

Basic Wetland Delineation

August 19 & 20, 2024 with culminating assignment

Logan, UT | 1.5 CEU Credits | \$700 + \$45 CEU fee

Instructors: Dr. Karin Kettenring & Nate Norman

USU Students: Register for WATS6900 Wetland Delineation in Banner

- Gain a basic understanding of wetland delineation procedures and the underlying ecological, biogeochemical, and hydrological processes that shape them
- Learn to apply wetland delineation course material in real-world wetland settings when problem-solving and decision-making in the face of uncertainty are necessary (especially with problematic soil situations)
- Develop specific skills, competencies, and points of view needed by wetland professionals in the field of delineation

Register:
