

Care About Childcare

Dear Child Care Provider,

Did you know that developmental screening is a good first step in getting to know a child? It helps you to learn:

- Which developmental milestones children have reached
- If children have any specific physical health needs
- If children have possible hearing or vision concerns
- Each child's social and emotional strengths and challenges

[Click here](#) for a flyer from Help Me Grow, an agency that can help you incorporate developmental screening using the Ages and Stages Questionnaires (ASQ-3 and ASQ-SE) into your program.

Please note that if you unsubscribe from this email, you will be unsubscribing from all emails sent out by URPD, CAC and OCC. This would include emails relating to grants, childcare subsidy and professional development. Please contact your local [CAC office](#) with any questions or concerns about emails you receive.
