student along their path to becoming an educated person? What might interfere?
   - How do I know if my student is being successful?

3. How do I take advantage of the resources available to both parents and students?
   - What resources are available to parents of college students?
   - How do I balance being an involved parent while helping my student develop or maintain their independence?
   - How can I support my student as they connect to, participate in, and create communities that contribute to success and belonging?

**WHAT IS AN AGGIE**

**Aggie:** an agricultural school or college; also: a student at such an institution.

“When I ask people where they went to school, they always reply, ”I’m an Aggie.” People do not just graduate from USU; it becomes a way of life. I will forever bleed blue!”

– Sian Smith

“Being an Aggie means you are part of something larger than yourself. You are part of the Aggie family, connected to other Aggies around the world. It changes you forever. It becomes who you are. Suddenly ‘I’m an Aggie!’ takes on a whole new meaning.”

– Scott Olson

**JOIN THE AGGIE NETWORK**

Joining The Aggie Network puts students in touch with USU alumni, faculty/staff and other professionals eager to help you expand your professional network, learn about new job and internship opportunities and seek career advice from a community of fellow Aggies.
PARENT ORIENTATION

The college years are a time of transition for young people and their parents. There is no way to move through such an important passage without some feelings of dislocation and loss. But information and insight can help parents negotiate this significant and often neglected phase of their children’s lives.

– Karen Coburn & Madge Treeger

ADVICE FOR AN AGGIE PARENT
usu.edu/parents/tips

SOME BASIC FACTS PARENTS SHOULD KNOW:
• People with bachelor’s degrees earn about $1 million more in additional income over their lifetime than those without.
• Financial difficulties are the number one reason students drop out, according to self-reported data.
• Nationally, less than 60% of students who begin a 4-year degree complete it within 6 years.
• Students who feel a connection to campus and engage with co- and extra-curricular activities are more likely to graduate.

ENCOURAGE STUDENTS TO DO THE FOLLOWING:
• Enroll in USU 1010: University Connections.
• Meet with an advisor to create an academic plan.
• Enroll in 15 credits each semester (or 30 credits each year).
• Complete the FAFSA each fall, even if they don’t think they are Pell-eligible. (Most scholarships require a completed FAFSA.)
• Go to usu.edu/scholarships each January to find and apply for scholarships.
• Get involved with co- and extra-curricular activities (this includes clubs, intramural sports, research with faculty, leadership, etc.).
• Create a 4-year financial plan.

WHAT USU IS DOING TO HELP STUDENTS GRADUATE:
• The University Catalog has suggested 4-year plans for each major (see catalog.usu.edu and select Degree Maps).
• Thrive.usu.edu helps students do more than just survive. This includes a media library full of stories of persistence.
• USU has a variety of resources found in this guidebook. Student fees help pay for these services, so students should use them.
• For more tips on helping your student succeed at every stage in their college career, visit usu.edu/parents/tips.

WHAT IS CONNECTIONS

USU 1010 Connections is a two-credit academic course designed to ease your student’s transition to Utah State. It is an optional course, but is highly recommended to gain an edge and learn exactly what it takes to be successful at USU.

“My instructor was very effective in helping me transition to Utah State University. She helped us know how to read a class syllabus and encouraged us to stay organized. She gave us a taste of different programs we can become involved in, such as the Honors Program, the Service-Learning Program, and the Study Abroad Program. She helped us know what to expect and what we needed to do to be ready for college.”

–First-Year Connections Student

WHAT CAN MY STUDENT EXPECT?

- 2-Credit Academic Course
- Ease into college life at USU
- Discussing habits of mind
- Interactive learning
- Navigating online tools
- Finding classes and resources on campus
- Class of approximately 30 students
- A faculty mentor
- A peer mentor
ACADEMICS

Along with graduation requirements listed in the catalog, all students must complete university studies requirements. These are tracked in each student’s Degree Works profile.

DEGREE WORKS

Degree Works is a degree auditing report that can show students their progress toward their degree. It allows them to look at other majors to see how many of the requirements they have fulfilled. It also has a planning tool that can allow students and advisors to plan students’ schedules for future semesters.

Degree Works can be found in the student’s Banner account in myUSU.
WHY STUDENTS NEED GENERAL EDUCATION COURSES

Students and parents sometimes question the need for general education classes that appear to have little relevance to a student’s major or career. The data in the table below* demonstrates the remarkable overlap between 21st century job skills and general education outcomes.

**UNDERGRADUATE COST OF ATTENDANCE**

Paying for college can be a source of apprehension for both parents and students. Let us take some of the mystery out of the process by explaining the charges you can expect.

**TUITION AND FEES**

Each year the university publishes a tuition and fee table outlining charges students pay based on the number of credits they take. These charts show not only tuition, but also student fees each student pays per semester to maintain campus services and resources. Some courses also have additional course fees for things not covered by tuition, such as lab supplies or PE equipment.

1. In addition to these regular tuition and fees, there will also be differential tuition for certain courses.
2. Students who live out of state are charged special tuition-only rates for online courses.
3. Charges listed above are per semester. More information can be found at usu.edu/registrar/tuition.

**TEXTBOOKS AND COURSE MATERIALS**

approx. $200-500/semester (pg. 49)

Save money by shopping around, renting, buying used, or selling books back to the Campus Store at the end of the semester. Course materials purchased at the Campus Store are tax-free.

**PARKING**

On-campus Permit: $75-300/school year. Visit parking.usu.edu for more information.

Save money by leaving the car at home and using Logan’s fare-free bus system or Aggie Blue Bike’s free bike rental.

**HOUSING AND DINING**

On-campus Housing and Dining: Prices vary based on room preference and meal plan (pgs 38-40).

On-campus housing includes city utilities, gas, cable TV, internet, and free laundry facilities.

Save money by using the Aggie Express account for regular food purchases around campus.

CREDIT LOAD

Because 12-18 credits are the same price, students can save thousands of dollars in tuition and fees by taking 15 credits each semester, rather than 12. Every student is different, but overall, students who take 15 credits have higher GPAs than those who take less.

FINANCIAL AID (FAFSA)
usu.edu/financialaid

Complete a FAFSA as early as possible to help you plan financially for the upcoming school year and meet tuition deadlines. The application is free and online at fafsa.gov. Financial aid counselors can answer questions about federal aid, and help you navigate the often-overwhelming process of paying for college.

PELL GRANTS
Money is given by the government based on financial need. Does not need to be repaid.

STUDENT LOANS
Low-interest federal loans paid back over 10+ years after leaving school.

WORK STUDY
Part-time work at the university, awarded based on financial need. A completed FAFSA is required.

SCHOLARSHIPS
usu.edu/scholarships

With a few exceptions, incoming student scholarships have been awarded by the time Aggie Orientation begins. Incoming students were awarded scholarships according to the parameters listed on the admissions page, provided they applied for USU by the deadline. In the future, students can apply for continuing-student scholarships at usu.edu/scholarships. Deadlines vary, but are typically around January or February for the following school year.

Check with your local city offices, financial institutions, and employers to see if they offer scholarships.

STUDENT EMPLOYMENT

Students can find on-campus, off-campus, and work-study jobs through the Aggie Handshake link in the MyUSU portal. We recommend full-time students work no more than 20 hours per week in order to maintain balance.

ACCOUNT SUMMARY

TouchNet

TouchNet is a 24 hour service offered to students and their families for viewing bills, making payments, and managing their student account. Students can authorize other individuals, such as parents or grandparents, to create their own login credentials to view and make payments on the student’s behalf.

WHAT IS FERPA

The Family Educational Rights and Privacy Act (FERPA) is a U.S. federal law that protects the privacy of student educational records. FERPA protects your student’s rights by ensuring we don’t release any information to anyone without their consent; that includes you, as parents. In order for you to have access to this information, your student will need to go to myid.usu.edu, and assign you as a delegate. To find out more about FERPA, visit usu.edu/registrar/ferpa-info.

WHAT IS A DELEGATE

A delegate is especially useful for, but not limited to, students who may be taking a leave of absence from the university for church or military service. If your student plans to take a leave of absence, a delegate can assist them in making a smooth transition back to USU by acting on their behalf.

The adding, changing, or removing of a security phrase and/or delegates is the sole responsibility of the student.

WHAT CAN A DELEGATE DO

A delegate may act on a student's behalf at USU, which means a delegate may:

- Have full access to the student’s information,
- Change or update the student’s information, including their password,
- Access the student’s information in Banner (Access), including their grades and finances, and add or drop classes on the student’s behalf.

A few things you may want to know about delegates...

- The student will need to create a security phrase in order to create a delegate.
- Students should designate only those they can trust as their delegate(s) and/or entrust those individuals with their security phrase.

USU LIBRARIES
library.usu.edu

The Merrill-Cazier Library is the hub of Utah State University, especially for students. The library is a space where students can collaborate, learn, and explore. It has both individual and group study spaces, a cafe, information experts who love to help, and innovative technology like a virtual reality lab and one-button recording studio.

BOOK A LIBRARIAN
library2.usu.edu/librarians

Students can meet one-on-one with a subject-specific librarian to focus their research topics, find and evaluate information, cite sources, and much more.

ONLINE CHAT SERVICE
library.usu.edu/ask

Librarians are available for immediate assistance to answer research or library related questions through chat Monday through Friday from 9am-5pm.

COURSE RESERVES

“Greetings from the First-Year Experience Librarian! I know how overwhelming the first-year of college can be, so I am here to answer any questions you or your students have about the library. Not only am I passionate about making students aware of library resources, but I also want to build their confidence in navigating them. I am excited to help your students transition to college life.”
UNDERGRADUATE RESEARCH
research.usu.edu/undergradresearch

WHAT IS UNDERGRADUATE RESEARCH? WHY SHOULD I GET INVOLVED?

Undergraduate Research allows your student to passionately explore their curiosity. While getting a degree gives them a foundation of knowledge, research allows them to explore further and ask why and how things work.

Research allows your student to ask questions that haven’t been answered yet and find answers for themselves. Through research they can apply their education to solve problems and explore their field in the “real world.” Maybe your student wants to better understand the quality of life in nursing homes. Maybe they want to explore ways that engineering testing methods can be improved. Maybe they want to explore microbes and their influence on humans and other organisms. There are opportunities to ask questions and conduct research in all fields. There are many things that are still unknown in every field. Research allows your student to explore the unknown.

Research is about being passionate and curious. It is about your student customizing their education to things that fascinate them! Research gives students the skills to think for themselves, critically evaluate information, and use their creativity to explore.

WHAT DO STUDENTS GAIN FROM UNDERGRADUATE RESEARCH?

- **Analytical Skills**
- **Leadership**
- **Communication**
- **Troubleshooting**
- **Writing Skills**
- **Creativity**

**USU RESEARCH**

- Utah State University’s undergraduate research program was established in 1975.
- Our undergraduate research program is the second oldest in the nation only behind MIT.
- Undergraduate Researchers are more likely to receive prestigious scholarships such as the Goldwater, Rhodes, and Udall.
- Students who are involved with research can earn a transcript designation as “research scholars,” helping them stand out on job or graduate school applications.
HOW TO GET INVOLVED

Students have the opportunity to get involved in research in a variety of ways. They may do an independent project, participate in field research, or work in a lab or art studio. Undergraduates may explore research projects before finding a project that they “click” with, and that’s okay! If they are passionate about their research, their project will be more likely to succeed and they will gain more from it. They can conduct research within their major or outside of their major. Interdisciplinary research is encouraged and supported. We encourage students to explore options and find something that interests them.

One great way for your student to get involved is through the classroom. Students may be inspired by a professor who they would like to work with.

Most instructors conduct research and will welcome a student’s interest in getting involved. A great way to start is by encouraging your student to ask their instructors, “Do you work with undergraduates on research?”

Encourage your student to talk to people within their major. Other undergraduates in your student’s field may have experience with professors or projects that your student may find interesting. They may be able to share their personal experience about what their role was in different projects, what they enjoyed, or things that were a struggle.

Other people who may be able to direct your student are undergraduate academic advisors and honors advisors. The Undergraduate Research Office is another great resource where your student can find additional opportunities.

College and departmental websites may also list research happening in various fields. Encourage your student to look through the faculty profiles in their department, and explore various research projects to see if anything is of interest.

CONTACTS

OFFICE HOURS
Monday–Friday: 8:00 am - 5:00 pm
Saturday–Sunday: Closed
Many students will need accommodations at some point during their university experience. If your student has used an IEP, 504 plan or had previous accommodations, the Disability Resource Center (DRC) is one office you’ll want to check out! If your student has not been previously diagnosed but they are struggling with their academics, the DRC may be able to help.

The Disability Resource Center works to ensure that students with disabilities can fully participate in all the University programs services and activities. Students who have, or suspect they may have, a physical, mental health or learning disability that may require accommodations, should contact the DRC as soon as possible.

It is easy to get started. Just fill out an application and schedule an appointment by calling 435.797.2444. During an initial appointment with an Accessibility Consultant, students will discuss their academic goals, their current academic standing, and any educational barriers they are experiencing. Using this information, along with any documentation that may be needed, appropriate accommodations will be established.

**Common accommodations include:**

- Extended time on tests.
- Reduce distraction testing environment.
- Note takers or assistive note taking technology.
- Audio versions of books.
- ASL interpreting.
- Transcribers.
- Architectural access.
- Accessible on-campus housing.
Your student’s success is our top priority. We provide fitness facilities, study rooms, computer labs, lounge areas, leisure activities, dining options, and social programs to give your student the absolute best college experience possible.

SEXUAL MISCONDUCT
sexualrespect.usu.edu

Utah State University works to educate students about ways to prevent sexual misconduct, and to inform students about reporting procedures and available resources.

All incoming and transfer students at the Logan, Eastern, and Blanding campuses are required to go through an in-person interactive, peer-led training about consent, healthy relationships, sexual violence, and ways to create a safer campus. Incoming and transfer students at Statewide Campuses, even online-only students, are required to complete an online course about the same topics. To learn more about the in-person training and online course, visit prevention.usu.edu.

Utah State University is working hard to make this fall a more traditional Aggie experience for incoming and current students. With COVID-19 case numbers currently trending down in Utah and vaccinations increasing rapidly, Utah State University announced plans to expand the number of in-person classes and campus activities in 2021.

The university will continue to implement guidance from federal, state and local health officials as COVID-19 will likely still circulate. USU does not require students to be vaccinated, but they are highly encouraged to do so in order to protect community members and to allow students to return to social activities that help define the Aggie experience.
