

In the 2013 Utah Legislative Session, a law was passed requiring that emissions inspections be performed for all vehicles “parked on the college or university campus or property” (Utah Code 41-6a-1642) prior to drivers being issued a parking permit for their vehicle.

Locate your state and county on the following page.

If your vehicle is registered in the state and county on the following page, you do **NOT** need proof of emissions to purchase a permit.

If you do **NOT** find the state and county, where your vehicle is registered on the page below go to www.parking.usu.edu and click on Cache County tab to review emissions requirement details. You **WILL** be required to show proof of emissions when purchasing a parking permit. We can Schedule an emissions test for you at Motor Pool on campus. The cost for emissions testing is \$15.00.

Scroll down and locate the state/county where your vehicle is registered.

Safety and/or emission inspections must be completed by the jurisdiction where the vehicle is located, before a vehicle can be registered in Utah.

Section 1A - States Requiring Safety Inspection	Section 2A - Jurisdictions Requiring Emission Inspection	As of 2014, the areas listed below must meet EPA standards. The list below does not reflect changes by EPA after this printing.
