**Investing 101** – Stocks? Bonds? Mutual Funds? Real Estate? Gold? Crypto-currency? What are the different investments options out there and how do they work? What is risk? What fees are associated with investing? When do I need an advisor? This class will help you understand the basics for your investment portfolio foundation.

**Entrepreneurship** - Mary will be sharing her inspiring story of building one of the largest catering companies in Utah, with a few hundred dollars and a cache of down-home recipes. The entrepreneurial wisdom and financial lessons she learned along the way are priceless to anyone venturing into business ownership.

Mary Crafts-Homer’s endless creativity, rock-solid integrity, and dazzling zest for life are just the beginning of her story. She’s launched a podcast channel “Crafting a Meaningful Live”, is an engaging keynote speaker, a consultant in business and team building, a champion for Utah, and a masterful caterer – equally adept at wowing 5,000 corporate dinner guests, and, assuring your daughter’s wedding is a magical experience. Retirement Strategies – Retirement is not a destination, it is a journey that begins when the day job ends. How do you prepare for such an adventure that can last 30 years? Have a M.A.P. (master action plan) in place to guide you! From 401Ks, Pensions, Roth IRAs, Traditional IRAs, SIMPLE IRAs, Social Security and more, this class will discuss different retirement accounts, investment options, and diversification and income distribution strategies. Whether you are an entrepreneur, intrapreneur, or domestic engineer, it is never too early (or late) to begin putting your financial M.A.P. in place.

Know Your Numbers, Know Your Business – Successful communication with your money can feel as unlikely as the bluebird of paradise landing on your shoulder, but it doesn’t have to be. If you don’t know your numbers, you don’t know your business. Come to this session and learn how to define the difference between a hobby that creates a little side income, or a business. To know your numbers and control your income and expenses—it’s the best gift you can give yourself.

Christine Odle is a Small Business Financial Coach and Personal Financial Coach and Speaker. With home bases in Norwood, Colorado and St. George, Utah, she and her husband own several small businesses and have personally lived debt free and run their businesses debt free since crawling out from under more than $500,000 in debt in 2009. She works with small business owners and offers financial education and coaching to individuals and family via her company’s financial wellness programs. She earned BA in Business & Mathematics from Fort Lewis College and has a background in banking and small business financial management.

Principally Protected Investments – As a matter of risk management within a portfolio, certain investment tools, available through insurance companies, are created with guarantees and protections against loss. These tools are called annuities. This class will explore the benefits and fees associated with various types of annuities such as fixed, fixed-index, and variable, and when they may be appropriate to be utilized as a piece of an over-all diversified portfolio.
