29 COUNTIES

UPHILL ROAD

2025 Fall Research Study

For the 3rd year in a row, *Utah Women & Leadership Project* researchers have conducted a statewide study to establish a baseline of public perceptions related to the awareness, understanding, and attitudes around challenges that Utah women and girls face.

An 83-item survey was created based on existing literature and survey instruments, guidance from experts, and the baseline data needed by BWF leaders in each of the 18 areas of focus.

There were 13 demographic questions, plus 2 open-ended questions about the greatest challenges and opportunities that women and girls face in the state.

Statewide Convenience Sample = 3,267 (*Emery, Grand and San Juan =*)

Statewide Representative Sample = 1,945 (*Emery, Grand and San Juan =*)

DATA REPRESENTATION

- Headings on each slide show the percentage of respondents in the combined categories: somewhat agree, agree and strongly agree.
- Visualizations compare the level of agreement in the county or region with the statewide levels of Utahns' agreement for the representative sampling.
- Agreement levels reflect the perspective of both women and men.
- Survey statements are in the accompanying text box.
- More detailed analysis can be found on the UWLP website.

Education

- Finance
- Higher Education Attainment
- K-12 Initiatives

69% OF RESPONDENTS IN EMERY, GRAND, & SAN JUAN COUNTIES ARE AWARE OF RESOURCES THAT CAN HELP THEM ACHIEVE FINANCIAL SECURITY.
